Junction of Russian Squadrons, Assuming that Admiral Rojestven sky meditates a speedy junction with Admiral Nebogatoff's division, it is believed at Tokio that the meeting of the ships may be expected by Tuesday, May 9, the speed of Nebogatoff's division being only about seven knots an hour. These ships are believed to be in need of coal and stores, and their deficiencies in this respect will probably be supplied by Vice Admiral Re jestvensky at some friendly port after the two admirals effect a junction.

The future movements of the Rus slan Pacific squadron is a matter of speculation in Tokio, although the de lay of Rojestvensky on the Indo-China coast has raised doubt as to his purpose to move northward and risk ar engagement at an early date.
