Oil market closed at \$1.56. Oil and gas leases at this office. Special prices on all street hats from now on at the Joyce Millinery.

Hopkins sells the goods because he keeps the best at the lowest price. Grapes are now at their best and cheapest. Get them at the White Star Grocery.

The subject for Sunday at the M. E. Church is "An Ancient Request." Services at 7:30 p. m.

State Superintendent Schaeffer has issued a proclamation designating October 21, 1904, as Autumn Arbor Day.

A Warren man, who appropriated half a bushel of peaches from in front of a store, paid a fine and costs amounting to \$8.95.

As usual during the hunting season the White Star Grocery will keep shot-guns for hire. Also a nice assortment of the best cartridges and ammunition.

Sick headache is caused by a disordered condition of the stomach and is quickly cured by Chamberlain's Stomach and Liver Tablets. Sold by Dr. Dunn.

When looking for an economical gas stove see "Heflos" the heater at McKinley's hardware. As a gas saver and heater it has the rest of the bunch "done to a frazzle."

J. W. Daubenspeck, of Gollinza, has a first-class family driving horse which he desires to sell. The horse is perfectly sound, in good condition and is a three-minute roadster.

John Charleston is building a new domicile on Vine street, near the Catholic church. He expects to get it far enough along to occupy before winter thoroughly sets in.

The Odd Fellows of Pennsylvania will hold a State convention in Bradford this month and elaborate preparations are being made for the event by local members of the organization.

A young man named Alexander, whose home is near Newmansville, cut his right foot quite badly Saturday morning while working in the woods near President. Dr. Bovard attended him.

Chas. Kenniston lacerated the fingers of his right hand on one of the saws at the veneer works last Wednesday morning. Dr. Bovard fixed him up and he is getting along as well as could be expected.

Guy Morrison, son of R. M. Morrison, has been appointed postmaster of the new postoffice recently established at Morrison & Bell's mill in West Virginia. It will be known as Morrillbell.—Marienville Express.

Following is the list of letters lying uncalled for in the Tionesta, Pa., post-office for week ending Oct. 12th, 1904: Mr. Ben. Langworthy, Mr. Jas. I. M. Wilson & Co., Henry Groce.

D. S. Knox, P. M. Charles Desher, of Mayburg has already captured three bears this season, one of which was a monster in size. Charles is one of the most successful bear hunters in our county, generally getting the scalps of six or eight during the hunting season.

Uncle Selden Whitman, of the township, will please accept our thanks for a keg of excellent sweet cider of his own making. Mr. Whitman has squeezed out several barrels of the juice this fall and is still at it, and those wishing a quantity should order it at once.

Harry Hepler, the 3-year-old son of A. B. Hepler, yesterday afternoon fell from the hayrack of a neighbor's barn and dislocated his shoulder. Dr. W. G. Morrow attended the child and replaced the dislocation, a very painful operation, but the little fellow has been resting easy since.

Every living bird and beast strives its utmost to cram itself with food before retiring for the night, and this food is digested as the night progresses. The evening meal is the feed of the day with the brute creation, and yet doctors tell us to refrain from eating heartily at night and even advise us to retire to rest with a more or less empty stomach. Are we following nature when following this advice?

The Clerk of the General Assembly of the Presbyterian Church publishes a summary of statistics of that church which show very encouraging growth. There are now 33 synods, being an increase of one; 245 Presbyteries, an increase of six; 7,782 ministers, an increase of 60, and a total membership of 1,094,968, a net increase of 8,800. The total contributions of the church last year for all causes was \$17,789,713, an increase of \$148,325.

Will S. Clark, of the Hunter Run district, sent in a sample of the fruit he is harvesting from his orchard these days. There were 16 apples in the bush, and they were nearly filled a half bushel measure, one of the beauties measuring 12 1/2 inches around the waist. Mr. Clark has finished the picking of over two hundred bushels from his orchard, and there are bushels and bushels going to waste besides. This has been a good apple year and no mistake.

Harry, the 13-year-old son of Thomas P. Flynn of near Gollinza, fell off a load of logs Monday afternoon and sustained a fracture of both bones of the right arm near the wrist. Dr. Bovard attended him and reduced the fractures, leaving the lad quite comfortable under the painful circumstances.

W. C. Miltenberger, former editor of the Clarion Republican, died at his home at Pocahontas, Idaho, on the 27th ult. Mr. Miltenberger went to that section of the country with his family about four years ago, expecting to get relief from catarrh and hay fever from which he had been a great sufferer for a number of years.

Sheffield Observer: A daughter was born to Mr. and Mrs. J. T. Austin, of Cherry Grove, September 30th. B. F. McMichael, the lumberman, is now expected to be called "grandpa," and we expect to hear him laugh more heartily than ever when greeted by his new title.

