RE-WRITING MESSAGE.
Revolution On Isthmus Necessitated Some Changes.
Isthmus Impregnable—Funeral of Arthur Jenkins—Chicago Street Railway Strike—World's Sugar Production—Andrew H. Green Murdered, Thirty Deaths From Collision.
Because of the revolution on the isthmus of Panama President Roosevelt has been obliged to rewrite that portion of his December message to Congress dealing with the canal negotiations with Colombia. Before the revolution had occurred the President had written in his message:
"High authorities on international law hold that the canal can be dug as an incident to exercising the power to prevent the obstruction of traffic across the isthmus. Nevertheless, in accordance with our settled policy of behaving with scrupulous fairness and generosity towards our weaker sister republics of the south, we have endeavored to provide for the building of the canal by treaty."
The president said that the canal was demanded by the interests of this nation and by those of the civilized world.
"The events of the last few years," he said, "warrant us in now saying not only that the canal shall not be constructed by any foreign government but that it is not to be constructed by any private company. It must, therefore, be dug by the government of the United States."
Further along the president wrote: "It is time to declare that the beginning of the canal cannot be much longer delayed. This nation does not desire to be unreasonable or impatient; but it cannot and will not permit any body of men permanently to obstruct one of the great world highways of traffic, and refusal to permit the building of the canal amounts to such obstruction."
Isthmus Considered Impregnable.
President of Colombia Marroquin's statement as conveyed last week in a cablegram to Gen. Plaza, president of Ecuador, that Generals Reyes, Caballeros, Ospina and Holquin are now marching on the isthmus to "suppress the isthmian traitors" has set the entire population of the isthmus laughing. Protected by the impenetrability of the land between the isthmus and Colombia and confident that the United States intends to prevent the landing of Colombian soldiers from the sea, the isthmians feel absolute security.

World's Sugar Production.
The department of agriculture, in its official "crop report" for the month of November, announces that the indications are that the world has entered on a new era in the production of cane sugar. The department quotes estimates placing the total sugar production of the world in the year 1913-4 at 10,425,800 tons of 2,240 pounds each, including 4,312,800 tons of cane sugar and 6,083,000 tons of beet sugar, and says as to cane sugar:
"During the past five years the world's output of this product has increased from 3,000,000 to upwards of 4,000,000 tons, the greatest increase ever made in any five year period in the history of the industry."
"The high record crop in the history of the world's best sugar producer was that of 1901-2. Since that date there has been a decline in production in Europe, amounting in all to about 1,000,000 tons, but the present year's estimated output still shows a considerable increase over that of five years ago."
Increased Cost of Living.
The bureau of labor bulletin on the cost of living of workmen's families issued last week shows that of 2,567 families in 33 states from whom data were obtained the average income was \$827.19, average expenditure \$768.54, average expenditure per family for food \$226.90, and the average size of family 5.31 persons. The last figure is seven-tenths above the average of private families in the whole country as shown by the census of 1900. In the years 1890-1902 the cost of food reached its highest level, being 10.9 percent above the average for the decade 1890-1899, and an increase of 16.1 percent compared with 1896, the year of lowest prices.

PAPERS SENT TO HOUSE
President Transmits All Documents on Panama Revolution.
Including Cablegrams Sent to Consuls at Panama and Colon and Orders to Rear Admiral Glass and Commanders of the Nashville, Boston and Dixie.
Washington, Nov. 17.—President Roosevelt transmitted to the house the correspondence and other official documents relating to the recent revolution on the isthmus of Panama, as requested by resolution.
The papers transmitted include: Cablegram sent to United States consuls at Panama and Colon on Nov. 3, stating that press reports had announced uprising and requesting consuls to keep the state department fully informed.
Dispatches to and from consuls, which were printed at the time, also orders to naval officers; the dispatch of recognition and notification of appointment by Panama of Minister Bunau-Varilla.
All correspondence regarding Panama by the navy department also is included.
This embraces orders cabled to the commander of the Nashville at Colon, Nov. 2, which read as follows: "Maintain free and uninterrupted transit. If interruption threatened by armed force occupy the line of railroad, prevent landing of any armed force with hostile intent, either government or insurgent, either at Colon, Porto Bello or other points."
The same orders were sent to the commanders of the Boston and Dixie. On Nov. 2 the following order was sent to Rear Admiral Glass at Acapulco: "Proceed with all possible dispatch to Panama. Telegraph in cipher your departure. Maintain free and uninterrupted transit. If interruption is threatened by armed force, occupy the line. Prevent landing of any armed force, either government or insurgent, with hostile intent at any point within 50 miles of Panama. If doubtful as to the intent of any armed force, occupy Ancon Hill strongly with artillery. If the Wyoming would delay Concord and Marblehead her disposition must be left to your discretion. Government force reported approaching the isthmus in vessels. Prevent their landing if in your judgment the landing would precipitate a conflict."
On Nov. 4 Acting Secretary Darlington sent this dispatch to the commander of the Nashville: "Gunboat of Colombia shelling Panama. Send immediately battery of three-inch field guns and six-pounder with force of men to Panama to compel cessation of bombardment. Railroad must furnish transportation immediately."
Secretary Moody sent this dispatch to the commander of the Boston on Nov. 9:
"Upon the arrival of the Marblehead sufficient force must be sent to watch movements closely of the British steamers seized at Buena Ventura and to prevent the landing of men with hostile intent within limits of the state of Panama. Protect the British steamers if necessary."
On the following day the secretary sent a dispatch to Admiral Glass saying the British steamers had not been detained and asking if they left with Colombian troops aboard.

