ROOSEVELT ENTHUSIASM

Republicans Rally Throughout the State About Party's Standard.

MANY MEETINGS BEING HELD

Chairman Penrose Gratified Over the Settlement of All the Republican Deadlocks.

[Special Correspondence.] Philadelphia, Oct. 4.

The fires of Republican enthusiasm blazed brightly in every corner of the Commonwealth of Pennsylvania during the last week when the presidential campaign can be said to have been fairly opened. Great popular demonstrations were held in Pittsburgh and Philadelphia, and in many of the principal towns of the state, in the villages and hamlets on the hills and in the valleys there were rousing rallies of the stalwart voters who have unfurled the Republican banners, and will keep them bravely flying for the balance of the campaign.

Chairman Penrose, of the Republican state committee, is more confident than ever that his prediction that Pennsylvania will give a record breaking majority for Roosevelt will be fulfilled.

The last day for the filing of certificates of nomination has passed, and Secretary Wesley R. Andrews, of the state committee, who took personal charge of this part of the work, has been complimented upon the fact that every nomination was recorded in time.

It is a matter of gratification that every deadlock over a Republican nomination was broken in time to have the nomination certificates filed within the prescribed limit. Possibly the most difficult contest to settle was that in the 33d senatorial district, where Senator Stewart, of Franklin, and Editor J. S. Welch, of Franklin, Union (Huntingdon county) Times, were the rival candidates. After over 100 ballots Mr. Welch agreed to withdraw and save the district to the Republican party. He did not do so, however, until he had a compact entered into by which Huntingdon county is to have the next two terms in the state senate from this district.

Chairman Penrose, on the settlement of this contest, gave out a public statement in which he commended the self-sacrificing action of Mr. Welch, and declared that the Republican organization was deeply indebted to him for his course which made it possible to insure the election of a Republican to the senate from this district.

With all of the nominations out of the road, Chairman Penrose and Secretary Andrews have been giving more time to the organization of mass meetings throughout the state. They have planned an interesting series of demonstrations which will keep the spellbinders of the Republican party busy from now until election day. They are making a special effort to get the first voters organized.

The Democrats have been sending special campaign literature to the Dunkards and the Quakers of Pennsylvania, in an effort to line them up against Roosevelt. They have not had any success in that direction.

Congressman Butler, of the Delaware-Chester district, who has a large number of Quakers among his constituents, called on President Roosevelt a few days ago and informed him that he could count absolutely upon the support of the Quakers who are Republicans, and most of them vote that way.

"There is no truth in the claims of the Democrats, so far as the Quakers are concerned," he stated. "My ancestors for 200 years before me were Quakers, and I believe I know the sentiments of these good people about as well as anybody. They are for Roosevelt in Pennsylvania, and I am told that they are giving their support to him elsewhere."

Congressman Cassel, from the Lancaster district, declares that the Dunkards are all for Roosevelt.

Senator Philander Knox, who made his initial speech of the campaign at the great Philadelphia demonstration, under the auspices of the Manufacturers' Club, made a splendid impression. His address will be one of the most sought-for documents of the Republican campaign. The national committee is already getting hundreds of thousands of copies printed, as it is considered one of the most effective presentations of the record of the Roosevelt administration yet given. He refuted many of the Democratic charges against the administration and showed that the president has been a patriotic and courageous champion of the people against the encroachment of corporate and monopoly power.

Senator Knox, among other things said: "The record of President Roosevelt's three year's stewardship is such that his party has unanimously nominated him as worthy to be continued in his high place.

"The Republican party is not on the defensive, and that great canon of evidence and good sense which places the burden of proof upon him who accuses applies as well to contentions between parties as to those between individuals.

"The Republican position upon the tariff is plain and easily understood. It is all in a sentence. We stand unflinchingly to the policy of protection which guards and develops our industries." When our people reach the conclusion that they do not want their industries guarded any longer or protected any further, they will pass the power over to those who are willing to execute such a policy."

GOLD-LINED DEMOCRACY

Bryan Men Have No Time For Parker and His Wall Street Clique.

PREFER TO SUPPORT WATSON

Many Silver Democrats in Pennsylvania Are Going to Vote For the Socialists' Candidate.

[Special Correspondence.] Harrisburg, Oct. 4.

From all over Pennsylvania come reports that thousands of Democrats who followed Bryan loyally in his two campaigns for the presidency will not vote for Parker at the election on the 8th of next month.

They have no confidence in Parker. They say he lacks sincerity and that he has repudiated the principles which he voted for at the last two presidential elections. They charge him with having surrendered to the Wall street clique of financial conspirators who have for more than a year been scheming to defeat Roosevelt for the presidency.

Many of the real, genuine, Simon-pure Democrats who believe in the Chicago and the Kansas City platforms for which they fought so strenuously in two great presidential contests, propose to vote for "Tom" Watson, the candidate of the Socialists party, for president, who stands for the true doctrine of Bryanism.

