PRESIDENT'S LETTER RANG TRUE

He Is Everywhere Praised, While Judge Parker, On the Other Hand, Is Regarded As the Candidate of Wall

Street.

[Special Correspondence.]

Harrisburg, Sept. 20. Now that the political campaign can be said to be fairly under way, interest is taken in the reports that are coming from every section of Pennsylvania regarding the sentiment of the voters toward the rival candidates for the presidency. Men employed in the several state departments who mingle with the voters in their respective counties are in a splendid position to gauge the public pulse. Within the last few days a careful canvass has been made for frank, unbiased and absolutely impartial reports from these men, and visitors who are brought here on official and private business, and there is a remarkable unanimity indicating a great poular tide of sentiment in favor of President Roosevelt's election.

Democrats privately admit this to be a fact, and when talking to friends many of them admit that they have already given up the fight.

Roosevelt's letter of acceptance has probably had more to do with emphasizing the popular feeling regarding his candidacy than any other feature or phase of the canvass.

The President's letter of acceptance rang true. It was characteristic of the man, through and through-honest, into the fight followed by a powerful frank, straightforward, fearless and patriotic.

His letter may well be perused by all. All will agree, although they may in eight years the Democratic party not agree with all of the President's views, that every subject is frankly discussed, that there is no lurking in the dark, no skulking, no ambiguity nor insincerity. Mr. Roosevelt has something important to say, and goes about it in a straightforward, manly way. True, his letter may not abound. in figurative language and literary elegance, but it is the product of a man sented by Belmont, Pat McCarren, Ladeadly in carnest, possessed of the highest motives.

At the outset Theodore Roosevelt was beset, and probably will continue to be beset, with adverse criticism from | that they will get value received." the Democratic party, and in every instance he has boldly defended him- Last Low-Rate Excursion to Buffalo self; in fact, vindicated himself. The Panama question, the pensions matter, the government expenditure and others are ably defended and justified.

Certainly his attitude toward the Philippine Islands question is just. Niagara Fails for the present season. equitable and sensible. He would give the inhabitants self government and do everything possible to better their condition, but he would be slow to make rash promises, to break faith do everything possible to better their with the people of the Philippines, Mr. Roosevelt points with pride to Governor Taft's admirable administration in the Islands, and shows how disastrona it would be to do anything that would neal incite insurrection rates.

ering, no equivocation. He justly critiinjured cises the Democratic party for its stand on the currency question. "Absurd," says Roosevelt, that the gold standard is irrevocably fixed. What assurance of a stable currency have we? What could we be sure of with a party in power that was not honest chough to insert the all-important plank-the money plank-in its platorm?

Last, but not least, President Roose relt is highly respected and admired by the nations abroad. He is an allaround man, with snap and go-not a puppet-who has come into international prominence. Even in England, where the Republican party's principles are not especially popular, Mr. Roosevelt is greatly admired. A man with a negative personality, one insincere, unpatriotic and selfish, could never have gained this world-wide popularity.

The rank and file of the Democrats of Pennsylvania do not enthuse over the candidacy of Parker. He is looked upon as the candidate of the Wall street money power, and as not in any way representing the sentiments of the old-fashioned Democrats. The feelings choice, 9c. of these Democrats are expressed by Thomas Watson, the Populists' candidate for president, who a few days

ago said: "We want to drive out from the tem ple the money changers who defile it "Can I hope to do inside tue Democratic party what Bryan so signally failed to do? For eight years he exerted all of his marvelous powers to accomplish something inside the Democratic party. Back of him were hundreds of strong newspapers. He went organization; he secured more votes than Grover Cleveland ever had, and yet because he could not succeed withrepudiated him and trampled his platform under foot. "What do the greedy corporation

hordes expect from Parker? Are they doing this simply for health and pleasure, or is it a matter of business with them? It is high time that the people of this country woke up to the fact that corporate interests repre-
