

# THE Smart & Silberberg STORES.

## The White Carnival

Closes Thursday, Feb. 15th, at 10 o'clock p. m.

Just as old Mother Nature dons her suit of white each year, so this store is transformed—and, with counter, case and even the tiniest and most remote corners filled with spotless, snowy fabrics and garments and novelties, we announce the most delightful of all the year's merchandising events—Our Annual Showing and Sale of White.

It is to be a Carnival—a pleasant, merry week—where the immaculate products of the world's best workmen and workwomen will meet you—where the tiniest of sums may purchase much that is beautiful—or durable—or both. A sale without parallel—where undermuslins and fresh linens and shimmering white silks drop in price until they may be freely purchased by the most economical.

A Queen of White Sales—where mothers will find pretty dresses and gimpes and bonnets for their little ones—where froxy laces and embroideries reign in a court of their own—where ribbons and neckwear and stout domestics and towels and sheets and waists and dresses meet on the common ground of low price—a sale that will fascinate every customer—

**A Sale Where Thin Pocketbooks Will Accomplish Great Things.**

YOU KNOW (and all our customers know) the great importance of our Annual White Events; but, no matter how well you remember, you will not be prepared for the splendid difference between the White Carnival of ours and any preceding Maslin Underwear or White Sale. You must come—and be surprised.

### COMING COAL CONFERENCE.

Mr. Mitchell Arranging Statistics of Hard Coal Industry.

New York, Feb. 13.—President John Mitchell of the United Mine Workers of America, who arrived here Sunday night to prepare for the conference on Thursday between the mine workers of the anthracite region and their employers, spent the day arranging his program for the meeting.

The miners' president brought with him from Indianapolis a large trunk filled with documents and statistics relating to the hard coal industry in Pennsylvania, which he will use at the conference. He remained in his room at the Ashland House practically all day and had no visitors of any prominence.

Mr. Mitchell declined to discuss the anthracite coal situation so far as it related to the miners' union in advance of the meeting with the operators. Neither would he talk of the conditions in the West. He is keeping in close touch with the situation in the various bituminous coal fields and receives reports by telephone and telegraph.

Mr. Mitchell was in conference last night with the presidents of the three anthracite districts, Messrs. T. D. Nicholls, William H. Dettrey and John Faby, who will take up most of his time between now and Thursday in the work of perfecting the demands or propositions to be laid before the mine operators.

The outlines of these demands were drafted by the three executive boards of the hard coal fields at a series of meetings held last week at Wilkes-Barre. These demands have not been made public.

Philadelphia and Reading Coal and Iron company will be here today and it is understood will meet some of the officers of some other coal carrying roads.

### Brooks' New Comet.

Geneva, N. Y., Feb. 13.—Dr. William Brooks, director of Smith Observatory, stated that his new comet is now within one degree of the north celestial pole, having reached its highest declination north and is moving south-westerly. On Feb. 16 the comet will be on the upper part of the neck of Camelopardalis; on Feb. 20th on the middle of the neck between the head and breast; on Feb. 24th on the breast of that constellation and in right ascension six hours 17 minutes, declination north 74 degrees 35 minutes. The comet may be observed with a moderate sized telescope.

### One Way to Look at It.

"A man always gets on easier by taking his wife's advice." "Yes," answered Mr. Meekton, "When things turn out badly there isn't so much said."

### LE ROY PLOWS

win prizes whenever exhibited. We can give testimonials from some of the best farmers in the United States, who say "the Le Roy draws easier, holds easier, and does better work in all conditions of soil than any other plow used." Made by Le Roy Plow Co., Le Roy, N. Y. They are for sale by Lanson Bros., Tionesta.

**Marriage in Korea.**  
There is not much difficulty in marrying off a daughter in Korea. Where there are defects, such as feeble health, paralysis, deformities, etc., an expert intermediary who knows how to conceal them is employed. It is her business to make the girl presentable to the parents of the suitor. As the bridegroom does not see the bride until the day of marriage, when it is too late to recall, he is obliged to make the best of the situation. In marrying Korean girls are not exempt from contributing to the support of the family. This applies to the grand dame as well as the humblest peasant. Ladies of rank who have become impoverished and are obliged to support themselves may earn a livelihood by knitting or rearing silkworms.

**Miss Alice's 22nd Birthday.**  
Washington, Feb. 13.—President and Mrs. Roosevelt entertained a large party of friends at the White House last night to celebrate Miss Alice's 22nd birthday. Many of Miss Roosevelt's younger friends attended. Representative Longworth was able to attend. Following the dinner there was a musicale.

Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business certificates never possess.
