—The Pennsylvania Club with 400 voters as members was organized in Washington, D. C., on May 25th. The active membership is limited to Pennsylvania Republican voters living in Washington, of whom there are about 2000, so the club will enjoy a large membership. Col. W. R. Andrews was elected president of the club and Hon. S. B. Stratton is one of the Board of Governors. Among the objects of the club is the entertainment of Pennsylvania Republicans who visit the capital. Reading rooms will be established in the large club house at the corner of 15th and K streets where Pennsylvanians visiting Washington will be cordially welcomed.

—Sheriff George W. Nobbl, of Tionesta, arrived in the city on Thursday morning and returned in the afternoon with William Kuhn, of that neighborhood, who was charged with the larceny of a silver watch and gold chain. The man was arrested here on Tuesday after he had attempted to sell the timepiece at several places, his last prospective customer being ex-Police Officer Clyde Culp, who turned him over to Chief of Police Nugent.

—Derrick. The young man above referred to is named Albert Koons, and he hails from Luzerne county. The watch taken was the property of a Mr. Peterson, of Buck Mills. Koons was taken before Squire John Shaw, of Kellestville, last Friday, who sentenced him to three months in the county jail.

—Last Saturday Mrs. D. E. Carson, of Stewart Run, brought a real curiosity to this office in the shape of a fully developed hen's egg that had entwined in its mat a horsehair measuring twenty-six and one-half inches. The egg had been hard-boiled with a number of others, by Mrs. J. A. Dawson, and when broken open the hair, which was dark and evidently came from the tail of some horse, was wound or distributed all through the egg. Here is a freak which we will not attempt to explain, but will leave to some scientific "talented cuss" to unravel. How that tremendous big hair got itself tangled in that egg is too much of a problem for this shop. If it had got mixed up in a roll of butter then the mystery would have been a cinch for us.

—Several preachers puzzled themselves and their congregations one Sunday by trying to discover and explain the reason why men don't go to church. Now there is no mystery whatever about that matter. The men don't go to church simply because they don't believe in the necessity of going. They have not the deep and vital religious faith of which church work is the outward expression. They may think they believe, but actually they do not believe in the religion they profess. They are not convinced that their fate for all eternity depends on faith in its dogmas and obedience to its obligations. How to get men to go to church? Let there be a revival of true and genuine religious faith and the churches will not be large enough to hold them.—New York Sun.

—A sight as rare as it is pretty and interesting may be seen at the rear of the White Star Grocery, where Frank Ansel is propagating a lot of Mongolian pheasants. The old birds—a male and two females—are the property of F. A. Keller, and are very handsome. The hens have laid nearly or quite sixty eggs this season, and one of them is assiduously at work on a nest of 19 or 20 which should be hatched in a few days. Mr. Ansel put a setting under one of his large hens with the result that she brought out eight of the tiny little chicks, and the old mother seems as greatly pleased over her little family as though they were half grown turkeys, and the little fellows are industrious scratchers, full of life and quite obedient to the cluck of their foster mother. If these fine game birds can be so easily propagated our forests might in a few years be a veritable hunters' paradise if proper attention were given to the matter by our sportsmen.

—Quite an interesting suit at law is expected to develop out of the tragedy enacted near Goliza, this county, last December, when Leonard M. Johnson shot his wife and then sent a bullet through his own brain. If brought to an issue the case will be tried in Lawrence county, where they had formerly resided. It appears that the woman was possessed of some money which was in the hands of her guardian at the time of her decease, and the question involved is whether she or the husband died first. If she was first to expire, then, having no children, the husband would fall heir to her personal estate, and from him it would pass to his legal heirs. If, however, he was the first to die then her heirs would be entitled to the money left. The woman did not die instantly after being shot, and after firing the fatal shots Johnson went to a patch of woods some distance from the house, and was there found dead with a bullet hole in his head. No one saw him inflict the wound upon himself, and the question of which of the two was first to die will have to be established before a legal distribution of the funds can be had.

OIL NOTES.

J. M. Clapp has some eighteen or twenty locations cleared off and is hauling rig stuff on the ground for a campaign of operations on his property out in Tionesta township, on warrants 2827 and 2822.

A rig is about completed on the David Zuck farm, in the same vicinity, and drilling will begin in a few days by some Lincolnville parties, who have some leases in that vicinity.

It is also said the Standard is preparing to drill a number of wells in that locality.

Enough oil was pumped out of the well on the Frazee tract, Hickory township, to convince the operators that they had a good one, and it has been shut in for the present. Other locations have been made and drilling will be carried on there at a pretty lively rate for a time.

Drilling on a well on the A. J. Handy farm, Stewart Run, is expected to begin this week, and will require about ten days in its completion.

Millinery Business For Sale.

The Joyce Millinery Store in this place is for sale. The business has been placed on a solid footing and is well established, having a large patronage, but the proprietors desire to locate in a larger city and will therefore dispose of their store and their good will here at a reasonable figure. It is a rare opportunity for some wide awake ladies to engage in a business that is yielding a good return for the money invested. Consult or address: JOYCE SISTERS, Tionesta, Pa.

Thrown From a Wagon.

