THE latest estimate places the amount that each creditor of Mrs. Chadwick will receive from her estate at 13 mills on the dollar. That will be something.

ACCORDING to the Commissioner of Internal Revenue there was a decrease last year of 11,061,765 gallons in the production of whisky and miscellaneous alcoholie drinks. Somebody must have sworn off.

THE Democrats of Kentucky have a bard time in trying to kill a man to satisfy th ir feeling of vengeance. The Court of Appeals for the third time has reversed the lower court and ordered a new trial for Caleb Powers. His last trial was a shocking travests of justice.

DAME rumor says Judge Harry White, of Indiana, who has been retired from the bench, will be a candidate for Congress in 1906. Persons who know Judge White's disinclination to appear before the people as a candidate, will be slow to believe this story,-Brookville Demo-

for reimportation. As the wheat can be identified, it will not have to pay duty. It was sent to Antwerp from the Pacific coast. This is said to be the first transaction of the kind on record, as it is not the result of any corner or other such influenc . If there were no duty on wheat a great deal would be imported from Canada, where the price is much lower than in the United States. This is one illustration of the benefit of the tariff to farm-

THE stock raisers in the West are frying to combine to relieve themselves from the oppression of the Beef Trust, but they will find it difficult to succeed while the railroads layor the trust. This orga-itzation has 78,000 cars which it compel- the ratiroads to use, and then forces an extortionate sum for the use of its socalled terminal facilities. The stock ra sers are fleeced and the consumers of meat are made to pay outrageously high prices, but the trust members make millions. Congress could stop this work by giving more power to the Interstate Commerce Commission, though the Attorney General may do something before long to bring some relief .- Phila. Press.

THE Hon. George E. Foster, M. P., from Canada, who says reciprocity is a dead question there, also says that they have an inexaustible lumber supply, and in ten years could not only supply their own and Great Brittain's market with wheat, but have a large surplus for further export. Our farmers can well imagine what they would get for their own wheat if there was no duty of 25 cents a bushel to keep out the millions of bushels of Canadian wheat which can be raised and transported at a much less cost than our own. A reciprocity treaty with Canada repealing the duties on natural products would be a blow to the farmers of the United States too serious to contem-

A canvass of the popular vote at the last presidential election complete, except as to one county in Tennessee and four counties in Michigan, for which estimates are given, shows that President Roosevelt defeated Judge Parker by 2,546,169. He polled the largest vote ever given for a president of the United States, 7,640,569, This is more than 400,000 in excess of the vote cast for McKinley in 1900. The total vote cast is given as 13,-534,119, and that for each of the presidential candidates is given as follows: Roosevelt, R., 7,640,560; Parker, D., 5,094,391; Debt, S., 392,857; Swallow, P., 248,411; Watson, Pop., 124,381, and Corregan, S .-L., 33,519. The electoral vote will be 336 for Roosevelt and 140 for Parker.

Managers of the big circuses of the country have lead ned valuable lessons in the science of advertising, and have decided that the newspaper is the most direct and profitable vehicle for communieating with the people, and they have, accordingly, decided to do away with gaudy circus posters in their future campaigns. The wisdom of the decision cannot be questioned, but we must confess that it seems almost a wanton attempt to rob the boy of the nation of one of the chiefest sources of pure delight. The 11luminated fences, barns and bil boards of the country have heretofore been a source of delight to the youngsters, and it seems hardly right to deprive them of the pleasure afforded by their contemplation.-Buzzard.

MANY people are not aware that the Presidential election is not yet over. In fact no President has as yet been elected, and that the election of a President and Vice President has been placed in the hands of less than 500 men scattered over the Union. These men were elected Presidential electors by the people last November and they will meet in their respective state capitals on the second Monday in January and designate their choice of President and Vice President. They will then forward a certified return of the votes to the President of the United States Senate, who will open all the retuens in the presence of the Senate and House of Representatives on the second Wedn sday in February, announce the vote and declare the election of the successful candidates.

Supreme Court Decides Against Western Union In Action For Cutting Down Poles.

Washington, Dec. 13 .- The United States supreme court decided the case of the Western Union Telegraph company vs. the Pennsylvania, involving the right of the railroad company to THE woman's rights advocates may remove the telegraph company's poles from its right of way, in favor of the tion of how much smarter women are railroad company. The opinion was handed down by Justice McKenna.

The court hald that the congression al act of 1866 which controlled the case, does not grant eminent domain to the telegraph companies over the private property of railroad compan-

in the tirst case Justice Harlan delivered a dissenting opinion, holding that the act of 1866 gives to telegraph companies the mequivocal right to construct and operate lines not only upon the public domain but along any post road of the United States, and he contended that if the present decision was to stand the United States govern ment could not itself enter upon the rights of way of railroad companies,

The contention of the telegraph company in the second case was that the telegraph company has the right to maintain its lines of telegraph over and along the callroads of the railroad company upon making compensation to the railroad company for the use so appropriated, so long as the maintenance of its telegraph lines does not materially interfere with the ordinary travel of such roads, and that the right can be asserted by proceedings THE late Governor Robert E.
