Mrs. John Bush, who was taken to the Oil City hospital last week to be operated upon for the removal of a tumor, returned without having the operation performed, the physicians deeming such a course too serious under existing conditions.

Harry English, a noted woodsman of McKean, Warren, and other counties 25 years ago, died at the poorhouse at Smithport Jan. 29. Among other incidents of his rough life was the killing of a constable, escaping hanging by a plea of self-defense.—Mail.

Sim Hood got the index finger of his right hand too close to one of the saws in the veneer works last Friday and the consequence was the splitting of that member from the end up to about the second joint, and causing Sim's retirement from work for some time.

W. J. Henderson, the well-known musical critic, writes in the Review of Reviews for February on "Theodore Thomas and the Development of American Music," sketching the services rendered by the great conductor, who died at Chicago on January 4, in cultivating musical life in this country.

Green township Republicans have nominated the following ticket: Road commissioner, Ed. Reese; school directors, John Blum, Will Conger, Ed. Reese; constable, Wm. Walters; auditor, W. J. Gayley; clerk, Chas. Klinefelter; treasurer, Jas. Thomson; judge of elections, Jas. Kerr; inspector, A. C. Culmer.

The poultry show of the Forest County Association is going on at the county building. The display of fancy poultry is largely the stock of home exhibitors, but is nevertheless a good one, showing that there has been wonderful improvement in the past few years in the breeding of high-class poultry in this vicinity. Anyone will be well repaid by taking a look over the display.

Testimony on the part of Michael Kissinger, recently convicted in Clarion county of voluntary manslaughter, on his application for a new trial, was taken last week. After the hearing Judge Patton, before whom Kissinger was tried, gave his decision, refusing to grant a new trial, and sentencing the prisoner to pay a fine of \$300 and undergo imprisonment in the penitentiary for six years. Kissinger's crime was the causing of his wife's death near Catfish some time last summer.

The Oil City Times, a new afternoon daily, made its first bow to the public last week. It is an 8-page 6-column paper, published by ex-Postmaster McKim and F. C. Laing, with S. Miles Bouton as managing editor and Will W. Webster as city editor. The new candidate for public favor is neatly printed and has a bright, new appearance, while the advertising patronage seems to be all that ought to be expected for a starter. If the business will permit of the launching of a third paper in Oil City, where the journalistic field is already well and ably covered, the Times, under its present management, ought to succeed. Our best wishes, friend McKim, go with you and your

Saturday night was a trying one on the water pipes as well as on the nerves and patience of the average householder, many of whom found their plumbing fixings considerably out of whack when they tried their spigots Sunday morning, and the "ghoulish glee" of the plumber was painful to behold. Thermometers registered all the way down to 20 degrees below zero, and it was by considerable the snappiest morning of the season.

Hon. Andrew Kaul, associate judge of Elk county, and one of the foremost business men of northwestern Pennsylvania, died at the Hotel Walton, in Philadelphia, the 21st ult. He had been a sufferer from a complication of physical ailments for several years. Mr. Kaul was born at St. Marys 60 years ago, and from an humble beginning advanced in prosperous business enterprise until he came to be regarded as one of the foremost men of this section of the State.

The County Auditor's report of the past year's fiscal affairs appears in the Republicans of to-day, and will doubtless be read with interest by the taxpayers. The statement of the financial standing of the county accounts shows a balance on the right side of the ledger of nearly four thousand dollars, while the poor fund account shows a marked improvement over the record of the year previous, the bonded indebtedness having been reduced nearly three thousand dollars. All of which is a matter for congratulation.

John Casey, Sr., employed with the section crew of the Hickory Valley railroad, met with a very severe accident while unloading ties from a car on Monday morning. One of the ties fell upon his leg causing a bad fracture of the knee joint. Owing to the difficulty in giving him the care at his home which such an injury requires he was taken to the Oil City hospital for treatment and placed under the care of Dr. J. B. Sigzins. Mr. Casey is aged 73 years, which fact makes his complete recovery a matter of much doubt. At least it will be slow and tedious.