Mr. George K. Babcock was thrown from his wagon and severely bruised, his applied Chamberlain's Pain Balm freely and says it is the best liniment he ever used. Mr. Babcock is a well known citizen of North Plain, Conn. There is nothing equal to Pain Balm for sprains and bruises. It will effect a cure in one-third the time required by any other treatment. For sale by Dr. J. C. Dunn.

Paint Your Buggy for 75c.

R. at McCray's station for the past thirteen years, during which time he has never, until this happy event, been off duty a single day. Miss Casner has for several terms successfully taught in the Marienville schools, and both have a host of friends who will wish them abundant success in their new relation.

Lumbering at Eagle Rock.

The Ridgway Advocate of last week contained the following: The Eagle Rock Manufacturing Company is a new lumber firm that is made up of some of the best equipped practical men in Elk county, and they have a contract for manufacturing lumber at Eagle Rock, Venango county, that will employ them eight or ten years. This new company is made up of three men who have been thoroughly trained in the business for years, having been closely associated with the prosperous firm of Henry Bayard & Co., who operated very largely at Rolle, Wilcox and Instanter. Mr. W. L. Devine will be the practical mill man for the new firm, and there is no better man for that part of the business in the State than Mr. Devine. D. K. Condon, Esq., of Wilcox, will have the financial management of the business, and he is just as well able to take care of his end of the business as Mr. Devine. Mr. C. J. Johnson, the well-known and popular Rolle merchant and postmaster for years, will have charge of the store business of the company. There is a combination that is hard to beat in this or any other State. The Devine mill at Rolle, which was practically new, has been taken down and removed to Eagle Rock, and rebuilt, with many improvements and additions in modern lumber machinery. The Ridgway Manufacturing company have added to the fine band saw mill a new Meshon band saw, as well as a full equipment of live rolls, sorting rolls and a number of other good things in modern machinery, making it a very modern mill in all respects. The new mill will be started up this week, and will send forth a busy hum of industry for the next eight or ten years that will give employment to many men, and we hope may make a nice profit for its owners and operators. This saw mill is located a few miles above Oil City.

Mayburg.

A baby girl came to Nick McManigle's. Nick is a fine man and it's a fine girl. Another rise in the creek, and according to the number of insurance agents in town one might think that a whole raft of them had come.

Walter Shepard, the boss sawyer on the mill, who had his hand so badly hurt, is still laid up. Dr. Hamilton says it will take two months to heal.

Boss Carpenter Wm. Deshner and his crew are doing a good job on the railroad bridge, trussing and strengthening it.

Rev. A. H. M. Zahner went to Siverly to fill Bro. McGeary's appointments there over Sabbath. Rev. Richards preached twice at Garfield.

Mr. McGill and Mr. Freeman, of Tidoute, are here doing several nice painting jobs.

Wm. Hartman, Joe Brewster, Life Littlefield and W. H. Stroup did a good job collecting, rafting and running timber from Mayburg to the slash dam, to build a wharf to save No. 75 rig, which has been undermined by ice and water.

Bert Long had his foot so badly injured on the mill that one of his toes had to be amputated.

School Directors' convention at the court house on the 17th of June. One of the very best things the State has done is to encourage the meeting of the directors once a year to discuss the different phases of school work and directors' duties. Press the battle on boys, it's a good thing. A new engineer for the big locomotive this morning.

Memorial Day at East Hickory.

Our Memorial services on Sunday at the M. E. Church were very largely attended by the comrades and people of Hickory and vicinity. Rev. H. B. Potter led exceedingly well and proved himself master of his subject.

Notwithstanding the downpour of rain on Monday the church at Whig Hill was well filled for the services of the G. A. R. Our choir and band was on hand for duty and right well did they perform their part. The W. C. T. U. was present and every old soldier carried away an appreciated token of their respect. Long live the W. C. T. U. Aside from the Post but few went to the cemetery on account of the continuous rain. The G. A. R. services were rendered in the church. We had a happy patriotic assembly. Reva. Potter and Small were present and did their part right well. Our Post feels very grateful to them, to the choir, the band, the W. C. T. U. and to all our friends, who by their presence and labor aided us in our work of love. God bless them all.

COMRADE.

Letter to L. J. Hopkins.

Tionesta, Pa.

Dear Sir: Clothing is just like paint. It fits or it don't; it wears or it don't; turns water and weather or not; and goes out of fashion.

What do we wear clothes for? did you ever think of it? Different persons have different reasons, no doubt, but one points Devoe for beauty, to be in the fashion, and to keep out water.

Fashion says paint: We all paint. There is beauty in paint; we paint a good deal for that. And buildings are costly and fashionable; put on a waterproof two or three coats of paint, and your buildings last as long as you keep them dry. It costs nothing to paint; it costs your buildings no more.

Devoe is the paint that lasts; disappearing paints are the paints that cost.

Yours truly,
F. W. Devoe & Co.,
New York.

Triumphs of Modern Surgery.

Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed entirely; bones are splined; pipes take the place of diseased sections of the veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by Dr. J. C. Dunn.

Sued By His Doctor.

"A doctor here has sued me for \$12.50, which I claimed was excessive for a case of cholera morbus," says R. White, of Coachella, Cal. "At the trial he praised his medical skill and medicine. No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by Dr. J. C. Dunn.