The new chemical plant at Barnes, being built by the Forest Chemical Co., is almost completed, and Superintendent McNeel tells us will be ready to start the first of the week. This is one of the largest and best chemical plants in this part of the state.

There is a bad slump in the railroad market at present, the railroads having suspended purchases completely. What the cause is no one seems able to figure out. This has been one of the stable industries of this section for many years, and dealers are left with immense amounts on their hands by reason of the shut-down. There seems to be a general understanding all along the line as none of the roads are buying at the present time. Work in the woods in this line has been suspended for the time being, or until it is known what is going to be done with the product.

The REPUBLICAN has made arrangements whereby the New York Tribune Farmer can be supplied to old and new subscribers at the remarkably low rate of 25 cents a year. The long winter evenings will soon be here and you will want something, not only interesting but highly profitable to read, and you can hit on nothing better than this world-famed farm and fireside magazine. Regular subscribers get the paper by paying a year in advance and 25 cents extra, and new subscribers get it on the same terms. Sample copies on application. Now is the time to renew or subscribe.

Adam Sibble, who has a fine chestnut orchard in connection with his farm on German Hill, finds that while it pays to care for and cultivate these choice nuts, it does not always pay the man who owns the orchard. His trees here very well this season and he should have had several bushels for market this fall, but when he came to harvest them he found there were others who were not averse to helping him out with his crop, saving him the trouble of picking them off the ground. He is not inclined to make a fuss about it this time, but another year thinks he will be able to pick the nuts himself if given the chance.

Often times we have some one to tell us when it is too late that we did not make mention of some one visiting them, and the reason was that we did not know they had visitors. A newspaper man is not always a mind reader and what we do get we get by "pumping." Now while we do not want to make a pump out of our friends, still we wish you would help us pump and when you know of anyone going visiting or any item of news, call on us and tell us about it, or send a note to the office. We will appreciate the favor.

Ex. This holds good in every newspaper office, and friends can do much toward making the paper more interesting. Try it.

The REPUBLICAN to-day presents its subscribers with a handsome portrait of President Roosevelt. These portraits are approved by the Republican National Committee, and are not a cheap wood cut affair, but a work of real art and worthy of a place in the finest home in the land, when properly mounted and framed. We trust our subscribers will preserve these pictures of our excellent President who has proven himself so popular with the American people, and who will be again chosen to preside over our destinies for the next four years. We have a few of the portraits left which those who would like a copy can have free of charge by calling at the office.

There is no season of the American year which is not beautiful, yet were it put to the vote of all manner of men, perhaps October would be called the most beautiful month of the entire year, even more beautiful in its ripeness than is the vernal month of May, clad on as it may be with tender green. The flame of the maples, the yellow and brown of the sober leaves, the touch of high-colored berries or wild fruits of the woods—all these things the sportsman knows, just as he knows the melancholy but fascinating monotony of the frost-struck marshes where the wild fowl come. He knows October as a month beautiful and delectable.—Field and Stream for October.

About 35 ladies of the W. C. T. U. and a few invited friends went up to the County Home on Wednesday last week with baskets heavy laden with good things for a picnic dinner. It had been planned to have dinner out upon the lawn, but as the weather was somewhat threatening this was given up and two tables were spread in one of the spacious dining rooms, where about fifty were seated and partook of the most sumptuous dinner, which seemed to be enjoyed by all, especially the inmates of the Home. The ladies greatly appreciated the kind hospitality of Mr. and Mrs. Paup and their family. After the dinner was over and an hour was spent in a social way, a prayer service was held, conducted by Mrs. Angus Carson.

Prof. Cole gives the following very cheerful forecast for the present month of October: Many autumnal storms may be expected during the first part of the month. The last half of the month there will be violent storms of wind, rain, sleet and snow, especially in the northwest. Those along the lake regions and seacoast should watch out. Earthquakes will be liable to result from the planetary conditions that now exist. Notice the sunset scenes this fall. The best days to sow grain and rye for fall and early pasture will be Saturday, the 13th, and Friday, the 21st. These days will produce a strong growth, large straw, and will make a fair crop of grain. The 23rd and 21st will be the best days to fish, and the next best days will be the 11th, 13th, 22d, 25th and 28th.

A dentist says that the more teeth are used legitimately the better for them; that perfect mastication on both sides of the mouth prevent receding gums and tends to ward off decay. Those who chew on one side have poor teeth on the disused side, and the fact of chewing every mouthful very fine is one of the most sensible fashions humanity has ever taken up.

Emmett Grubbs, a former resident of Kingsley township, was severely injured on the mill at Eagle Rock yesterday afternoon. A slab thrown by the lathe saw struck him on the head, rendering him unconscious for several hours and bruising his head and body very badly. One of his arms was also badly injured, but Dr. Bovard, who attended him, found no bones broken.

