He has not been seen in this section, so far as known, out all carriers are instructed to give him no money and should the circumstances warrant such action, cause his arrest for obtaining money under false pretenses or for impersonating an officer of the United States, in which event they should telegraph the facts to the nearest postoffice inspector in charge.

> -It has been said that the heart never rests. But that-as an anatomist pointed out-is a fallacy. "The heart," he said, "gets a great deal of rest during sleep, Ohio, for its beats are far less numerous-that is to say, there is a longer period between each. It has no longer to support all the activities of the body, but merely to keep the life in the frame. As for the brain, during sleep it becomes pale and shrinks, the heart no longer having to supply it with blood to anything like the same extent as in its waking hours. Sleep, in fact, means a very complete reduction of all the vital processes. Even the tear Anderson. glands get a rest. This is why we rub our eyes on waking. It is in order to stimulate the glands to furnish moisture for the eyes, which have become dry as a day with her uncle, E. A. Kuhns, of and gentle, easy to take and pleasant in result of the inaction of the tear fountains,"--Kansas City Journal,
