Republican Voters Should Remember,

in order to qualify for voting this fall, that the

Last day for registration is Wednesday, Sept. 7th.

Last day for payment of taxes is Saturday Oct. 8th.

Don't forget this important matter. See to it at once and make sure of your vote for Roosevelt and the whole Republican ticket.

JUDGE PARKER assures the voters that the Democracy is the coming party. The only trouble is that it always arrives four years behind time.

It is said Chairman Taggart will not open a western headquarters. The Democrats have no hope of carrying any State west of the Alleghenies.

"Ours is a world power" said Judge Parker in his speech of acceptance, and he might have added "thanks to the wisdom of the Republican party."

"We have been wrong eight years, and you have been right; therefore we ought to be placed in power," is the gist of the Democratic argument. Yet some people say there is no humor in a political campaign.

It is perfectly safe for Judge Parker to declare for one term. Experience has taught the American people that one Democratic administration is all they can afford, without going into bankruptcy proceedings.

THE Titusville Herald points out the significant fact that up to the present time President Roosevelt has not found it necessary to write any private letters explaining what he meant to say in his speech of acceptance.

JAMES J. HILL, the railroad magnate, is quoted as predicting a big fall business. How much better that is than crying poor-mouth just because this is Presidential year. The man who cries calamity to help elect his candidates is not only a public nuisance, but he is a public enemy. Boston Globe.

THERE is not a single act in the administration of Theodore Roosevelt, there is not a single act in his public or private record, for which he needs to apologize. On the other hand the editorial columns of the Democratic papers now supporting Judge Parker are filled with apologies and explanations of the inconsistent course of not only the candidates but the party which they are endorsing.

MANY people question the propriety of estimating the chances of success by the odds speculators are willing to give, but it is, perhaps, worth while calling attention to the fact that in New York City bets are being made daily with increasing odds in favor of Roosevelt and Fairbanks. No well-informed Democrats are willing to give even chances on the success of the sphinx of Esopus.

HERE is the latest from one of our enthusiastic Republican brethren. When the effusion lacks in poetic beauty it makes up in solid truth:

There are the silver men,
The "middle of the road" men,
The gold standard and the
Democratic cranks;
Take them all together
They can't get votes enough to beat
Roosevelt and Fairbanks.

RECENTLY our Hon. Senator Ex-Attorney General P. C. Knox, took an outing trip to Europe. Some people wonder how he could afford it. The cat is now out of the bag. Mrs. Lawrence C. Phillips, of Pittsburgh, who is contesting a divorce suit with her husband, gave Mr. Knox a retaining fee of \$25,000. He just went over to England to see an uncle of the young man who is seeking to divorce his wife.

An effort will be made during the coming session of Congress for the establishment of a department of mining and metallurgy. By reason of its great influence upon all other resources and industries and the advancement of the country, many men of influence think mining should receive equal consideration with agriculture and other pursuits. Certain it is that it is worth while to keep a weather bureau running. The Government might recognize an important industry like mining.

OFFICIAL reports from Canada show that this country's commercial relations with that highly loyal province are in a very satisfactory state, even without reciprocity. For the year ending June 30, 1904, as compared with 1903, there has been a decline in Canadian exports of over \$17,000,000, and an increase of over \$17,000,000 imports. The imports are mostly from the United States, while the decline in exports is owing to a falling off of sales in England.

NO TRIFLER words were ever spoken than those of Senator Fairbanks in his speech of acceptance wherein he said: "President Roosevelt has been confronted with large and serious questions. These he has met and solved with high wisdom and courage. The charges made against him in the Democratic platform find an irrefutable answer in his splendid administration, never surpassed in all the history of the Republican party and never equaled by the party which seeks to discredit it."

WITH reference to the alleged visit of J. P. Morgan to Oyster Bay, Secretary Loeb says: "The story in The World about the visit of Mr. Morgan to the President at Oyster Bay is a lie from beginning to end. Neither Mr. Morgan nor any representative of Mr. Morgan has seen the President or communicated with him directly or indirectly at Oyster Bay or any where else. As far as the President or any one around him knows, Mr. Morgan has been nowhere near Oyster Bay, in a yacht or otherwise."

SECRETARY TAFT has been speaking his mind about President Roosevelt. He says: "In all my experience I never met a man in authority who has less pride of opinion in the judgements that he has formed in respect to situations presented to him for action than has Theodore Roosevelt. I have never met a man who was so amenable to reason, so anxious to reach conclusion, and so willing to sacrifice a previously formed opinion as the President of the United States. He is not a tyrant, but he is a leader. Does the American nation object to this?"

THE assurance with which great enterprises are being taken, involving the expenditure of many millions of dollars, is evidence that confidence prevails among all classes of men as regards the future, and that this country has settled down to the conclusion that there will be neither a change of government nor of policies. A million dollar power plant on the banks of the Susquehanna river at York Haven, Pa., has just been started. It will furnish power and light for a number of nearby cities. There has been a great merger of traction lines in Ohio, and a mortgage authorized of \$750,000. A half million acres of land, now desert, are to be reclaimed in the Imperial Valley, in California. About \$7,000,000 is to be invested in trolley lines and a system of parks in western Massachusetts and northern Connecticut. A gigantic station on the Connecticut river, at Greenfield, will supply the feed wires with power which will run all over the two states. Many other similar enterprises might be notified, all going to show that capital considers the future as assured.

THE Law and Nothing but the Law.

When the campaign is over, President Roosevelt elected and men and newspapers on both sides have cooled down, the country, down to the last voter, will see what amount of nonsense is the campaign story which deals with various alleged bargains, deals and compromises with "trusts" and "rust magates."

Every campaign has its special breed and brand of rookeries. This is the one this year. Some men are deceived by it. Some deceive with it. No one will believe it when the campaign is over. No one really credits it now—not even the people and papers who in the heat of a campaign slip into its publication.

President Roosevelt's policy and practice in regard to trusts were certain to start these rumors, not because it did so little, but because it did so much. Remember, only two short years ago sane, intelligent, able corporation managers honestly believed and were told by their lawyers that Federal statutes could not reach the big corporations, and that consolidations could not be prevented by the Federal courts. No one says that now. Two years ago arbitration in the antitrust disputes were declared impossible. No one says that either. Judge Gray has just been called in without any request, exactly as if arbitration in antitrust had always been part of the common law of labor.

The supremacy of law was asserted and demanded in all relating to great corporations by President Roosevelt, and this visible supremacy has been achieved and respected. Corporation managers see this. The trusts and their managers understand it. Law proves the best for all. It always is. A trust, like the Standard Oil, which still seeks secrecy, may fight the new victory and extension of law, but the far-sighted corporate managers see that regulation is better than revolution and that the reforms of law are better than the attacks of anarchy.

This assertion of law by President Roosevelt as the supreme authority over all, the biggest corporation as well as the poorest man, and its acceptance when the Northern Securities decision showed that there was law enough to go around has changed the face of the whole "trust issue." It has opened a new chapter in legislation. It lays out a clear track and plain path between Alton B. Parker, who says nothing is needed, and William J. Bryan, who wants it ripped up. It has satisfied both the public and the law-abiding men in charge of great corporate interests.

It is mere campaign slander-mongering to denounce this new attitude as a "deal." When the campaign is over all men will see that ordered law has won another triumph and began a new reform.—Phila. Press.

Emergency Medicine.

It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before an inflammation sets in, which insures a quick recovery. For sale by Dr. J. C. Dunn.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