Not a few of them, however, who want to see Parker "the worst licked candidate for president that ever ran" intend to vote directly for Roosevelt.

The Democrats who are opposed to Parker have a compact organization in many states.

All through the south, where many Democrats honestly believe in Bryan, they have formed clubs to work and vote for Watson. Over in New Jersey, where Watson is scheduled to make a number of speeches this week, there is a strong following of old-time Democrats who have joined the Watson forces for this campaign.

In counties like Luzerne, Schuylkill, Lackawanna, York, Adams, Mifflin and others, where there are many Democrats who refuse to accept the Parker policy of switching from one platform to another on the slightest provocation, there is a pronounced sentiment in favor of Watson.

Many of these Democrats will vote the full Socialist ticket. An effort is being made to get Watson to visit some of the Democratic strongholds in this state, and it may be successful. The candidate of the Socialists for vice-president spent several days last week in York, Schuylkill and other counties in Pennsylvania, and he is booked to make more speeches this week in this state.

The silver Democrats style the Berkshires the "Gold-lined Democracy." They say such Democrats are ready to change their coats or their colors at any time to win, and that no man with any self-respect could follow such leadership.

Parker's letter of acceptance was the last straw that broke the tie that bound many silver Democrats to his candidacy.

Parker never before expressed his "unqualified belief" in the gold standard, though he used the expression "again," intimating that he was only repeating a formerly avowed opinion. Until now Mr. Parker has contented himself with saying in his Sheehan telegram: "I regard the gold standard as established." In his speech of acceptance he merely referred to that telegram "regarding" the gold standard as established as covering his views on the subject.

That he has finally plucked up courage to say that he actually believes in the gold standard is, perhaps, due to the fact that he appreciates now, as every other person of sound judgment appreciates, that the bunco words of his telegram failed to deceive a single silver voter in the country, and that he has lost beyond the possibility of reclaim every state in the west that either Bryan or McKinley carried in 1896 or 1900.

In a last desperate effort to gain the support of the Democracy that falters and wavers even in the east, he appears to be willing now to commit himself unequivocally on the subject of the gold standard. But the voters of the east, not only the Republicans who voted for McKinley and sound money, but the Gold Democrats, who in two national campaigns refused to barter the nation's honor for financial heresies, will ask Mr. Parker why, if he actually believes in the gold standard, why, if this is an "unqualified belief," he twice went to the polls—in 1896 and 1900—and voted for the free silver programme of William J. Bryan? If in 1896 and 1900 Mr. Parker could deliberately vote and act against his convictions, if he has any, could he act now and in the future if he were elected president of the United States?

Thus Parker has failed to keep the silver Democrats in line, and he has disgusted the sound money Democrats and lost the respect of Republicans and good citizens generally.

His case is a hopeless one. A close observer of political conditions in this state said a few days ago: "I find a strong disposition on the part of many of the more ardent Bryan followers either to support Watson or to vote directly for Roosevelt. Everywhere the most absolute confidence is felt in Roosevelt's election, and that he will receive also the electoral vote of New York."

"I find the Democrats apathetic and many of them openly express the belief that the Democratic ticket has no chance. Unless something is done to arouse them, I look for a large stay-at-home Democratic vote."

Performing Wonders.

Thompson's Barossa Kidney and Liver Cure.

Is not only performing wonderful cures, as the following statements will prove, but all the cures have been permanent, there being no return of the disease or any of the symptoms even after a lapse of many years.

I was bloated and short of breath, making it very laborious for me to walk. I suffered pain in my back and sides. My stomach was also very sore and throbbled with pain. I was told I had kidney trouble and enlargement of the liver and spleen. I finally began trying Thompson's Barossa and the first bottle reduced the measurement around my stomach from forty inches to thirty-six inches, and several bottles completely cured me. I gladly recommend it to others. This was five years ago. M. S. LANGWORTHY, Tryonville, Pa.

E. O. Owen, a prominent resident of Troy Centre, Pa. writes: "Ever since I can remember, for 20 years or more, my back troubled me, caused by inflammation of my stomach and liver. First, then my kidneys became involved. At times the pain became excruciating. Having used a large number of so-called cures, I finally found a complete cure in Thompson's Barossa, several bottles reducing all inflammation and consequently curing the pain. Thanks to Barossa, I have been perfectly well for two years. My wife's health has greatly improved by taking Barossa. She has gained in weight and the yellow tint to her skin has been replaced by a fresher and healthier color." All druggists, 50c and \$1.

Where She Had Felt.

"See here!" exclaimed Mr. Club upon discovering next morning that all his "change" was gone. "During your talk to me when I came in late last night I believe you remarked among other things that 'woman feels where man thinks.'"

"I did," replied his wife. "You have no feeling, and—"

"Well, I merely want to say you're mistaken if you suppose I do my thinking in my pockets."—Catholic Standard and Times.
