Labor day occurs next Monday, and is one of the recognized legal holidays in this State. Right in this immediate vicinity it is chiefly observed as a day on which the overworked bank officials take a rest.

Several residences in town have lately been beautified by new coats of paint, among them being James Landers' new domicile, or the Presbyterian parsonage, and F. R. and Charles Lanson's homes.

Wm. Albaugh of Church Hill, Hickory twp., has a 2-horse wagon, 31 inch skein, complete and good as new, which he desires to trade for a good single-horse wagon with thills. In writing, address East Hickory, Pa.

The borough schools opened auspiciously on Monday, and every room started in the work in fine style. The total enrollment was 196, which number will be considerably augmented before the week is ended.

At last the disgraceful excuse for a sidewalk near the river bridge has given away to a substantial new one, and the lives and limbs of pedestrians are no longer menaced by the old makeshift, thanks to whomsoever thanks are due.

In the Review of Reviews for September, a character sketch of the new Pope, Pius X., is contributed by Mr. W. T. Stead, while Dr. Talcott Williams writes suggestively on the growing democracy of the Papacy, as illustrated in the last Conclave.

The second game of cricket was played on Saturday last between two elevens under Captains Hopkins and Howard Kelly, the latter winning by the close score of 23 to 22. There was some good playing on both sides, showing considerable improvement over the first game.

Beginning with this week, the hour for holding all the evening services in the Presbyterian Church is changed from 8:00 to 7:30 p. m. The church has placed an ample supply of Chapel Hymnals in the pew, so that all the worshippers can take part in the singing in the public services.

There is a milliners' convention in Chicago this week, called for the purpose of making women's hats more attractive and expensive. The married men of the country generally will be praying vigorously for a Windy City gale to blow the whole concern into Lake Michigan.

During the storm last Friday evening the dwelling house of Jared Huling, on Vine street, near the Catholic church, was struck by lightning. The damage to the building was slight, and none of the inmates were injured. This is the fourth time within the past month that lightning has struck in Tionesta.

At the State Hospital at North Warren last week, in a game of base ball between the attendants and the Sugar Grove club, David Blum, a former crack Tionesta player pitched a record-making game for his team. The game resulted 1-3 in favor of the Hospital team, and Davy had fifteen strike-outs to his credit.

On October 21st a civil service examination will be held at Warren, Pa., for stenographers and typewriters for the services principally in Washington and the Philippines. The entrance salary ranges from \$540 to \$1,400 per year. Accurate stenographers and typewriters are required who can write at least 35 words a minute in typewriting and 50 in stenography.

The C. A. C. team of Warren is billed to play ball with the Tionesta team here this afternoon. The game will be called at 2 o'clock, and is expected to be a good one, as the visitors are said to be a strong aggregation. Friday North Clarendon is booked to play a return game here. They walloped our boys a couple of weeks ago, and the prospects for a snappy game are good.

Tionesta went over to Pleasantville and donated the players of that hamlet a game Monday of this week. At the beginning of the ninth inning the game stood 9-3 in Tionesta's favor, and in their half of the ninth the Pleasantville boys piled 7 runs, leaving the game stand 10-9 in favor of the other fellows. A Garrison finish sure enough.

Summing up the base ball results as affecting the Marienville team's double defeat here last week, the Express puts it thus: "The only explanation that seems to fill the bill is simply that our boys could not connect with the ball when the hits were needed. They were treated royally." And that's the way Tionesta always treats gentlemen.

A rousing big flood in the river this week is letting out a good many boats and barges from the yards here and at Nebraska, Hickory and Grunderville, boats being mostly loaded. This condition is greatly appreciated by the lumbermen at this time as they realize that they will not have so much stuff to look after late in the fall, when it means hustle or get frozen in.

When the public has learned to look for a merchant's advertisement he has achieved success. A merchant who advertises persistently soon claims the attention of the newspaper readers and they expect to find his advertisement as surely as they expect news in the paper. And when they acquire the habit of reading the advertisements they fall into the habit of buying of the advertiser.

