Up to this time nothing whatever has been learned of the whereabouts of Nicholas Wentz, who so mysteriously disappeared from his home in New Wilmington, Lawrence county, about three weeks ago. Every effort has been made to find some trace of him, but in vain.

The recent law enacted by the state legislature, fixing \$35 a month as the lowest wages to be paid any teacher in the public schools of the State, is now in effect. After this date every teacher will be paid no less than \$35 per month. It is estimated that 3,800 teachers in the State will receive an increase.

There are in every community grumblers and fault-finders, men who sneer at every public undertaking and who are never quite so happy as when an enterprise fails and affords them an opportunity for saying "I told you so." They are the headwood and tanglewood with which every locality must be infested. -Blizzard.

Sheriff Brown may enjoy a vacation without worrying about the business of his office. For the first time for thirty years or more Warren county's sheriff will not have any sales of real estate for the court to confirm next month. -Warren Mirror. Great Guttenberg! It has been so long since there has been a Sheriff's sale of real estate in this county that our typos have forgotten the form of composition.

Rev. and Mrs. O. H. Nickle arrived home last Thursday from their delightful trip to the Pacific coast, where they attended the General Conference of the M. E. Church, at Los Angeles, Cal. On their return trip they visited the big fair at St. Louis, but found it in an unfinished condition, so did not remain long. Rev. Nickle is very enthusiastic over the beauties and wonders of the vast country through which their party passed on this memorable journey.

It is funny, isn't it? Farmers, when they wish to retire, move to town. Townspeople, when they wish to retire from their business, move to the country. A man has poor health and he moves to town to rest up and get well where he will not be bothered with hard work. The city man, when he has poor health, will go to the country with a tent and pitch it under some shady tree where he may enjoy the mountain scenery and rusticate in the enjoyment of a perpetual picnic. -North East Breeze.

It is asserted by scientists that a very minute solution of copper sulphate will disinfect millions of gallons of water; that the algae which produces moss and green scum upon small lakes and reservoirs can be destroyed at a cost of from 50 to 60 cents per one million gallons, and that pathogenic producing germs, such as those of typhoid and cholera, may be disposed of at an expense of a few dollars per one million gallons.

During an electrical storm on Monday evening of last week the house of Dr. L. D. Bowman, at Jamestown, N. Y., was struck by lightning, and Morris, his eight-year-old son, was thrown onto his face and severely shocked, though not dangerously. A passerby was also the recipient of so strong a shock that the doctor found it necessary to take him into the house for treatment. The house was not greatly injured.

We note by the Forest county papers that Prof. D. W. Morrison, formerly one of Clarion county's successful teachers, now principal of the Tionesta public school, is a candidate for county superintendent of Forest county. Prof. Morrison has the qualifications for a good superintendent. Should he be selected by the directors of Forest county the educational interests of the county will fall into good hands. -Clarion Republican.

"Many a woman," says the critic, "parades up the church aisle in a new hat and gown, followed by her husband in a threadbare coat and last year's hat." All of which is admitted by the Garnet Eagle, which then adds "many a man passes down the street with his old hide full of beer, a cigar in his teeth and a chew of tobacco in his mouth, while his wife can't get money enough to buy a pair of any kind for herself or a pair of shoes for her children."

The Oil City Blizzard knocked off the 22 year of its existence last week, in the straightforward manner imaginable, but it's just as young as it used to be, and so long as the present force continues to shape its destiny and grind out the editorial grist it cannot grow old. Nyther will it ever lack in brain power while bait can be dug and fishes will bite, for any of 'em could give Ike Walton cards and spades and beat him to a standstill at the angling business.

An interesting and largely attended service was held at Mt. Zion Lutheran church, German Hill, last Sabbath afternoon, when the new minister, Rev. Paul Schilling, was installed as the pastor of the congregation. The services were conducted by Rev. H. J. Reimann, of Oil City, who delivered the charge to the congregation and the pastor. Regular services will now be held there, as formerly, the new pastor dividing his time between the churches there and at Dempseytown, Venango county.

Punxsutawney, profiting by the experience of Ridgway, has had the public water supply examined, with the result that its use has been condemned, and the water company is making calculations on securing a sufficient supply of better water. Several cases of fever developed in the community, and the people, with experiences of Butler and Ridgway before them, required an investigation, and by this prompt action have no doubt averted a general spread of the disease. Punxsutawney's excellent example should be followed by every community in the state. If the people are drinking impure water that fact should be demonstrated before an epidemic of typhoid fever breaks out.

