#### Pennsylvania Will Put on 18-Hour Train, New York-Chicago.

Philadelphia, June 5.-The Pennsylvania proposes to make good on its statement that it can operate an 18hour passenger train between New fork and Chicago. A statement from the general offices in Philadelphia announced that officials of the passenger department were preparing a schedule for such a train.

The Pennsylvania put on a 20-hour train between the two cities at the same time the New York Central and Lake Shore put on the Twentleth Century. The Pennsylvania, on account of some single track and heavy traffic, Leader of Philadelphia Republican had to take its train off. The time of the Lake Shore's train has since been cut to 19 hours. General Passenger Agent Boyd recently said the road could put on an 18-hour train if it wanted to. His statement was ridiculed at the time.

In the last few years the Pennsylvania has spent enormous sums building new freight lines, and straightening and shortening the passenger lines, to that their tracks might be provided for fast service. The road is now in such condition as to warrant the remarkably fast train soon to be put on. The management says that the increasing demand for rapid travel between the two cities necessitates the new service.

ing deaf to the appeals of the few who insist that the admiral's action in surrendering his warships should not be condemned until the circumstances become fully known. The majority say they could forgive

anything but surrender and point to the precedent set in the case of the Russian warship Raphael, which in 1829, during the Russo-Turkish war, struck its colors to three Turkish ships which surrounded it .-

Nicholas I meted out a terrible punishment to the officers and crew of the Raphael, ordering that all of them should be shot after their exchange. and directing that if the ship should ever be recaptured its infamous history should be blotted out by the total destruction of the vessel.

The Raphael, strange to say, was recaptured 34 years later at Sinope during the Crimean war, a son of the captain who surrendered her taking part in the battle, and to this son fell the task of executing the dead emperor's orders to destroy her. Many naval authorities declare that the emperor should reserve the same fate for Admiral Nebogatoff.
