One of the happy thoughts along about this Christmaside would be for all knowing themselves in arrears on subscription account to make the printer glad by squaring up.  
In the assignment of committees by Speaker Cannon, Mr. Sibley, of this district, is made chairman of the manufacturers committee, and a member of the postoffice and post roads committees.  
Consult the advertisements and local columns of the REPUBLICAN before making your holiday purchases. The wide-awake, bustling merchants, who keep the newest, up-to-date goods, advertise them.  
Mr. L. Mohney, of Byromtown, on last Tuesday evening while at his work at Cloughs mill, had the misfortune to have his leg broken by being hit with a log in some manner.—Marienville Express.  
Major Robert J. Phipps, one of Franklin's well beloved and prominent citizens, died on Sunday last, aged 67 years. He was a veteran of the civil war, and well known to many in this section.  
The winter is snug enough thus far, but lacking somewhat in the quantity of snow. Perhaps we had enough of that article last winter, and are to enjoy a respite this season. It's to be hoped anyway.  
Contractor John Wilson completed a well for the Forest Chemical Co. on their lease near the pump station Tuesday, and which proved to be a good gas well. The company now has four wells on this property.—Sheffield Observer.  
On Thursday evening at 7:30 in the Methodist Episcopal church, Rev. W. O. Calhoun will give a talk on Africa—the history, resources and missionary triumphs of this wonderful land. A large map which has been recently published will be used to illustrate the mission work. All are invited.  
Old Santa has done the right thing by us once more and we are prepared to furnish you anything needful in the line of Christmas gifts. Hopkins.

—Workmen on the river bridge have made good progress toward the erection of the new iron structure, considering the cold and disagreeable weather, one of the spans being pretty well along and is beginning to look like a bridge. They expect to complete both spans this winter.  
—One of the prettiest and most appropriate little Christmas souvenirs is to be had at the REPUBLICAN office. It is in the form of a blank receipt which we are always happy to fill out for our subscribers. They are the prettiest when receipted for a year in advance. Try one.  
—The Franklin News offers this seasonable and sensible suggestion. Head it: "Blanket the horse! How would you like to be tied to a post and left without covering to shiver for hours? The animal that is good enough for you to drive is good enough to be rightly cared for by you."  
—The bazaar held by the ladies of the Presbyterian church last Friday evening was a complete success, socially and financially. The patronage was extra good, the church furnishing fund being enriched by about \$115 from the receipts of the evening. About everything was disposed of.  
—The work of remodeling the old Fisher house, now owned by Mrs. Anna Hassey, of Oil City, is progressing rapidly. When finished the inhabitants will not recognize the property. J. T. Carson has moved the small kitchen part of the old house over onto the upper corner of his lot and will fit it up for an office.  
—The flag stone for a new walk in front of the Bonner property, lately purchased by T. D. Collins, has been placed on the ground, and the walk will be laid in the spring. Daniel Walters has also procured a quantity of the flag stone and will replace the wooden walk over the Council run culvert with stone when the frost is again out of the ground.  
—On January 1st, next, a new law will go into effect, providing for the appointment, in each borough and township of the state, of a man to keep a record and make a report of each birth and death occurring in his district. For this he receives a fee of 25 cents in each case, to be paid by the counties. Heretofore County Assessors were required to do this work.  
—Sherman Cook, alias Dr. Cook, convicted in the Clarion court of horse stealing, B. F. Sloughly prosecutor, was sentenced last week to pay a fine of \$100, costs of prosecution and to serve six months in the Allegheny county work house. Cook is the man whom Constable R. O. Whitton, of Hickory township, captured last summer and lodged with Sheriff Nobili, where the Clarion county officers procured him.  
—A Bradford paper repeats the old, old story in a different form, viz., how many kernels of corn will be required to cover a checker board of 64 squares by placing one kernel on the first square and doubling each succeeding square. It is figured out that it would require just 11,511,545,271,193 bushels. If the yearly corn crop of the United States is one billion bushels it would take 11,511 years to raise enough yellow feed to fill the bill.  
—Did you ever notice that tobacco is always clean. If a man drops a piece of meat, no matter how clean the floor may be, he will either give it a kick or pick it up and lay it to one side. He will never eat it. But let him drop his plug of tobacco on the ground and no difference how dirty the spot was where it fell, he will pick it up and give it a careless swipe on his coat sleeve or on the bosom of his pants and then take a chew with greater relish than ever.  
—Quite a stir was made last week in Tidouste oil circles by a new well brought in on Gordon Run, which is said to be good for about forty barrels per day. The well is on the lease owned by Kies & Crittenden, in the new fourth sand development, and seems to indicate an extension of the belt up the hollow. Kies & Crittenden are the only ones to tap the pay streak so far and their production is now close to 100 barrels a day. The oil is said to be of Tiona price.  
—The gospel of happiness is one that every woman should lay to heart. What it means to a man to come home at night to a cheerful wife no one but he who has had to fight the hard battles of life knows. If he is prosperous it is an added joy; but it is in misfortune that it shines like a star in the darkness. A complaining wife can kill the least bit of hope and courage in a sorely troubled heart, while a cheerful one gives new courage to begin the fight over again.—Exchange.