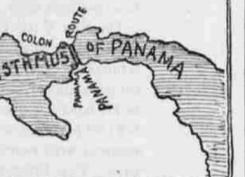

NATIONAL GRANGE.
Secretary Brigham of Washington Spoke of Tyranny of Labor and Organized Capital.
Rochester, N. Y., Nov. 17.—Assistant Secretary of Agriculture J. H. Brigham of Washington, D. C., addressed the National Grange, of which he was master for nine years.
He spoke very plainly and urged the farmers to take a firm stand against the tyranny of organized labor and organized capital. Both, he said, were threatening problems which the agricultural class alone could solve. His words were received with great enthusiasm.
Two important resolutions were introduced. One from Oregon called for an investigation of the charge that the railroads are charging the government more for carrying mails than they charge the express companies for carrying packages. The other demanded a compensation for rural mail route carriers which would equal that received by city mail carriers. Both these resolutions were referred to the legislative committee.
A delegate from Ohio sent in a resolution protesting vigorously against the adoption of the metric system.
An important resolution was introduced at the session of the National Grange in relation to the scarcity of farm labor, asking Secretary of Agriculture James Wilson to ascertain what can be done to induce the emigration into the United States of competent farm laborers from foreign countries.
The report of the treasurer, Mrs. E. W. McDowell, showed that the receipts during the year were \$40,280.33 and the amount expended \$27,891.27.
Miss Susan B. Anthony will speak before the grange today and the election of officers will take place Wednesday.
Many Yearling Does Killed.
Malone, N. Y., Nov. 17.—Comparatively few deer were killed in the Adirondacks during the last few days of the hunting season, as there was no snow and the ground was dry and noisy. The game protectors agree that deer have increased largely during the past two years. An unfortunate feature of the season has been the large number of yearling does that have been slaughtered, and it is suggested that measures be adopted to put a stop to it. In one town 20 yearling does were killed. The elk presented to the state by W. C. Whitney, that are wintering between Derick and Floodwood, are as tame as sheep and are a nuisance in that section.
New Car Fender a Success.
Cleveland, Nov. 17.—The Cleveland Street Railway Company has, after years of experiments costing thousands of dollars, solved the fender problem that has of late caused traction men all over the country much trouble.
The company has purchased a fender that picks up man or beast when struck and throws him or it into a pocket. The apparatus was used successfully on a number of cars and the lives of a number of people who were struck by the cars were saved during the last two weeks.

ADMIRAL EVANS' CRITICISM.
Protest of Aggrieved Officers Has Presented a Knotty Problem.
Washington, Nov. 17.—The protest of Paymaster Biscoe and Lieutenant Williams of the navy regarding the language used by Rear Admiral Evans in reviewing the findings of the court which tried Assistant Paymaster Nicholson, has presented to the navy department such a knotty problem that the legal authorities have been consulted as to the attitude to be assumed toward the admiral, an unusual proceeding.
After considering the matter in all its details it is said that Secretary Moody concluded to sustain Admiral Evans, but later he changed his mind for what reason is not known, and at Secretary Moody's instance Assistant Secretary Darling took the matter up.
It is understood he takes the position that Admiral Evans attacked the integrity of the members of the court and that having done this it was his duty to order a court martial of the officers attacked. Not having so acted, it is understood that Mr. Darling holds that the admiral was derelict and should be reprimanded.
The matter reached this stage when Secretary Moody determined to enlist the legal talents of Secretary Root who, it is understood, has given his view of the case.
It is said that it is Secretary Moody's present intention to return to Admiral Evans the findings in the Nicholson case, with a notification that he had decided to dismiss the protest of the two officers, Biscoe and Williams, but warning the admiral not to repeat the offense.
Cruiser Albany Sails to Korea.
Washington, Nov. 17.—A cablegram received at the navy department from Rear Admiral Evans, commanding the Asiatic station, announced the sailing of the protected cruiser Albany from Yokohama, Japan, for Chemulpo, the port of Seoul, the Korean capital where United States Minister Allen is proceeding to further the request of the United States for the opening to the world's commerce of the peninsula of the Yalu river.

Fire Nearly Reached the Magazine.
The heroism of Lieutenant Curtin and several seamen on board the torpedo boat destroyer Lawrence at Norfolk, Va., saved that craft from destruction. A lighted candle left by a workman on a wooden box in the vessel's forward compartment caused a fire which burned much of the Lawrence's woodwork before it was extinguished by Lieutenant Curtin and some seamen just before the flames reached the magazine. In their battle against the flames Lieutenant Curtin and five seamen were overcome by smoke and lost consciousness. Their condition is not serious.

