No MATTER how many promises and concessions may be made by Czar Nicholas and his advisers, the people continue to demand more.

A DEFECT in the educational processes of the country lies in the fact that almost everything taught in the public schools tends to draw the youth of the land away from farming. A smatter of many things which young people never use in practical life takes up time which might be profitably spent in the study of the elements of scientific agriculture. When the officers of the bank are reckless, incompetent or dishonest, and sometimes they are all of these, the bank is in great danger of failure in spite of any supervision which can be given it from the outside. In some such cases an appeal to the directors may result in a change of officers and policy in time to save a bank and I have known one good strong man to conduct a campaign almost alone among the stockholders, convince them he was right, and save a bank which had been brought very near failure. It is generally the case, however, when one bad man or a bad crowd get possession of a bank and have large ownership of its stock it sooner or later comes to grief in spite of everything the examiner and comptroller's office can do unless they get honest assistance from some officer or director inside the bank."

of his death.

Hon. Thaddeus Stevens proved himself the champion of tree schools for free men, and equal rights for all, in defending the common school system in the State Legislature in 1835. Had it not been for him the common school law would have been repealed. He did more than this. In his will be bequeathed his entire estate toward the founding of a school for poor orphan boys. The fund now amounts to \$60,000, and the school is being erected and equipped in Lancaster, Pa., where any poor orphan boy may receive a generous education through the acts of generous men.

Contributions are asked from schools and from private individuals to increase the fund. Mr. Stevens said, "I will be satisfied if my epitaph shall be written thus: 'Here lies one who never rose to any eminence, and who only courted the low ambition to have it said that he had striven to ameliorate the condition of the poor, the lowly, the down trodden of every race and language and cotor.' Cole's Hot Blast

Cole's Hot Blast is a great value. We sell lignite coal, coke, hard coal, wood or any fuel without any change in the stove. You only need one stove for the entire year, Spring, Fall or dead of Winter. Strikes or coal combines cease to be a terror if you have a Cole's Hot Blast. Fire Never Out

It is the only stove that keeps the house warm all night and gives the family a warm breakfast room in the morning without kindling a new fire. Guaranteed to hold fire from Saturday night to Monday morning.

Saves the Dollars If you feel poor it saves half your fuel bill, while giving the above beautiful results. It will even make a ton of cheap slack soft coal, do more work and hold fire better than your neighbor gets out of a ton of hard coal in his \$50.00 Scientific and Air-tight

construction throughout. A patent-ed steel collar connects the elbow draft to the stove body and cannot open by action of the fiercest heat. The patented compound hinge on the lower draft cannot warp and the draft door closes air-tight by its own weight. The guaranteed smoke-proof feed door

prevents smoke, dust or gas escaping when fuel is put in the stove. Perfect results, therefore, from any fuel. The heavy fire box protects the points where other stoves burn out first, and insures great durability.

Ask to see the patented dustless ash cover for removing ashes. Our method is the only clean way.

Cole's Hot Blast makes \$5.00 worth of fuel give more heat than \$10.00 worth in any other stove. Sold on a positive guarantee. Investigate today.