A rousing Republican club was organized at the rooms of the Republican headquarters last Saturday evening. The meeting was called to order by County Chairman G. W. Osgood, and a temporary organization effected. The club was named the Joe Sibley Republican Club of Forest County. C. F. Felt was elected president; R. A. Fulton, vice president; D. W. Morrison secretary, and Fred Davis, treasurer. The roll, which had been circulated only a short time previous, but which contained the names of nearly a hundred names, was left open until next Saturday evening, when another meeting will be held at the club rooms, and which all who desire to join are requested to attend. The constitution of the State League of Republican Clubs was adopted, and the organization will apply for a charter in a short time. The regular meetings of the new club will be every Saturday evening. All Republicans are invited to join.

Father and Son Killed by Cars. Henry Woods, aged about 50 years, and his son, Harry, were run down by the P. R. R. passenger train due here at 7:18 o'clock Saturday evening, and both were instantly killed. The body of the elder man was badly mangled. The victims are residents of the locality known as the Star Brick yard, about two miles below Warren.

When the engineer of the train saw them they were quite a distance ahead of him walking in the middle of the tracks. He sounded the whistle, but neither paid any attention to the signal and the engineer was unable to stop his train before the men were run down. A distressing feature of the accident was that a younger son of the elder Mr. Woods saw the accident and was one of the first to reach the dead men, although until then he did not know they were his father and brother. The tracks are double where the accident occurred, and the disregard of the signals by the men causes the theory that they imagined the train was coming on the other track and their confidence and failure to turn to see which track the train was on cost them their lives. Several Tionesta people were on the train that evening, and witnessed the distressing scene after the accident.

Millinery Business For Sale. The Joyce Millinery Store in this place is for sale. The business has been placed on a solid footing and is well established, having a large patronage, but the proprietors desire to locate in a larger city and will therefore dispose of their store and their good will here at a reasonable figure. It is a rare opportunity for some wide awake ladies to engage in a business that is yielding a good return for the money invested. Consult or address, JOYCE SISTERS, Tionesta, Pa.

No Gloss Carriage Paint Made will wear as long as Devoe's. No others are as heavy bodied, because Devoe's weigh 3 to 8 ounces more to the pint. Sold by James D. Davis.

FORMER TIONESTA MAN SUICIDES

Dr. Clinton D. Baker Takes His Own Life at His Home in Conneaut, O.

The announcement of the suicide on Thursday morning last, of Dr. Clinton D. Baker, a former well-known and very popular citizen of Tionesta, will prove a most profound shock to his large circle of friends in this section, where he is so favorably remembered. The particulars of this sad affair are gleaned from the Conneaut, Ohio, Evening News, of May 28, 1904:

In a temporary fit of dementia, resulting from the excessive use of chloral and chloroform, Dr. Clinton D. Baker took his own life this morning by severing the arteries in both wrists, in his left arm on the inside of the elbow, and in his neck below the right ear. He was discovered lying in a pool of blood in his office on the second floor of the Stanley block at nine o'clock or thereabouts by C. W. Pelton and Dr. Kelley, and was removed in an unconscious condition to Grace hospital, where he died an hour later.

Dr. Baker was for years one of the leading physicians of this city, and his practice was at one time second to none. When his wife died he was so affected that he lost heart in his work, and from that time on his decline was steady, though gradual. Leaving Conneaut about four years ago, he spent some time at Elyria with his sister, Mrs. Symonds, and then he returned to this city for a brief period. He then went to Corry, Pa., where he spent two years at the old home with another sister, Mrs. Bates. From Corry he returned to this city about a year ago.

For some time it has been known that Dr. Baker was addicted to the use of drugs. About the first of April Dr. Baker became very low through the use of drugs, and C. W. Pelton took him into his home for a month so that he might have proper care and attention. After spending this time with Mr. Pelton he was restored to his usual condition, and he was ready to begin life anew. The attack which led up to his death set in Tuesday night. Yesterday he was demented all day, and his friends watched him closely to see that he did himself no harm.

At four o'clock yesterday afternoon Mr. Pelton asked Dr. Warner to call at Dr. Baker's office and ascertain his condition. Dr. Warner rapped at the door and was greeted by a gruff query of "What's wanted?" He then entered to find that he was covered by a shot gun in the hands of the demented man. He took the gun away, and a revolver as well, and did what he could to relieve the unfortunate man's condition. Shortly before 9 o'clock this morning Mr. Pelton attempted to enter Dr. Baker's office, but found that the door was locked. He then asked Dr. Kelley, who has an office close by, to bring him out a step-ladder in order that they might look over the tramsom.

