### STATE DELEGATE.

We are authorized to announce M. E. ABBOTT, of Tionesta, as a candidate for Delegate to the Republican State Convention, to be held April 6th.

SENATOR QUAY has introduced a bill providing for the admission of Oklahoma and Indian Territory as one State.

GEN. AGUINALDO is to be one of the Philippine commissioners to the World's Fair. Probably he is coming over to see that it is done up brown.

VARIOUS plans have been suggested for the building of the Panama canal. All of them agree upon the main point, that the United States will build it.

To THE long list of nations that have recognized Panama is added the Netherlands. The voice of the civilized world than a quarter of a day by 11 minutes. is against Colombia's pretensions,

SENATOR PENROSE has introduced a good bill that if passed will put a stop to added to February. But the solar year, an internal nuisance. It prohibits the use of the mails for the "endless chain" schemers for raising money,

CONGRESSMAN STRLEY has introduced a bill that forbids the purchase, in behalf of the United States government, of his direction October 5, 1582, was fol-"any material or article of whatsoever lowed by October 15, which brought the kind or nature, manufactured or to be two years together for the time being. manufacturad by convict labor."

PAYNE, the Republican leader of the House of Representatives, bluntly tells leap years only when divisable by 400. us that whereas the deficit for the fiscal 80 1600 was a leap year, and 2000 will be, year ending last June was \$4,560,000, 1t but 1700, 1800, and 1900 were not. It was will probably increase next year to \$7,- found that by taking the year as 365 days, 000,000 and the year after that to \$8,000,000 . 14 hours long, and having leap year every and more. Yes; this is a great country fourth year the calendar year would have and has often handled a deficit twenty about a quarter of a day more than the times as large.

CONGRESSMAN BAKER, Democrat, of Brooklyn, thinks the country is going to the bow-wows because some charitable person has opened a soup house in Cinsinnati, and asks, "Is this prosperity?" Of course it is. Not to have a soup house where there was a demand for it might and so bring the solar and calendar dates seem like adversity. There are always together, people ready to eat good soup when it is ladled out to them free.

THE fact that Senator Hanna immediately upon his return to Washington issued a call for the Republican national convention disposed at once of all the rumors and allegations that he was holding it back for sinister purposes. Senator Scott, of West Virginia, says, "It will be a great convention at Chicago; delegates from our Atlantic and Pacific Islands," And our Teddy must be named without a dissenting vote.

DEMOCRATIC papers make a great hullabaloo about a Republican war in Ohio, the "war" atoresa'd being the difference of opinion as to whether the intimate friends of Foraker or the Intimate friends of Hanna will control the Ohio delegation in the Chicago convention and the the cure of consumption is very much resultant patronage of the state. The Republican majority in Ohio is sufficiently bouncing to tempt our friends to get up a tion, and a regular use of German Syrup.

sham battle at any time, to keep themFree expectoration in the morning is ency. A party that is in a minority that is hopeless never quarrels over the offices even in Tun.

AT least one Democrat has the courage of his convictions. Senator Bailey of administration's excuses for the spoilation of Colombia are the same argument with which kings and conquerors have regular size, 75c, at James D. Davis' always justified their wars of plunder, Let us denounce the President's diffance of law. I would retire from public life

Some inconsiderate clerks in Washington are working themselves into a passion against the administration on ac count of its change in their work hours. They are so indignant at having to work seven hours a day for the meagre pittar ce of \$5 a day on an average, rain or shine, the year round, that they threaten malingering in retaliation. Some people don't like to work between meals.

THE Constitutional Convention of the Republic of Panama held its first session, and took over supreme power from the junta, last week. It elected Dr. Pablo Arcsemena for its president. He said in taking the chair, "This republic will live less by its material power than by the virtues it will practice. Its security is protected by a powerful people in whose veins runs the rich blood of those Puritans who shook off with the dust of their sandals the torment of religious intolerance and the approbrium of political despotism." Yet some people declare that Panama has no government or political

SENATOR HANNA is mad now and says he has said so often and so emphatically that he is not a candidate for President that this persistent talk about his trying to set up things for himself is getting positively irksome. It is done by Democrats, he declares, who want to stir up a fight between Republicans. The Republican candidate will be that sturdy and s'renuous young man who, according to Frances Wilson, causes "mountain lions and grizzly bears to scramble up the golden stairs," and some bright young statesman from Indiana, about the size of Albert J. Beveridge, will be the candidate for Vice President, if he can be induced to take it. The present governor of Indiana wants a seat in the Senate anyhow.-Punxy Spirit.

In one respect the United States Congress is unique. Perhaps no other legislative body on earth is so thoroughly practical. Both sides are eternally trying to score a point against the other politically, and all kinds of rot and buncombe is dumped into the Congressional Record with no other purpose in view. As an example Representative Baker, of New York, arose in his place one day recently and read an article from a newspaper wherein it was stated that a lot of riverman of Cincinnati were being fed at the expense of the city. "Think of it!" he exclaimed, "Soup houses in full blast in one of our great industrial cities under your boasted Republican prosperity!" And for ten minutes Mr. Baker proceeded to work in all sorts of spasms and hysteries about soup houses and Republican prosperity. The only foundation there was for Mr. Baker's charge was that the Ohio river being frozen over both above and below Cincinnati, a great many rivermen and others dependant upon river traffic were temporarily thrown out of employment, causing considerable distress.-Punxsy Spirit.

### Why This Is Leap Year.

Is this a leap year? If so, why was not 1900 a leap year?

This year is leap year. There was no leap year four years ago for this reason: When Julius Caesar reformed the calendar he assumed the year to be 365 days, 6 hours long; really it was 365 days, hours, 48 minutes and 46 seconds-less The extra hours were set aside by Caesar and every fourth year added together and made into an extra day, which was starting always a few minutes before the calendar, after six centuries was found to be ten days ahead of the calendar. Pope Gregory XIII in 1582 decided to correct the calendar so that the two years would correspond more nearly. So by Then, to keep them together, he ordered that every year divisable by four should be leap year, and that these should be solar year at the end of every century, and by dropping the extra quarter for centurial years the calendar year would have a day less at the end of the fourth century with the four unused quarter days still on hand, so to speak. These made an extra day, which will be added to February in that fourth centurial year,

Constipation leads to worse. Often it is the cause of appendicitis. Always it leads to dangerous chronic disease. It should not be neglected, nor should it be temporarily relieved with drastic purgatives. Here is a case in point : Mr. C. S. Osterhoudt, of Barrytown, N. Y., was distressed with indigestion, chronic constipation and kidney trouble for four years. He tried many medicines without relief. He heard of Calcura Solvent, Dr. Kennedy's new medicine,

used it and began to improve rapidly. All of his old complaints have disappeared and he owes everything to Cal-

cura Solvent. Remember, Calcura Solvent cures 98% of all cases of Kidney, Bladder and Liver disorders.
