Calendar for November 1904 showing days of the week and dates.

MOON'S PHASES table showing moon phases for the month.

TOM WATSON objects to being put in the "also ran" class.

It will not be Senator Bryan—for the second time. He might try something new.

UNCLE DAVIS consoles himself with the fact that he is not handicapped with the Vice-President.

We are patiently waiting to hear from Senator Tillman. He probably feels as if he couldn't do the subject justice just yet.

It may be well to observe, at this stage of political gossip, that no Cabinet appointments are genuine unless marked "T. R."

CITIZEN PARKER is trying to console himself with the idea that he would rather be right than be President. But the chances are he will never be either.

The Populist vote in Connecticut this year was more than 400 per cent. greater than in 1900. There were no Populist votes in the State in 1900, and there were 403 this year.

THE Hon. Henry Gassaway Davis, of West Virginia, has sufficiently recovered from the election returns to announce that he is not discouraged. Looks as if he was expecting to try it again four years hence.

BROTHERS who are sympathizing with Brother Rockefeller on the reduction of his income this year from \$17,000,000 to \$14,000,000 will please be comforted. That's only his Standard Oil dividends. Nobody knows how many millions he has made on the side.

"ED." BUTLER, long the Democratic boss in St. Louis, is unquestionably telling the truth in asserting that St. Louis is a Republican city and has been carried by the Democrats by fraud. That the city was Republican in the estimation of the Democrats was made clear when the Democratic State Legislature placed the police and election machinery entirely in the control of the Governor. Butler has been convicted of "hooding," which is the cause of his sudden determination to quit politics. He is rich, and he knows what he is talking about.

TOM WATSON'S explanation of the overwhelming defeat of the Democratic party at the late election is that the people never before had an opportunity to express themselves directly on the subject of Grover Cleveland's second administration, and as Mr. Cleveland, Perry Belmont, Olney and others closely allied with the Wall Street bond deal were the main supporters of Judge Parker, they eagerly embraced the opportunity to express their disapproval of the whole bunch at the polls. This was one of the reasons. But, as the Foxglove Spirit observes, of course there are others.

GOVERNOR-ELIOT DOUGLAS, of Massachusetts, is a new man in public affairs, as would be known from the fact that he proposes to appoint a commission to report on the subject of revising the tariff. Massachusetts has no tariff law of its own, as Mr. Douglas must know. What good a commission, appointed by the Democratic Governor of a State which gave a Republican majority of 86,000 could do in recommending tariff legislation is not easily discoverable. Mr. Douglas was elected because of dissatisfaction with the Republican candidate for the same office. He mistakes greatly if he thinks that the tariff question had anything to do with it.

PRINCE FUSHIMI, the Japanese special envoy who recently was cordially received at the White House, makes entirely too much of the incident when he represents it as evidence that President Roosevelt officially sympathizes with Japan. The President did nothing more than express his hope for the continuance of cordial relations between this country and that of the Mikado, and he would have responded in a like manner to any Russian agent on a mission similar to that of the prince. He shows partiality to neither nation, and if he did he would weaken his influence in case he is called upon to act in any effort to end the war by compromise. Prince Fushimi is too garrulous, thinks the Pittsburg Times.

SENATOR COCKRELL, who enjoys the high esteem of all men of all parties, has been tendered a place on the Ishkman Canal Commission by President Roosevelt. Should the Senator, through consideration for his health, feel that he could not accept the position, it is understood that the President will then offer him a place on the Inter-State Commerce Commission. Senator Cockrell enjoyed an unbroken membership of 30 years in the United States Senate from the State of Missouri, but the late election in that State having gone Republican he will not be returned after next March. He stands in the same relation and estimation with the Democratic party as did the late Senator Hoar, of Massachusetts, in the Republican mind, and it is a graceful act on the part of President Roosevelt to thus remember a distinguished and honorable statesman and friend.

WHAT a grim tragedy it is now being enacted along the banks of the Shakkhe river, to which stream both Russian and Japanese soldiers are described as going for their water, and where they joke with each other and trade jackknives and cigarettes. Yet both realize that the time is sooner or later to come, and doubtless both are eager for it, when they will meet again in a terrible slaughter and yield up their lives in thousands to the glory of their respective Emperors. Only pity can be felt for these soldiers. War is more than General Sherman described it. It is barbarism; it is murder, and the awful responsibility in the present conflict, as in others, rests with those in the councils of the crowned heads who might easily have averted it.—Blizzard.

What the Figures Show.

The official figures now available for the Twenty-eighth congressional district show that Sibley, Republican, received 19,861 votes; Hollman, Democratic, 10,651; Gill, Prohibitionist, 4,629, and Foster, Socialist, 803. Sibley's plurality over Hollman is 9,210. Sibley's plurality over the Democratic nominee is nearly twice what it was in 1902, when he beat Watson by only 4,727. Sibley's plurality over Gill is 15,232. It is a somewhat interesting fact that Sibley's majority in Venango county alone is 602 greater than Gill received in the whole five counties of the district. It is further significant in this connection that Gill's vote in Venango county is 787 less than that polled in 1903 for McCalmont, Prohibition candidate for district attorney. Mr. Sibley's majority in the district over the other three candidates is 3,778, while in 1902 his majority over all was only 1,864, or less than half as great as his present one.

Large as his total majority is it would have been increased by over 2,300 in the district if it had not been for the confusing change in the form of the ballot which caused lots of votes to be counted for the Republican Presidential electors only, while those who cast them supposed they were voting for every candidate on the Republican ticket. When this fact is borne in mind, and when it is also considered that the Prohibition leaders in Venango county in their frantic desire to defeat Mr. Sibley conducted an expensive campaign of many months, having hired speakers, singers, banners, water wagons, children's parades, and special trains, while Mr. Sibley's campaign was notably brief and except the barbecue, at the outset, devoid of all unusual or spectacular features, the great victory achieved by Mr. Sibley can only be construed as unmistakable appreciation on the part of his constituents for the able and untiring efforts put forth by him in their behalf.—Franklin Evening News.

One good man in this city to take the agency of the Sun Gas Burner, the most brilliant light ever produced from natural gas. The volume of gas is regulated perfectly by an improved and easily adjusted device. By regulating the amount of air and the volume of gas used, a perfect combustion is formed, producing a very brilliant effect in the mantle—which is maintained under all conditions of gas pressure and using but 8 percent of gas to 92 percent of air. It is noiseless, handsome in appearance and is having a wonderful sale. Agents are making from \$25 to \$50 a week, as it commands a good price and the profit is large. THE GOOD OLD WAY.

A severe cold or attack of influenza is like a fire, the sooner you combat it the better your chances are to overpower it. But few mothers in this age are willing to do the necessary work required to give a good old-fashioned reliable treatment such as would be administered by their grandmothers, backed by Boschee's German Syrup, which was always liberally used in connection with the home treatment of colds and is still in greater household favor than any known remedy. But even without the applications of the old-fashioned aids German Syrup will cure a severe cold in a quick time. It will cure colds in children or grown people. It relieves the congested organs, allays the irritation, and effectively stops the cough. Any child will take it. It is invaluable in a household of children.
