Dear Sir: A gallon saved is \$4 or \$5 earned. Devoe saves 2 or 3 gallons in 10.

How much is it worth a gallon? A gallon saved saves the painting too; past year here with her sisters, Mrs. Will and both together cost \$4 or \$5-\$4 where labor is cheap; \$5 where labor is dear. Our agents in Bridgeport, Conn., Hubbell & Wade Co., tell us; "There are a from her long and tedious illness to make great many workingmen's houses here. ten gallons. We have been selling them ten gallons Devoe lead and zinc, and have had in every instance, two gallons returned." The proportion is often higher than that; we have known it five in ten; but that is exceptional.

This is the explanation: Devoe ground by machinery, and is ground fine; lead-and-oil is mixed by hand, and isn't ground at all.