Miss Clara Wolf, daughter of Andrew Wolf, of near Jobolowen, was taken to the hospital at Oil City last Friday for treatment for blood poisoning. Her trouble developed from a slight abrasion of the skin of the third finger of the right hand, over a month ago. Dr. Bovard, who attended the young lady while here, has been advised that she is doing well, and that she will recover without the necessity of an operation.

Harry Edger, youngest son of Uriah Kliestor of Bowmanville, died in a hospital at Elkins, W. Va., Tuesday evening, Oct. 12th, 1904, of typhoid fever, aged 29 years and 6 months. The young man went with his brother Frank to that section about six months ago, and they were employed on a single mill. Both were taken down with fever about three weeks ago, and were taken to the hospital. Harry's mother was with him when he died. The burial took place at Elkins, Frank is improving.

Never forget that women are made out of girls, and that men are made out of boys, that if you are a worthless girl you will be a worthless woman and if you are a worthless boy you will be a worthless man; the best educated women once did not know "A. B. C." that all the things which you are learning had to be learned by them; that the efforts spent in making others happy will in some way add to your own happiness; that a life of usefulness and helpfulness is worth many times more than a life of pleasure.

The drunken idiot who started the fire whistle last night, giving the decent, lawabiding element of the town such a fright, should meet a proper punishment without delay. That punishment should be incarceration in the jail for a thirty or sixty day term, a good stiff fine and complete ostracism from decent society. Put such idiots where they belong and keep them there for the good of society. If this rowdyism is permitted to go on at the rate it has been, about the next we hear there will be occasion for a southern lynching bee, and for about the same sort of criminality as is carried on down there.

F. E. Allison, of Wisconsin, is in Franklin for a few days for the first time (to visit) in forty years. But he is an old Venango county man. He was born in Centre county "78 years ago," as he says, but came to Venango when seventeen and taught school in Cranberry township the next year. He says he has only met two people in Franklin that he remembers, Robert Bingham and Mrs. J. H. Smith, Sr. He began life in Venango, near Slab Furnace, in the charcoal days. He helped to strip the county of timber fifty or sixty years ago. When Forest county was formed his home fell within its bounds and he was prominent in that county until 1882, when he went to Wisconsin, where he has since resided, except a few years in Oregon. He is the only living uncle of United States Senator Allison, of Iowa, and looks very much like his distinguished nephew.—Venango Vindicator.

In an address before the New York Press Association Senator Dewey paid a tribute to the country newspaper which well suggests the standard they should persistently maintain, in the course of which he said: "I pay my respects and express my admiration for the country newspaper and country editor. His lines are not cast in places of the great and profitable organs of the metropolises, whose profits are reckoned often by the hundreds of thousands of dollars every year. But the country editor lives in and is a part of his community. His virtue is not so much in what he prints as what he refuses to print. He could easily destroy the peace of the community by admitting to his paper the scandals and gossip of the neighbors. But he stands as a censor and guardian of public morals, and I know of no conditions under which the public is appealed to in a certain measure where the utterance is so free from criticism as the general tone of the country press."

Mr. Sibley to Speak in Forest County. Chairman George W. Osgood has arranged with Congressman Joseph C. Sibley for at least three mass meetings in this county, and the time fixed is during the week preceding the election. Mr. Sibley's time being taken up in the other counties of the district up to that time. General John A. Wiley, Commander of the third brigade of the N. G. P., will probably accompany Mr. Sibley. Gen. Wiley is a clever campaigner, and makes a pleasing address. Wherever he has spoken this fall the people have been delighted. Of course everybody takes advantage of an opportunity to hear Mr. Sibley, and none ever go away disappointed, because he is candid, fair and perfectly honest with his audiences. The places and dates for these meetings are as follows:

Tionesta, Monday evening, October 31, Kelleetville, Tuesday evening, November 1st. Marienville, Wednesday evening, November 2d.

Keep in mind these dates and places, and make your calculations on getting out to hear the most distinguished representative in the American Congress.

How to Cure Corns and Bunions. First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm to the sore, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by Dr. J. C. Dunn.

An orator is willing to raise his voice if his audience will raise the cash.

The ladies of Clarion and vicinity will be glad to know that Miss Caroline Mathe, of Tionesta, has located in rooms opposite the Presbyterian church in Warren. Potter's house, where she is prepared to do dressmaking and all kinds of sewing.—Clarion Republican.

Word received here by friends of O. W. Propper, who was taken to Rochester, Minn., for treatment of stomach trouble, is that an operation was performed and his trouble was found to be appendicitis. The operation was successful and the last heard from his bedside was that he was getting along well and would recover without much further trouble.