A housewife hands in the following: During the winter season, when hanging out clothes is so difficult, trying putting a handful of salt in the last rinsing water and the clothes will not stiffen or freeze until after they are hung on the line; indeed, it is possible even to change the position in a line full of clothes, if necessary, before they freeze, and best of all, if hung out in the sun before the freezing begins. This saves the wear and tear, for nothing is so hard upon linen as this freezing and flapping in the wind. They are also easier to remove from the line.—Sheffield Observer.

John Lynch, of the Commercial hotel, received a letter Sunday from Alfred Sperry, of Cleveland, stating that he was getting along nicely. Eight weeks ago Mr. Sperry, who has extensive lumber interests here, was one of a large number of passengers in a trolley car near Cleveland that was struck by a fast train. Mr. Sperry had his scalp torn off and was otherwise badly injured. He has been in the hospital since that time until two weeks ago, when he was taken home. He is now able to sit up in his own home, but does not expect to be able to re-visit Oil City for some months.—[Derrick].

"How to Prevent Appendicitis" is the subject of an article by Dr. Joseph Hind in the January number of the Nineteenth Century. He gives what he considers three simple rules, by carefully observing which none need fear the modern scourge. These rules are: First, don't neglect chills, when heated by exercise; secondly, masticate well and eat slowly; don't swallow any food that is not perfectly softened by the teeth; thirdly, avoid aperient, salts, Hungarian waters, or liver pills. Let nature do her own work undisturbed by purgatives of any sort, for their sequel is often appendicitis.

The member of the legislature who introduced a bill at the present session providing for the establishment of the whipping post for wife beaters in this state, received warm consideration at the hands of the judiciary general committee, says the Kane Republican, and then it goes on to offer this sensible suggestion: The proper disposition to make of the class of offenders who violate marital obligations would be to place them in labor in corrective institutions, at going rates of wages for the same class of work, the sums earned beyond their expense for sustenance to be placed for the benefit of their families.

The Willton Gas Light is something new to this country. The agent of the company, W. D. Smith, of Oil City, was up one day last week and installed a few in some of the business places with the understanding that if they were not satisfactory they would be back in a few days and take them out again, without expense to the proprietor of the shop. He fitted one up in the REPUBLICAN office, and we serve notice on the gentleman right here and now, if he attempts to take it out he'll get into trouble. The company guarantees their light to use less gas and produce a half more light than anything in the market, and if the one in this office is a fair sample they're perfectly safe in making the guarantee and more too. There is no discount on the Willton gas light, and when the agent comes around give him a chance to demonstrate the excellence of his goods—if you want a first class light in your house or place of business.

Conrad Brady, one of German Hill's oldest citizens, died at his home, near Starr post office, Jan. 27, 1905, aged 84 years. The deceased was born and reared to young manhood in the village of Micheldorf, Province of Hesse Cassel, Germany, December, 1820, and came to this country in 1840, more than 64 years ago, making his home for many years with Conrad Zuendel, who lived on what is now known as the Kiser farm, on Grogman Hill. He was married upward of 40 years ago to Miss Mattie Reimsdier, who, with three children, Henry, George, and Mrs. H. P. Ralston, all of Kingsley township, survive. Mr. Brady was noted for his strict honesty, sterling integrity, and thorough devotion to the Christian faith, and as a neighbor and citizen he bore the highest esteem of all who knew him. Funeral services were held on Sabbath last, Rev. Mr. Haviland officiating, the remains being interred in the Zuendel church cemetery, near where he spent the greater portion of his life.

Overcoats, clothing, hats and caps all get the same out at the Hopkins clearance sale.

The subject of Rev. W. O. Calhoun's sermon at the M. E. church next Sabbath evening will be "What is Pure Religion?"

Quarterly meeting services will be held in the M. E. church at Nebraska next Sabbath morning at 11 o'clock. These services will mark the beginning of a series of meetings to continue through the evenings of the entire week.

Bert Kelly, whose home is out near Stewart Run, met with a severe accident while chopping wood last Saturday afternoon. By a mistake of his axe he almost severed his left foot, the blade of the axe cutting diagonally across it from the third toe to the ball or instep back of the great toe. The cut is a bad one and will be some time in healing. He was brought to town and Dr. Dunn performed the necessary surgery. He is staying at Hotel Weaver for the present.

