Covert Jackets.

per-Kara and Old Brittany, 17c lb. All our \$12 50 and \$13 50 Jackets

SURVIVAL OF THE FITTEST

"Eugenics" is a word composed from Greek words by Francis Gaton, an English scientist, and defined by him as the science that deals with everything relating to the improvement of a race. Its aim is to represent each class or sect by its best specimens, and then to allow these to work out their common civilization in

their own way. If "eugenics" was practiced the average quality of a nation would be raised to that of its better part now, and men of an order of ability now rare would become more frequent, because the level out of which they rose

ment.

would itself have been raised. Among the ways in which the best specimens of the race may be preserved, marriage is one of the most important. If marriages unsuitable from the eugenic point of view were viewed with disfavor, few would be

made. Mr. Galton's new word is really simply another name for what Darwin called "natural selection" and Herbert Spencer denominated "the survival of the fittest." He, however, thinks that the improvement of mankind is a matter that the race should take up intelligently and scientifically and not leave to nature's operation alone.

Hearty Farewell.

she sa ay been only man ever blow The old friends had enjoyed their lights out one tam; an she ban mad, three days together, in spite of the fact that tact was not a conspicuous quality of either of them.

"You have quite a pretty place here, John," said the guest, as he took a final look about him on the morning of his departure. "Quite a pretty place, though it looks a bit bare as yet."

"O, that's because the trees are so young," said the host, comfortably. "I hope they'll have grown to a good size see how much improved the place will be," and they shook hands with mutual affection and good-will.-Youth's Companion.

Making Cheap Bricks.

Bricks are now being made of clean sand and ground quicklime that are said to be as substantial as granite, They cost \$2.50 per 1,000. The mixed ingredients are forced into a strong cylinder mold by means of a screw. After the air has been sucked from the cylinder hot water is admitted, the rock being formed by the resulting pressure and heat.-Country Life in America.

Goldfish and Mosquitoes.

Prof. W. L. Underwood of the Mass-Don't trouble vo'se'f 'bout whar de achusetts Institute of Technology reports that mosquito larvae are a favorite food for goldfish, and that the introduction of goldfish into many small streams of New England where mosquitoes breed would be preferable to the use of kerosene in destroying the pest.

Freak Lightning.

Lightning at Cape Neddick village, York, Me., played a peculiar freak recently. A bolt struck the house of Silas Norman, passed through the body of a mason named Fernald, who was working in the house, killed a dog at the latter's side, and set fire to the Fernald was critically burned.

Languages in England.

to the commencement of the reign of Edward I., all letters, even of the most private nature, were writ ten in Latin. About the time of Ed ward's accession, French, which had been the spoken language of the court from the time of the Conquest, began to be used in written correspondence.

Peaches and Snow

On the morning of May 15, 1884, the people of Bennington, Vt., awoke to find the ground covered with snow to a depth of fully six inches. The apple and peach trees were then in bloom and the scene presented was, in the word of the chronicler, "gorgeous but far from encouraging."

Destruction of Pompell.

Pompeli was partly demolished by an earthquake in 63 A. D. It was after ward rebuilt, but was overwhelmed by an eruption of Vesuvius on the night of Aug. 24, 79. The ashes buried the whole city to a depth of 90 to 125 feet.

Life in Korea.

Tea is almost unknown in Korea The diet consists principally of rice. pork, and dog meat. Beds are not used; the natives sleep on the floor, which is covered with oiled paper.

Valuable Silver Gray Fox. Joseph Ganion, of Colebrook, N. H. recently trapped a silver gray fox in the Colebrook district. He values the skin of the animal at \$200, and re-

fused an offer of \$125 for it. A Difficult Feat. A German inn keeper on the Swiss border has undertaken, as a result of

a wager, to roll a barrel full of wine across Switzerland and Italy to Rome. The Smallest Ponies.

The two smallest ponies in the

world were recently exhibited in Hamburg. They are so small a man can carry both of them at once.

An English county judge recently remarked: "Not a single case comes into court but what there is perjury on one side or the other.'

The average man will die for want of air in five minutes; for want of water in a week; for want of sleep in ten days.

A man without much is usually gind to cast his lot with a woman who lots more.

-For twenty years I suffered with Liver Cure cures and strengthens all the bleeding and itching piles; at times was confined to the house for more than a month. Two years ago I began using San-Cura Ointment and one 50e bottle made a firm and permanent cure, and have not been troubled since. I am glad to give this testimony. Rev. W. F. AS KNOX VIEWS IT

Eugenics," Science of Race Improve-Republicans Competent to Take Care of Their Own Affairs. Under the caption, "Good Advice From Senator Knox," the editor of the Eric Daily Times says:

> "United States Senator Knox, in a brief interview on the political situation in Pennsylvania, stated to a Pittsburg Dispatch representative Wednesday that he did not see any reason for resorting to any reform movement to regulate any evils that may exist in the Republican party. The senator stated in a few, but well chosen words, his idea of the situation, and it was for the Republicans to take care of their own affairs and to let the Democrats do the same thing.

"There are, of course, a good many people who call themselves reformers. but who are mostly sorcheads, disappointed aspirants for office or hopeful Democrats who are anxious for a break in the Republican ranks for no other reason than that they may profit thereby. Senator Knox is a safe thorough going, highly respected official, and it did not take him long to size up the cituation and put it in the proper light before the people of this commonwealth. The Republican party will attend to whatever reforms are necessary, and there will be no disposition shown to prevent all sincere reformers and good Democrats going along in the band wagon, but the leader of the band will be a Republican, and the Republicans will attend to the necessary reforms themselves. That much may as well be understood first as last."

-The soreness begins to go and the pain to stop from the moment you take the first dose of Thompson's Barosma or Kidney Cure. No opiate of any form is used in its manufacture. Thompson's Barosma is absolutely harmless and goaranteed to cure all diseases of the kidneys, liver and bladder, also palpitation of the heart, nervous debility and female weakness. Druggists, 50c and \$1.

Composite Observation Cars.

"Something entirely new has been placed on the Overland Limited trains. It is a 'composite observation' car. It affords women passengers an opportunity of enjoying the scenery with the greatest comfort and free from the fumes of tobacco smoke. Throughout the car there has been placed a series of steel arches, which bind sills and sides together and strengthen the roof in a manner which renders the car almost indestructible.' -Chicago Chronicle. The Overland Limited leaves Union Passenger Station, Chicago, 6.05 p. m. daily. Ar rives San Francisco the third day in time for dinner. Route-Chicago, Milwaukee & St. Paul Railway, Union Pacific and Southern Pacific line.
