Two Fatal Smallpox Cases. Two of the smallpox victims on Blue Ridge, in Barnett township, reported in the REPUBLICAN of the 24 inst., have since died. They are Richard Cook and his mother, Mrs. James Cook. This is the family which Dr. Morrow, Quarantine Officer, was called to see, and in which he found three persons afflicted. The fourth member was since taken down, but since the deaths, all are recovering and no more fatalities are anticipated in that family. The Barnett Township School Board has organized as a Board of health, and will endeavor to establish stringent quarantine regulations in the future, and thereby stamp out the disease by stopping the further spread. It is thought the infection came from over the Elk county border, some from the lumbering camps in that section being still infested with the disease from last winter's scourge.

Fatal Wreck on the P. R. R. at Jamieson Station.

A serious wreck, causing the death of two employees, occurred a short distance above Jamieson station, on the P. R. R., about noon last Tuesday. The work train was going up the track at about a 25-mile rate of speed, the engine running rear end foremost, when the tender left the track, followed almost instantly by the locomotive and five flat cars loaded with lumber. The tender was thrown to the left side of the track, while the engine plunged to the right and landed the full length of itself from the track in a meadow below. Five cars followed and were dumped in a confused mass across the track, tearing and twisting the rails and ties into every conceivable shape, many of the wheels and trucks being almost completely buried from view in the road-bed. The train crew consisted of conductor J. C. Patterson, engineer George A. Smith, and fireman Verne Jones. There were in all 11 cars and the caboose. When the engine went over the fireman was thrown out of the cab, lighting a few feet from where it struck the ground, and was found lying under a pipeline which runs along the edge of the field. He was dead when picked up, having doubtless been instantly killed. Engineer Smith managed to extricate himself from the wreck, and crawled several feet away, where he was found and conveyed to the home of Bert Thompson, about a quarter of a mile below, and medical aid was quickly summoned, in the persons of Drs. Bovard and Dunn, who found his right leg broken between the thigh and knee, and the hip badly bruised. He was given the best attention possible under the circumstances and brought to the Tionesta Station in the caboose, and in the afternoon was taken by special train to Oil City where, at the hospital he is in charge of Dr. Coulter, one of the company's physicians. At 2:15 o'clock Friday morning he died from the effects of his injuries, which were undoubtedly of an internal nature. The body of the unfortunate fireman was also conveyed to Oil City on the same train and given in charge of an undertaker and prepared for burial. When this operation was performed it was found that there were no outward signs of any injury capable of causing death. There was a deep cut near the left knee and the front of the legs from the knees down to the feet were scalded. There were no abrasions on the face, spine or head. The ribs had not been broken, and there was no injury to the spine that was visible. The deceased was aged 25 years and was the son of Mr. and Mrs. Lincoln Jones, whose home is two miles west of Tryonville, Crawford county. He had worked for the company in other capacities, but had only been employed as a fireman for about 10 days. Engineer Smith had been employed on the P. R. R. as fireman for some years, and had only recently been promoted to engineer. He was aged about 31 years and was born and reared in Oil City. He leaves a wife and 4-year-old son. How he escaped instant death in so frightful a wreck is beyond comprehension. Both victims of the wreck were highly esteemed for their industry and steady habits, and their funerals were largely attended by sympathizing friends.

Mayburg. Mr. Lord, foreman for the Proper Oil Co., at Minster, lost his wife by typhoid fever, Sept. 10th. It was a hard blow, but we know not whom it may be next. Services at the home were conducted by Rev. Wm. Richards. The body, with friends, left for Tionesta Friday at 10:00 a. m. Henry Desher is reported on the sick list, but better. Bert Nichols, with his family, returned to town after an absence of a month or so. Ray Birell and Jay Bankhead are here doing some concrete work on the big gas engine foundation. Quarterly meeting at Whig Hill on Sabbath. Mrs. L. D. Smith is reported as improving, but still has to have the attendance of a trained nurse. Last winter during the high water and ice gorge, two cars placed upon the bayou bridge, near the old slash dam, were carried into the water, almost out of sight. Supt. Leon Watson, of the S. & T. R. R., took one out about a week ago. A few days ago the other car was hauled out with a steel line and large tackle blocks. Don't know who was the boss, but it was a good job. The school board met at Mayburg and found the burg in better condition than was expected. Except a few places that need immediate attention, all was well.

Letter to Tionesta Steam Laundry, Tionesta, Pa. Dear Sirs: You ask how many square feet a gallon will cover. Depends on condition of building. There is a great deal of lying on this point. The stock claim of lying paints is 30 square feet, two coats. It's a lie as a rule. Devote covers 300 to 500, our agents think. We think 300 too low and 500 too high; though doubtless they both occur. How much the other paints cover is equally doubtful; we guess 100 to 400. The truth is found in another comparison. Devote is all paint, true paint, strong paint, and full-measure; the others in general are, at the best, diluted, adulterated and short measure. They cover according to body and measure. You can't paint with clay lime chalk sand barytes water or air—no body in them. Go by Devote. Yours truly, F. W. Devore & Co., New York. P. S.—Jas D. Davis sells our paint.

Strayed Away. Strayed from the premises of the undersigned at Nebraska, Pa., Sept. 11th, a light red, white-spotted cow, five years old, medium horns, and in good condition. Owner will pay a suitable reward for her return or information leading to her recovery. N. E. HOLMES.
