JOHN A. M'CALL DEAD.

His Breakdown Dates From Insurance Investigation Ordeal.

New President of France-Ship Subsidy Bill Passed-Trade With Germany-Pat Crowe Acquitted-Loss of Life by Tidal Wave-Algeciras

John A. McCall, until recently president of the New York Life Insurance company, died at 5:35 o'clock Sunday afternoon at the Laurel House in Lakewood, N. J.

Mr. McCall's physical breakdown occurred at about the close of the investigation of the life insurance affairs in this state by the legislative committee, in December last. The report of the committee is expected to be submitted to the legislature at Albany early this week. Mr. McCall's examination before the committee was a severe one and the ordeal he underwent in rehearsing in detail the affairs of the company and of divulging transactions about which the general public was Ignorant worried him greatly, it was said.

John A. McCall was born in Albany, N. Y., March 2, 1849. He entered the insurance business early in life and in 1885 was appointed state insurance commissioner by Grover Cleveland, who was then governor. He relinquished that position to become comptroller of the Equitable Life Assurance society, which post he held until he became president of the New York Lafe Insurance company in 1892.

New President of France.

Clement Armand Fallieres assumed the duties of president of France, while President Loubet passed into private life. The ceremony of the transmission of office took place in the Elysee palace at 4 o'clock Sunday afternoon, while the crowds that were massed in the surrounding streets shouted "Long live the president" and "Long live Fallieres," and every military garrison in France thundered a salute of 21 guns.

President Loubet, surrounded by the members of the cabinet; the presidents of the senate and chamber of deputies and the members of his military household, welcomed M. Fallieres and in a few earnest words committed the executive functions to the new president. The reply of M. Fallieres was without formality. It was a simple acceptance of the new responsibilities and an assurance of his best efforts in carrying

MM. Fallieres and Loubet both wore evening dress with the broad scarlet sashes of the grand cross of the Legion of Honor across their breasts. The presence of their military staffs in full uniform gave a touch of brilliancy to the scene within the palace, while the escorts of cuirassiars which accompanied MM Fallieres and Loubet to and from the palace gave fitting

Trade Relations With Germany.

The German government shortly will States the same treatment under the p-w tariff which becomes operative March 1 as that given to countries with whom Germany has arranged reciprocal trade treaties.

The precise terms of the government's bill will depend somewhat on the result of the negotiations which are still going on at Washington between Ambassador Von Sternberg and the state department as to modifications in the American system of invoicing and valuing, some features of which are considered by German exporters as vexatious and unjust.

The German government's proposal to give the United States this favored treatment is only for a fixed period, probably a year, so as to afford time to conclude more permanent arrange-

UNIFORM DIVORCE LAWS.

Governor Pennypacker Outlines Object of Conference. Washington, Feb. 20. - Governor

Pennypacker of Pennsylvania deliv ered an address yesterday before the Congress on Uniform Divorce Laws which is in session here. Governor Pennypacker said the ob ject of the meeting was "the securing as nearly as possible uniform statutes

upon the matter of divorce throughout the nation." The initiative had been taken in Pennsylvania, he sald, wher. the governor had been authorized by the legislature to communicate with the governors of the several states, requesting them to co-operate in the assembling of a congress to discuss the subject of divorce. Forty-two states and the District of Columbia, he said, had sent delegates. Continuing Governor Pennypacker said: "Of the three states which are un

represented, one of them, South Caro lina, does not permit divorcement for any cause, and, therefore, only two of the 45 states have failed to indicate an appreciation of the significance of the movement upon which you have embarked. The dissolution of the marriage tie has become so common as to be regarded as an ordinary event awakening no comment and meeting with little or no disapproval. There are more divorces granted annually in the United States than in any other country on the face of the earth except in Japan.

"A writer who has investigated the subject declares that at the time of the census of 1900, there were 198,914 divorced persons living in the United States, that there were nearly 70,006 divorces granted in 1903 and that the proportion of divorces to marriages is increasing with alarming rapidity. We may well regard such degeneracy in morals and such loss of that fibre which gives character to a nation with the gravest apprehension."

Governor Samuel W. Pennypacker was chosen president of the congress The congress was called by Governor Pennypacker, the Pennsylvania state legislature having appropriated \$10, 000 to defray the expenses of it.

HUDSON TERCENTENARY

And Centennial of Steam Navigation on That River.

Governor Higgins In Special Message to Legislature Recommends Creation of a Permanent Commission and a Preliminary Appropriation-The Proposed Hudson-Fulton Exposition.

Albany, Feb. 20.-Governor Higgins last night sent to the legislature a special message recommending the passage of appropriate legislation to reate a permanent commission to make arrangements for the celebration of the three hundredth anniversary of the discovery of the Hudson river and the centennial of the first use of steam navigation on that river.

He also recommends that a preliminary appropriation be made. The governor some time ago named an unofficial commission but it is without power to act for the state. The message of the governor is as follows:

"During the past year the historical societies and public spirited citizens have been looking forward to some action on the part of the state and the city of New York for the appropriate celebration of the three hundredth auniversary of the discovery of the Hudson river by Hendrik Hudson in the year 1609, and of the centennial anniversary of the first use of steam in the navigation of the Hudson river by Robert Fulton in the year 1807.

"These two events in the history of the Hudson river are of such interest to the state of New York and to the United States, that it seems fitting that a proper celebration of each should be had.

"Having in view such official action, I acceded to the request of many gentlemen interested in the plan, to name a committee of distinguished citizens, with whom a committee named by the mayor of the city of New York should co-operate to formulate plans for a celebration of the tercentenary of the discovery of the Hudson.

"It has been suggested by this committee after long and careful consideration that both events might with propriety be celebrated together in the year 1909/and that the union of these two observances would strengthen each, and would more effectually concentrate upon the affair the attention of the world.

"The committee now acting has no taken. The consideration involved in official status and is wholly an informthe transaction is not known. J. C al and unofficial body. Former Premier Opposed by Thomas Gibson Bowles, Defeated Free Trade Unionist.

London, Feb. 20 .- The Liberals of the city of London have changed ground since Saturday and after several conferences with Thomas Gibson Bowles, late Free Trade Unionist can didate for Kings Lynn, where he was defeated by a Tariff Reformer, the Lib eral association definitely selected him to oppose former Premier Balfour is the bye-election made necessary by the resignation of Alton Gibbs, who gave up his seat in order to enable

Mr. Balfour to return to parliament. Mr. Bowles' vitriolic criticism of his former colleague in his letters to Sir Alexander Fuller Adland-Hood, the chief Conservative whip, in which Mr Bowles accused the Unionist party of sacrificing his seat on the dictum of Joseph Chamberlain simply because he (Bowles) was a Free Trader, is regarded by the Liberals as constituting practical severance of Mr. Bowles old political ties and he is thought to be the most likely candidate to draw the support of the Unionist Free

Fooders. Mr. Balfour commenced an active campaign this morning, perambulat ing the greasy alleys of Billingsgate fishmarket, shaking hands with hundreds of fish sorters and receiving an occasional douche of slimy brine from the baskets on their heads.