Two Fires.

The dwelling house owned and occupied by Mrs. Whitt, next door to Bender's Hotel, at West Hickory, caught fire at one o'clock last Saturday from the kitchen stove, and was badly damaged. When discovered, the smoke was coming out all through the building, and on account of the doors of the communicating rooms being open, and the density of the smoke all through the building, it took some time to locate the fire. A hose was attached to the hotel pump and a bucket brigade formed which soon put the fire under control, but the contents of the house were badly damaged both by fire and water. The fire had burned the walls and ceilings of two rooms, but the entire house was thoroughly saturated with water. We understand there was \$500 insurance on building and contents in the Arner agency of this place.

The farm dwelling belonging to Wash. Nellis and located about a half mile beyond the Stewart Run post office, on the Cashap road, was totally destroyed by fire, together with all its contents, the stove alone being saved, on Monday afternoon. The fire apparently caught from sparks falling upon the roof, and the entire upper portion was enveloped in flames when the family discovered it, making it impossible to save any of the household goods. Mr. Nellis says that \$500 will not replace his loss, and he had no insurance.

Looks Like a Sure Thing.

The corps of surveyors, who have been in Warren for the past two weeks, presumably in the employ of the Erie Railroad Company, are at present engaged in surveying on the south side of the Allegheny river, in the vicinity of Grander-ville, three miles west of Warren. Already the operations of the crew indicate that the railroad has two or three routes under consideration, and the prediction of the Mirror that the Erie proposes to build a branch from Falconer to Oil City is partially borne out by the developments. It is possible, however, that the company will follow the river from Oil City and strike the main line at Salamanca. A survey has been extended on the north side of the river from Gladerin to where the surveyors first arrived in Warren, that the most feasible route through the Fifth and Sixth wards would be to cross the Allegheny on this side of the upper railroad bridge and follow Elm and Crescent streets and then through the Fifth ward in the rear of Bealy's and other property. A survey has been made over portions of some other streets farther east and it is possible that it may be decided to cross the Allegheny at a point above, and thus tap the East Side manufacturing for the purpose of securing some of the freight business.—[Warren Mirror].

Caucus Results.

The Republicans of the Borough met at the Court House Monday evening, pursuant to call of Committee Geo. Holeman, and after electing C. F. Feit president, and S. M. Henry and J. T. Dale secretaries, proceeded to the nomination of a ticket with the following result: Justices of the peace, C. A. Randall, S. J. Seley; council, Geo. B. Robinson, Geo. Holeman, Ed. A citizens caucus held at the Court House last Friday evening placed the following ticket in the field: Council, J. W. Landers, G. T. Anderson, H. B. Feit; school directors, L. Fulton, W. J. The announcement of the marriage of Miss Lou Fisher, of Oil City, to Prof. Paul Koenig, will interest many of Tionesta's people who have the pleasure of the bride's acquaintance. He is an "all round" man in a printing office, and his employers will find that he will "fit in" wherever they put him. There has been quite a shifting of Tionesta printers, in fact, within the past week or so. The anxious father feels very grateful for the discovery of his son before any harm had befallen him.

Sick Headache. This distressing ailment results from a disordered condition of the stomach. All that is needed to effect a cure is a dose or two of Chamberlain's Stomach and Liver Tablets. Ask Pay for Boats Lost.

A claim for a loss of \$25,000 amount of lock and dam No. 3, on the Allegheny River above Pittsburgh, has been brought in Washington, D. C., by W. A. Crossman, of Forest county, Syl Truman, of Brookville, and A. M. Heator, of Clarion county, representing themselves and others. They had a conference last week with Representatives Sibley and Smith and will take the necessary steps to secure payment. It is claimed, and rightly too, that lumber and boats of this value were taken down the river a year ago last fall by the parties interested but they could not pass this lock and dam. While the boats were awaiting higher water cold weather set in and they were frozen up in the ice. When the ice broke up the boats were carried away and became a total loss. It is but fair that they should have pay, for the government was responsible for the impassable condition of the dam.

People the world over were horrified on learning of the burning of the Chicago theatre in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. A great many who had every reason to fear pneumonia have ward off it by the prompt use of this remedy.