Rev. Dr. Fradenburgh, presiding elder of the Franklin district of the M. E. church, has been compelled to give up his ministerial work for a time and go to New York to receive special treatment for kidney trouble. He has been almost incapacitated for work for some time, and hopes to get relief if not permanently cured of his malady, and many friends in his district will hope it may be the latter.

Mr. and Mrs. J. A. Dawson, of Stewart Run, attended the marriage of their niece, Miss Hattie Ferry, to Mr. E. C. Walcott, at Warren, yesterday. The wedding ceremony was held in the M. E. church at East Warren last evening at 8 o'clock, and was followed by a reception at the pleasant home of the bride's parents, Mr. and Mrs. C. G. Ferry, Prospect street, where we will know many of our readers.

A distinguished company of the woman's Relief Corps of the Pennsylvania Department visited their Tionesta sisters last week, having been called here on official business connected with the annual audit of the books of the Department Treasurer, Mrs. Jennie E. Agnew. They were Mrs. Hall, Department President, Wilkesbarre; Mrs. Abbie Lynch, of Allegheny, Department Secretary; Mrs. Laura Willow, of Rolfe, Chairman of the Executive Board, and Mrs. Reavley, of Erie, and Mrs. Carrington, of Oil City, Members of the State Auditing Com. They found Mrs. Agnew's books and accounts all right and kept in a very satisfactory condition. Friday evening the members of Slow Corps gave them a surprise at the home of Mrs. Agnew, coming with well-filled baskets and serving their visiting officials with a delightful lunch. The occasion was an exceedingly pleasant one to all present.

The Joyce Millinery Opening.

The annual Fall Opening of fashionable millinery at the Joyce Sisters' store Thursday, Friday and Saturday of last week was undoubtedly a success if the number of people in attendance from the town and the surrounding country is any criterion, for there was a constant flow of ladies in and out of the store all three days. The assortment of pattern hats was admitted by all to have been the largest ever shown here, and the most fastidious woman certainly ought to have been able to make a satisfactory selection. We will not attempt to give a description of the shapes of any of the new creations, as that is beyond the limits of any man's vocabulary, but we will take the ladies' word for it and say that they were "just grand." The prevailing colors are burnt orange, browns, greens and blacks, and there were large picture hats and turbans of all sizes. The materials for trimming this fall are mirrors in silk, fur and ribbon, and the harmonizing combinations showed the exquisite taste of the trimmers. Truly there is no necessity for the ladies of this vicinity going away from home to purchase millinery while they have this up-to-date firm to cater to their wants in this line.

Oil City Sanitarium for Consumptives.

A generous resident of Oil City, whose name for personal reasons is withheld, is about to establish near that city a sanitarium for the treatment of consumptives. Drs. Frank McCarthy and Harry Kirchner, two of the younger physicians of Oil City, are the gentlemen who interested the donor of the hospital and through whose influence he is about to expend a small fortune for the benefit of his fellow men. A farm of sixty-six acres on Haason Heights, with comfortable farm buildings, has been purchased. There glass houses will be built and outdoor treatment administered. As they are required other buildings will be erected.

The plan is to treat consumptives along the lines accepted to a well defined plan worked out by Dr. Flick, of Philadelphia, who first experimented by curing himself of tuberculosis. Drs. Kirchner and McCarthy studied in Dr. Flick's hospital in Philadelphia and the former was a physician there for some time after his graduation. He has been appointed to examine consumptives in the vicinity of Oil City and recommend those whom he thinks should have sanitarium treatment. The treatment is founded on common sense; it uses pure water, wholesome food and sunshine, in lieu of dangerous drugs. It is said to be successful in practice and is known to be sound in principle.

The buildings are already being prepared and the treatment of patients will begin in the near future.

Letter to T. F. Ritchey, Tionesta, Pa.

Dear Sir: There are these five ways of madness in paint: (1) Stuffed out with chalk, or something like that; (2) barytes, better than chalk, but no covering to it; nobody knows it's there; (3) benzine in the oil, no water, or other such stuff; (4) too thin—too much liquid, whatever it is, for the solid; (5) short measure. Now will you buy by the proper price per gallon? We furnish our agents with a state chemist's certificate of analysis that tells what's in Devoe.

Yours truly, F. W. Devoe & Co., P. S.—Jas. D. Davis sells our paint.

Did You Ever!

Wonder why there was such a great difference in the prices of various brands of

EXTRACT OF VANILLA?

It is because some are diluted, some adulterated, and others are made from poor vanilla beans.

BOVARD'S EXTRACT OF VANILLA is full strength unadulterated, of full flavoring value. You can make no mistake in buying THIS VANILLA.

It costs no more than many cheap brands and has 2 or 3 times the flavoring power.