A new counterfeit \$10 bill of the series of 1891, a clever imitation of the genuine, is in circulation. The bogus note bears the portrait of Hendricks and has the check letter "D." Two defects in the counterfeit that can easily be detected are that the bill is about one-eighth of an inch shorter than the genuine, and that it contains no silk threads. As yet none have gotten into circulation in this office.

The farmers of this latitude are having a serious time with their oats crop during this wet weather. Most of the crop is in shocks, and there are acres of them out of doors and growing like weeds. The yield was a large one this season, and when cut gave promise of the best that had been harvested for many years, but the probability now is that the returns will be scarcely half the average of the other years.

Mr. and Mrs. J. G. Bigony were called upon to mourn the loss of their baby boy, George, who died yesterday morning about 7 o'clock, of cholera infantum, after a brief illness. The child was aged eleven months. Funeral services were held this morning at the house, and the body of the little one was laid to rest in Riverside cemetery. The parents have the sympathy of many friends in this bereavement.

The toll bridge across the Allegheny river at Foxburg has been placed in the hands of a receiver, at the instance of the Union Trust Company, of New York, which holds a mortgage on the structure. All toll bridges ought to be in the hands of the people, and such things as holding travelers up for a "fippenny bit" at every turn relegated to the dark ages. Toll roads are a thing of the past, and toll bridges ought to be.

On Thursdays, September 10, 17, and 24, and October 1, 8, 15, and 22, 1903, the Pennsylvania Railroad Company will sell excursion tickets from all points on the River Division, including the Plum Creek branch, to Pittsburgh, at reduced rates, including admission to the exposition. The tickets will be good on regular trains on day of issue, and will be valid for return passage within three days, including date of sale.

The opening of the public schools this week in almost all sections is also the opening of the doors of opportunity to thousands of American boys and girls. In no other country on earth are the same chances given to the young to succeed as in ours, and the splendid results are seen in the fine body of public men and women, who have been lifted by the public schools of the land from lowly ranks to fill the most distinguished places.

Young people who are anxious to improve their opportunities to acquire an education can find facilities equal to the best in the Clarion State Normal School. Departments for Professional Training, Preparation for College, Musical Education, and Business Training are maintained at a high standard of efficiency. Physical culture is an important feature of the training from the kindergarten to the senior class of the Normal. In fact, the whole man is educated at Clarion; it

Miss Clara Leffingwell, a missionary who has just returned from China, will deliver an address in the Presbyterian church at this place, next Friday evening at 7:45. Miss Leffingwell is an entertaining speaker and her talk will be very interesting, as she passed through the perils of the Boxer uprising. A number of officers will also be exhibited. There should be a good attendance as the lecture is free and all are invited. Miss Leffingwell will speak Thursday evening in the Newmansville Free Methodist church. She also speaks in the F. M. church at Tidouate on Sunday afternoon, September 6th.

Mrs. Mealy, relict of the late Abraham Mealy, died at her home in Tionesta township, last Sunday morning about 5 o'clock, aged 70 years. The deceased had been ill for some time, the nature of her trouble being strangulated hernia, or rupture. The deceased was a woman highly respected in the community in which she had spent the greater portion of her life. She was an earnest Christian, a kind neighbor, and a fond mother. She is survived by several grown children. The funeral was held yesterday afternoon, the interment being in the cemetery near Wolf's Corners, by the side of her husband.

The rate at which our railroads are killing and maiming people continues steadily to increase. According to the report of the Interstate Commerce Commission on railroad accidents in the United States within the three months ending the 31st of March, 500 people were killed and 2,834 injured in train accidents. Other kinds of accidents, including those sustained by employees while at work, run up the total casualties to 827 killed and 11,431 injured. That these accidents cannot be put down entirely to the fault of the passengers and employees themselves is shown by the fact that during the quarter under consideration, 1,650 trains were in collision and 1,131 trains were derailed. Scientific American

Docking of horses is a fashion that does not add to the beauty of a horse and no trained artist or person of cultivated artistic taste delights to see the mutilated tail. The custom has been ruled out of the army by Secretary Root who has given orders that no alteration in tail, main or forelock of any United States Government horse is to be allowed. Either the humane societies have won a notable victory or Mr. Root and his advisers have suddenly awakened to the cruelty of the practice.