Dr. Baker was found lying on the floor beside his operating table, on which he had evidently lain down to breathe his last after taking the fatal step. A cool stool stood beside the table, evidently placed there to catch the blood. As soon as possible, the unfortunate man was removed to Grace hospital, where further efforts were made to revive him. He had used a lance in inflicting the wounds in his wrist, left arm, and neck, and the cuts were so effective that he died in an hour from loss of blood.

In the office a letter addressed to his son and a note to Mr. Pelton were found. The note read as follows: "Dr. C. W. Pelton: 'While I die the death of a criminal, I do die a Christian, for I have been redeemed. Good-bye, CLINT. 'To Harold say that his papa still loved him, and sign papa.'"

The bottom of the note was smeared with blood, and the message was evidently written after the gashes had been made. The letter was addressed to Harold L. Baker, Morris, Minnesota, and will be forwarded by Mr. Pelton. Besides his son, Harold, Dr. Baker is survived by one brother and three sisters, the third residing at Morris, Minnesota.

Letter to Wheeler & Dusenbury. Endeavor, Pa.

Dear Sirs: We manage to get some fun out of paint. J. H. Kohlmeier, Grove City, Pa., put in Devoe. Along came a salesman of somebody else's paint before ours had got there. Salesman said ours was short measure. Kohlmeier weakened, hung-fire and flopped; stopped ours and took his. It was our turn now. We emptied our can into his and his into ours. The short measure was his, not ours; and we kept our man.

And, ever since then, that paint manufacturer gives full measure; his paint is not pure but his gallon contains four quarts. Go by the name; and the name to go by is Devoe lead and zinc. Yours truly, F. W. DEVOE & Co., New York. P. S. -Jas. D. Davis sells our paint.

CHANCE FOR "REPUBLICAN" READERS Coupon Worth 25c. If Presented at Davis' News Store.

In order to test the REPUBLICAN'S great circulation and its superior advertising value, we have made arrangements with Jas. D. Davis, the popular druggist, to offer one of his best selling medicines at half price to anyone who will cut out the following coupon and present it at his store.

COUPON. This coupon entitles the holder to one 50c. package of Dr. Howard's specific for the cure of constipation and dyspepsia at half-price, 25c. I will refund the money to any dissatisfied purchaser. JAS. D. DAVIS.

TWENTY-FIVE CENTS. Dr. Howard's specific for the cure of constipation and dyspepsia is not an unknown remedy. It has made many remarkable cures right here in Tionesta, and so positive is Druggist Davis of its great superiority in curing dyspepsia, constipation, sick headache and liver troubles that he will, in addition to selling it at half price, refund the money to anyone whom it does not cure.

A man's reputation for wisdom depends less on what he really knows than it does on what he doesn't say.

Memorial Day.

Although Monday, Memorial Day, opened wet and somewhat dreary, and so remained till nightfall, the elements failed to dampen the ardor of the G. A. R. boys or any of the auxiliary orders having to do with the program for the day, which was carried out, details being sent to the cemetery to perform the ceremonies there. The ladies of the W. R. C. had the usual elegant spread for the old comrades and their friends. A large audience assembled at the court house at 2 o'clock to witness the impressive ceremonies held there. After the ritualistic exercises of the Stow Post had been disposed of, a large choir sang a beautiful patriotic ode, followed by two splendid recitations by Misses Kathleen Joyce and Bertha Thomson. Another fine ode by the Sons of Veterans' male quartette, and Commander Johnston introduced the orator of the day, Rev. R. W. Ellingworth. His splendid address lasted but a trifle over half an hour, but it was one of the finest ever heard in the large court room. The audience was all attention while the eloquent pastor graphically depicted the great achievements of the Grand Army of the Republic, in its struggle for the preservation of the Union, and as he closed the burst of applause which came from the people was tremendous.

Led by the choir the audience sang "America," and Rev. Mr. Felt pronounced the benediction, and another Memorial Day had passed into history. Besides the work of the ladies of the Relief Corps, the members of Knox Camp 5 of the N. G. P., and the band contributed much toward the successful execution of the day's program.

Farmers' Institutes.

The county Board of Farmers' Institute Managers, will meet at the county Commissioners' office on the second Tuesday of June, to arrange for the place where institutes are to be held this season. All of our people who desire institutes, ought to attend this meeting and present their claims. This board is composed of the local members of the State Board of Agriculture, and one representative from each county agricultural society the Pomona Grange and County Alliance. If you find that you cannot attend this meeting, address a letter with your request to Chairman of Board of Institute Managers, care of County Commissioners.

Triumphs of Modern Surgery. Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed entirely; bones are spliced; pipes take the place of diseased sections of the veins; and antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by Dr. J. C. Dunn.
