Attention! All Republican voters should remember that the last days for registration of voters are September 1st and 2nd—Tuesday and Wednesday, and that Saturday, Oct. 3d is the last day for payment of taxes in order to vote at the next election, Nov. 3d, which must be assessed two months before election. Go to the polling places and see if your name is on the registry list.

TAMMANY is raising a \$1,000,000 campaign fund, which is a mere bagatelle compared with what the tenderloin expected. THE pros and cons of calling the extra session to convene in October are being discussed with unusual interest in Washington.

THE Reliance yesterday won the second race for the cup, beating Shamrock III by 1 minute and 19 seconds. Close business that. JOSEPH PULITZER has given two million dollars to found a school of Journalism.

STREET railroads have more than doubled their traffic, nearly trebled their mileage and increased their capitalization fivefold since 1890. THE effort to manœuvre a fleet of war ships in the comparatively narrow Long Island Sound resulted in the ramming of one of the torpedo destroyers.

SENATOR GORMAN'S views on a Democratic platform are said to be too mild. Don't shoot; the Maryland man is doing the best he can without an issue. KING ALFONSO of Spain, the puny child of a sickly father, is reported to be in declining health.

SOUTHERN Europe deserves to be called the dark and bloody ground of the world's map. MASSACRES and assassinations are always going on somewhere in that region. VICE ADMIRAL CERVEIRA has resigned as chief of staff of the Spanish navy.

THE representative of King Melenek who came to this country to find an expert to run the national mint has discovered that there are nearly 400 persons who are qualified by experience to make and shove the queer. Gov. TAYLOR was deliberately robbed of the office to which he was elected in Kentucky.

A CANADIAN revenue cutter on Lake Erie fired many shots at a poaching American fishing boat without sending it to the bottom. FISHERMEN should avoid such scrapes, even if the Canuck men behind the gun are out of practice. A FRENCH feminine writer suggests that every couple before marriage should be compelled to insure the future of their children at a rate of not less than one cent a day.

WHEN the resolution against the "Press Muzzle" is being vociferously passed by the coming State convention of our Democratic friends, it will be in order for one of the fiery delegates to rise to a point of order and ask why State Chairman, J. K. P. Hall sat silent in his seat, while the vote on that measure was being taken.

GOVERNMENT crop reports show an estimated yield this year of 2,047,000,000 bushels of corn, 760,000,000 bushels of oats and 630,000,000 bushels of wheat. These figures are below those of last year, but still large enough to base upon them a further continuance of our national prosperity.

OUR Congressman, Hon. J. C. Sibley, is now the ranking member of the Committee on Postoffice and Postroads, and is in line to be named by the new Speaker of next December as Chairman of that committee, which will be one of the most important of all Chairmanships.

FIFTY-THREE foreign nations have accepted the invitations to make exhibits at the St. Louis Exposition. Forty-two countries having appropriated sums aggregating \$6,330,000 to defray the expenses of their exhibits.

AFTER all, the race suicide which President Roosevelt objects is not a reasonable limit on the families of the poor but the unreasonable limit placed on the families of the rich and comfortably off.

THAT was a notable ruling made by President Roosevelt recently, in which he declares that, while government employees have the right to join any labor union they wish, the local rule of that union shall not have control over governmental business.

A BAREFACED attempt is being made by the political enemies of President Roosevelt to make it appear to the general public, and particularly to the friends of trades unions, that he is opposed to union labor. Of course, there is no ground for such a charge.

THE Philadelphia School for Nurses in alliance with the American National Red Cross has undertaken to train a sufficient number of young women who shall be subject to the call of the Red Cross or the government for prompt nursing service in the event of national calamities or in case of war.

Co-incidence with this plan an effort will be made to carry nursing skill and hospital knowledge into small towns and rural districts of Pennsylvania, New Jersey, Delaware, and Maryland, by taking some of their young women and training them in this science.
