The Grip.

"Before we can sympathize with others we must have suffered ourselves." No one can realize the suffering attendant upon ar attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonis or that has not recovered. For sale by Dunn & Fulton.

Climatic Cures.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the ich patient, too, can do much better at some by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night G.W. ROBINSON & SON sweat. Restless nights and the exhausu due to coughing, the greatest dread tool due to cooping, the greatest dread of the consumptive, can be prevented or stopped by taking German Syrup liber-ally and regularly. Should you be able to go to a warmer clime, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup.