A hearty welcome awaits all who attend the Tenth Annual State Luther League Convention, Tuesday and Wednesday, October 20-21, 1903, in the charming City of Reading. All earnest League Workers and their friends who can spare the time and money should not fail to take advantage of the well known hospitality of the people of Reading and vicinity. The Press Committee, in behalf of the convention, extends to all a most hearty welcome.

Dr. J. W. Morrow, State Quarantine Officer for Forest county, was called to Barnett township last week on account of some supposed smallpox cases that have recently developed in that section. The doctor found in one house, located on what is known as Blue Ridge, three cases of genuine smallpox, one of which was of a virulent type. The patients are Richard Cook and wife, and the wife of James Cook, the first named being in a very critical state. Dr. Morrow has ordered that the house be quarantined. He did not learn how the disease was brought into that locality.

W. R. C. Annual Picnic.

The annual picnic of the Woman's Relief Corps was held at the hospitable home of Mr. and Mrs. Henry W. Ledebur, German Hill, last Friday afternoon, and it is usual on such occasions, was a success in every respect. The weather in the morning was threatening, in fact just a trifle drizzling, but it takes more than threats or drizzles to dampen the ardor of this faithful band of patriots when their annual outing is on, and notwithstanding the moistened feature of the day the attendance was fully as large as on any former occasion. The long tables under Mr. Ledebur's beautiful orchard grove were spread early in the afternoon, and such a spread! No feast of the gods ever surpassed this royal lay-out, neither in fine texture of its culinary excellence nor in its abundance and great variety. And the appetites were such that ample justice was done to the delicious viands.

While the tables were being prepared and after the same had been cleared away the company found pleasure in games of all sorts, and little knots of sociability were gathered here and there to while away the moments in pleasant chatting and visiting, the many outbursts of laughter indicating that there was no lack of merriment in the throng. It was late in the afternoon when the company began to disappear and take leave of their genial host and hostess and some lingered, loth to depart, until the supper hour, and though they had not yet fully recuperated were compelled to again sit down to a well laden table of good things. And for this indiscrimination were overtaken by darkness in their homecoming.

The picnic of the Stow Corps for 1903 is a thing of the past, but like all its predecessors, marks another epoch in the annals of this splendid society that will long live in the memory of those who were so fortunate as to be among the participants.

Two Hangings in Jefferson County.

The conviction in Jefferson county of two murderers within a week marks a new record for that county, and gives promise of two hangings in the near future. The convicts are both foreigners, named Aiello and Rollona, and both were tried for the killing of their countrymen. The Democrat says of the remarkable affair: "Last week was an unusual one in the history of the criminal courts of Jefferson county. It witnessed three murder trials and the conviction of two men for the crime of murder in the first degree, and one for manslaughter. As many men were convicted of first degree murder last week as had been convicted of that grade of crime in Jefferson county in all its previous history of nearly a hundred years, in seventy of which courts were held in Brookville."

Eyes Examined Free.

Prof. C. Block, eye specialist and optician, will be at the Central Hotel two days, Sept. 7th and 8th. Remember the dates. All work guaranteed.

The quarterly meeting held by Rev. D. B. Tobey at Kellettville last week was a good meeting. The rain kept many away. Rumor saith that D. B. has struck it rich in oil.

Come up some day and I will show you one of the most beautiful sights on earth, a landscape view of several miles that is equal to anything in this or any other county. Tionesta creek is noted for its wonderful hills and valleys.

I see that Sir Thomas has given up all hope of that cup, and yet in the defeat he shows the courage and temper of the knights of old. Many years ago I saw the Ireland stone in the walls of Barney castle, Ireland. I think that Sir Thomas must have kissed it twice, and yet I believe he means it all.
