debt.-Franklin News.

SINCE Mr. Claveland retired from the Presidency, Uncle sam has paid the expenses of the Spanish war, largely incressed army and navy and put his interest bearing debt on the right side of the billion dollar line-down to \$912,000,000 and debt less cash in the Treasury to \$917,000,000. Last month he paid over \$6,000,000 en account of his debt, spent \$54,000,000 less during the last fiscal year than h s income, and now has an active eash working fund of \$86,000,000. Comparing recent experiences, Uncle Sam vows he will never, no never, turn Democrat again.

In the eyes of Joseph Chamberlain the protective tariff of the United States is an "abomination." It does not seem to have occurred to the British statesman that our tariff system was devised to please the people of the United States and no one else. The framers of the Dingly law had in view the interests of this country and not the interests of foreigner-intent upon breaking lato the biggest and best of markets. The 'abomination" has proved fremendously successful and popular with Americans-so successful indeed that Mr. Chamberlain is studying how to introduce something like it in Great Britain.

Dowle expects to receive \$5,000,000 in gifts as the result of his New York visit, and with it he proposes to build up two new Zions, one on the Pacific and one on the Atlantic side of the continent. The DERSON, Crawlerd County; THOMAS New York Tribune says of the project: He counts his chickens before the eggs are laid with as much confidence as if they were already in the basket, But that is what he has always been doing and somehow the eggs materialize as they are wanted, and the walls and ballelujahs of new Zions "rise slowly to a music slowly breathed, a cloud that gathers shape," Stranger things have the question is up to the Japs: Will happened than that he should get his expected \$5,000,000 and apply it according

### TO VOTE NEW BALLOT.

[Special Correspondence.]

Harrisburg, Oct. 1 .- One of the important duties of the members of the Republican county committees throughout the state between now and election day will be to instruct the voters regarding the changes that have been made in the form of the official ballot and the method of marking the ballot so as to cast a vote for the full Republican ticket.

Under the provisions of the law as passed at the last session of the legislature the ballot will be smaller than heretofore. The party columns have been abolished, and the names of the candidates will be grouped under the titles of the different offices for which they are running. The name of his party, however, will be printed after the name of each candidate.

In lieu of the party column and the party circle at the head of each column, there shall be printed on the extreme left of each ballot the names of the several parties, and after the name of each party there shall be printed a square of sufficient size to permit of the convenient insertion of a cross mark, like this:

REPUBLICAN	×
DEMOCRATIC	
PROHIBITION	

PUT CROSS MARK IN SQUARE. This cross mark is to serve the same purpose as did the cross mark used for

the old ballot. When this cross mark is placed in the square after the name of any party, in this group of parties on the left of the ballot, it signifies the intention of the voter to vote for all the candidates

nominated by that party. Every mark within such square shall be equivalent to a mark against every name designated by that political appellation or party name, including candidates nominated by more than one party or group of citizens.

At the head of each ticket shall be printed the following instructions: "To vote a straight party ticket mark a cross (X) in the square opposite the name of the party of your choice in the

"A cross mark in the square opposite the name of any candidate indicates a vote for that candidate.'

INSTRUCTIONS AS TO COUNTING. A book of instructions has been issued by the Republican state committee, and Secretary Andrews expects that before the end of this week he will have copies of the same in the hands of all the county committeemen. In this book, which also contains other valuable data regarding the new law. the following instructions are given to election officers regarding the method of counting the ballots:

The effect of a cross mark (X) in the square opposite the name of the party column on the left of the ballot,

The placing of a cross mark (X) in the square at the right of the name of each candidate indicates a vote for each candidate so marked.

A cross mark (X) in the square opposite the name of the party in the straight party column on the left of the ballot, votes a straight ticket, and is equivalent to a vote for every candidate of the party so marked, and the marking of one or more names in the group of candidates of another party. is the marking of more names than the voter is entitled to vote for, and is a marking of the ballot otherwise than is directed by the act, and the ballot must not be counted for such office. but must be counted for all other ofdidates have been properly marked.

For example-A voter places a cross mark opposite the name "REPUBLI-CAN" in the column on the left of the ballot-this mark would indicate that he had voted for every candidate of that party. If the voter, after having so marked his ballot, should place a cross mark in the square to the right of the name of a candidate of the Democratic party, his vote would not be counted for either or any of the candidates for that office, because the voter would by doing so vote for more candidates for that office than he is entitled to vote for, his vote, however, should be counted for all the other

candidates of the Republican party. The placing of a cross mark in the square opposite the name of the party of his choice in the straight party column on the left of the ballot, and at the same time placing a cross mark in the square to the right of the individual name of any or all of the candidates of that party, will not affect the validity of the ballot. It will simply be surplusage, and a vote must be

counted for each candidate of that When a candidate has died or with drawn, and a substituted nomination is made after the ballots are printed. there shall be prepared and distributed with the ballots suitable slips of pauer bearing the substituted name, together with the title of the office am aving adhesive paste upon the reverse side, which shall be offered to each voter with the regular ballot, and may be affixed thereto. Under no other circumstances can a "sticker" be used. A voter must not cross out any name on the ballot, nor cover a name with a sticker or paster, except in the

case referred to herein. Ballots with the name of a candidate eraced by a voter must be counted, for the name so crased, if a cross mark has been placed in the square opposite to the name of his party.

All votes should be counted, except where the voter marks more names for any office than he is entitled to vote for, or for any reason it is impossible to determine the voter's choice for any office, to be filled. The ballot should be self-explanatory.

Lockjaw, or tetanus, is caused by pacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried be-neath the skir, as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an anticeptic and causes cuts, truises and like injur ies to heal without maturation and in one-third the time required by the usua treatment. It is for sale by Dr. J. C.