—Twenty years hence the boys of today will be men. They will be doctors and drunkards, lawyers and liars, senators and sneak thieves, editors and idiots, ministers and murderers, Republicans and Democrats, and so on down the line. It is impossible to tell to a certainty in just what class your boy will be. Put him under such influences as will steer him in the right direction. Follow the boys of twelve and in twenty years some of them will be in Congress, while others will be in jail. Parents, do you know where your boy is tonight and for what class he is training?—North East Breeze.  
—The first troop of mounted state police to be assembled will be the one to be commanded by Captain Joseph F. Robinson, and will be assembled either the present or next week. The troop will be located at Punxsutawney, which is evidently destined to be the center of the bituminous coal region of this state. A temporary barracks will be erected in one of the exposition buildings at Punxy, and in the meanwhile the men will be quartered in the town. Superintendent Groome and Captain Robinson have been in DuBois and Punxsutawney much of the time during the past two weeks making arrangements for the assembling of the company.  
—The Clearfield Journal says that "Nineteen deer is the actual number killed in this county during the season as reported to the game warden." That seems a good many nowadays, but we can remember, not many years ago, when more than one thousand deer were slain in a single season in Forest county. Then the season extended through the months of October, November and December, and hunters came in from other states and camped in the "big woods" for weeks at a time. It's different now, and it is probable that were all the deer in the county to be brought to one corral a hundred or two would cover the number. "How are the mighty fallen!"  
—Heroic measures prevented a bad wreck on the Pennsylvania railroad near Kane, Pa., on Friday morning. A freight train broke in two on the steep hill at Kane and, running backwards at a terrific speed, and entirely beyond control, threatened to collide with a westbound passenger train. A switch engine was ordered out to run ahead of the oncoming passenger train. When the crew of the switch engine sighted the runaway freight cars coming towards them they jumped and the switch engine and cars came into a head-on collision. There was considerable damage, but the action prevented a worse wreck between the runaway and the passenger train.  
—We give the following for what it is worth: "Coal oil will knock any cold silly," says C. C. Warren, in the Baltimore News: "The idea of drinking coal oil may seem repugnant to some esthetic tastes, but one teaspoonful will fix the business for the most stubborn cold in head or body. Turpentine is another fine thing for general conditions. I firmly believe that if a man will take 15 or 20 drops of turpentine in sugar once every two months he will never really be sick. It's an internal Turkish bath in effect, and leaves the system thoroughly cleansed and in good shape to take on new strength. There's no excuse for a cold, and it's a dangerous thing to pass by."

S. service for about sixteen years, says: "We have tried many cough medicines for croup, but Chamberlain's Cough Remedy is king of all and one to be relied upon every time. **As to Automobiles.**  
The Legislature of 1905 passed an act, effective January 1st, 1906, prohibiting the operation within the borders of this Commonwealth of any motor-vehicle unless the operator thereof shall have procured a license from the State Highway Department of Pennsylvania. The Deputy Attorney General has rendered an opinion which holds that the act of 1905 supersedes and repeals the act of 1903, and constitutes the law of the state upon the subject.  
Attention is called to the following regulations established by the department, in which are summarized the more important features of the act:  
No motor-vehicle can be operated within the limits of the Commonwealth of Pennsylvania unless the operator thereof has secured a license from the State Highway Department.  
The act applies alike to operators of all forms of motor-vehicles, including so-called "motor-cycles."  
The operator—not the vehicle—is licensed.  
Every license expires on the thirty-first day of December of the year in which it was issued.  
License fee of three dollars (\$3.00) must accompany the application.  
A license issued to one person can not be used by another person. If more than one person desires to operate the same motor-vehicle, each such person must obtain a license.  
The license is not effective until the two license number tags furnished by the State Highway Department have been posted upon the front and back of the vehicle.  
The license must be carried by the operator when using the motor-vehicle, and must be exhibited when required by any constable or police officer.  
At least one fixed white light must be carried, visible in the direction the machine is proceeding. One red light must be carried, visible in the reverse direction.  
Every motor-vehicle must be provided with bell, horn or other signal device, which must be sounded when approaching roads or street corners.  
The operator of any motor-vehicle must stop whenever signaled to do so by the driver of any horse or other animal.  
The rate of speed in cities or boroughs must not exceed one mile in six minutes; outside of cities or boroughs one mile in three minutes.  
Conviction subjects the offender to a fine of not less than ten dollars nor more than twenty-five dollars; or in case of non-payment, to imprisonment for a period not exceeding ten days. A second conviction troubles the finer and imprisonment.