Canals Will Close Nov. 28.
Superintendent Boyd has announced that the state canals will be closed to navigation at midnight of Saturday, November 28. The past season has been a very prosperous one for the canal men, and it had been the desire of Supt. Boyd to make the season as long as possible. The weather bureau assures Mr. Boyd that the present open conditions will continue for the remainder of the present month and insurance companies have ceased to take risks beyond Dec. 1 on perishable freight. Mr. Boyd decided to close the season with the present month.

Funeral of Arthur Jenkins.
Syracuse signally honored one of its great benefactors, modest though he was, in paying the last tribute of respect to Arthur Jenkins, founder of the Syracuse Herald and the president and general manager of the Herald company, whose funeral occurred Wednesday afternoon.
The services were conducted by the Rev. Karl Schwartz, dean of the Episcopal Church of the Savior. Flowers everywhere, the tokens of friends, made the rooms floral bowers. A quartet sang Mr. Jenkins' favorite hymn, "Nearer, My God, to Thee" and other appropriate selections.
The city had never seen a more representative gathering at a funeral. The appreciation of the services of the Herald's founder to the city of Syracuse was a revelation, considering the modesty of the man. In fact a funeral which the family and friends believed would be a quiet ceremony, was by the spontaneous tribute of Syracuseans, a memorable occurrence in its widespread expression of esteem and sorrow in which Mr. Jenkins was held by the people of the city and the newspaper fraternity throughout the state.

Chicago Street Railway Strike.
A partial victory was scored Sunday by the Chicago City railway against its striking employes. From early morning until dark the company maintained a regular service on its Wentworth avenue line from Seventy-Ninth street to the downtown district.
The first car, manned by a non-union crew, left the car barns, guarded by a dozen policemen, at 8 o'clock and was followed four minutes later by another train.
Twenty-five cars in all were put into service but the schedule was frequently interfered with by obstructions on the tracks and by the inexperience of the men running the cars.

Thirty Killed by Rear-End Collision.
A collision on Illinois Central railroad near Kentwood, La., 85 miles from New Orleans, Saturday night resulted in the death of 30 negroes. Ten other negroes and three whites were injured, some of them fatally.

To Drive Out Mormons.
Sixty women, representing many of the Protestant churches of Syracuse, met in that city and organized the "Christian Women's Federation of Syracuse." Its object is to drive Mormons and Mormonism out of Central New York.
Dying From Football Injuries.
Charles Hope, fullback on Corning academy football team, is dying from the effects of a fracture of the spine sustained in a game Saturday with the team of the Canisteo high school.

House Minority Report.
Democrats Favor Cuban Treaty II
Certain Amendments Are Made.
Washington, Nov. 17.—A minority report, setting forth the views of Messrs. Williams of Mississippi, Swan son of Virginia, McClellan of New York and Clark of Missouri, on the Cuban bill, was filed in the house.
Mr. Cooper of Texas, also a member of the minority on the ways and means committee, presented a lengthy report condemning the Cuban treaty in toto.
The minority report states that the bill should be amended by striking out the provision that no reduction in sugar duty should be made during the life of the treaty, declaring that one congress has no right to bind a succeeding congress, and by inserting an amendment striking out the differential on refined sugar, "because," the report says, "in our opinion, we would thereby deprive the great sugar trust of this country of some of its power to extort from the consumer, curtail its power to bear down the price of the raw material, and lessen its ability to dictate to wholesale and retail dealers in sugar the manner in which they shall do business and the prices at which they shall sell refined sugar."
The report says if the amendment is adopted the minority would vote for the bill, but even if defeated they recommend its passage, "because we think that the good to be done by its passage will far outweigh the evil which will result from a failure to take advantage of the opportunity to diminish the power of the sugar trust."
"As long as the present party is in power we can perhaps hope for tariff reductions and revision only from reciprocity treaties. It is a piecemeal process, but it is better than no process at all. We hail it as a harbinger of future reciprocity treaties with other countries, especially those upon the American continent, and notably our neighbor to the north, the Dominion of Canada."

Success of Dominican Rebels.
San Juan, Porto Rico, Nov. 17.—Official advices received at the Santo Domingo consulate here say General Jimenez is in supreme command of the revolutionists and that General Deschamps, the vice president of the republic, is going to join Jimenez with the best of the supporters of President Woy Gil. The rebels are sweeping victoriously across the country and will unite on the siege of San Domingo City. The surrender of that town is said to be imminent.

Naturalization Frauds.
St. Louis, Nov. 17.—Thomas E. Barrett, former marshal of the St. Louis court of appeals; John Dolan, chairman of the Democratic city central committee, and Frank Garrett, former policeman, convicted of participation in naturalization frauds, were denied a new trial. A motion for arrest of judgment will be heard. The government has nolle prossed the indictment found against John H. Murphy, clerk of the court of appeals, saying the indictment was an error.

Italian Monarchs Visit England.
