Congressman Sibley on the Bristow Report.

The following concerning Representative J. C. Sibley is from the current issue of the Tidoute News and it is so characteristic of the man that we reproduce it in full, it being the first time we have seen it since in print.

Whatever Mr. Sibley does he stands by. Reference is made in our Washington letter to the Bristow report on the Postoffice Department. Mr. Sibley is one of the Congressmen named in that report.

"Mr. Speaker, I believe that the report of the committee does me an injustice. I find my name in that report. I am credited with getting an increase of rental in my home city from \$70 to \$1200. The report does not state the reason why that increase was made—an increase which I think was entirely proper, and I believe I could convince any reasonable man that the increase should have been made.

"I believe the report prejudices me with my constituency and places me in a false and improper attitude. I think the report is incorrect. I have a distinct recollection of having been instrumental in securing an increased rental for more than one building. And I know that I have been securing an increased rental for more than one building. And I know that I have been securing an increased rental for more than one building.

"I have been to the Pension Office and I think I have made more than 3,000, possibly more than 5,000, recommendations for new pensions or for increase in pensions previously granted. "Rising above any personal effect this report may have upon individuals is the question what are the rights, privileges, prerogatives and duties of a Representative in Congress? The time has come when there should be a distinct declaration as to where our duties or rights begin and where they leave off.

"I think there is not a member of this House that has ever gone into an Executive Department and preferred a request where the interests of his constituents were involved, where their rights were being infringed, who has not demanded, 'If it be consistent with the law and the good of the service, then I ask that the Department may take the action asked.' Therefore I fear that in this report my constituents will think I have been delinquent and unmindful of their interests in that I have secured but one increase in clerical allowance and but one increase in rentals of buildings. I have secured, upon my recommendation, a large number of both. I hope to secure many more when justice shall demand such increase." [Loud applause.]

Tour to the Pacific Coast and Grand Canyon Rate \$105. Via the Pennsylvania Railroad, account General Conference, Methodist Episcopal Church.

TO IMPEACH JUDGE SWAYNE.

House Committee on Judiciary Will Report to That Effect. Washington, March 22.—The house committee on judiciary voted to impeach Judge Charles Swayne, federal judge for the district of Florida.

The details of the charges will be withheld until the report is ready for the house. This report is to be drawn by Representative Palmer of Pennsylvania, chairman of the sub-committee which took the testimony in the case.

Of this sub-committee Messrs. Fuller and Clayton reported to the full committee for impeachment, while Representative Gillett of California reported against it. Mr. Palmer's report will be prepared this week.

It is known that the charges on which testimony was taken include those of being absent from his circuit, being a non-resident of his district, imprisoning a lawyer in a contempt proceeding, imprisoning the son of a litigant, also for contempt of court and refusing to hear a certain witness in a case before him, alleging that he would not believe the witness under oath.

The last impeachment proceedings were those of Andrew Johnson. Only three federal judges have been impeached. These were Judge Pickens of New Hampshire, who was impeached for giving up the bark Eliza to her owner, without taking proper bond, after the bark had been seized for smuggling; being drunk and using profane language on the bench.

Judge Chase of Pennsylvania was impeached for refusing to allow a lawyer to address the court or the jury on a question of law which he already had decided. Peck of Missouri, who was the last judge impeached, was charged with improperly striking the name of a lawyer from a roll of attorneys for contempt.

The proceedings against Judge Swayne if carried to the senate undoubtedly will delay for several weeks the adjournment of the present session of congress. Railroads Not Liable For Injuries. Washington, March 22.—The United States supreme court again decided that persons traveling on railroads may not secure damages in case of accident when they ride on passes, and the decision went to the extent of applying the principle to such passengers as are not familiar with the contract usually printed on the back of passes.

The case decided was that of John D. Boering and his wife vs. the Chesapeake Beach Railway company. Mrs. Boering was injured in an accident on the road while traveling on a pass issued to herself and to her husband, containing the usual stipulation of exemption from damage.
