DEAR SIR:-Here's a 15-year yarn; you like yarns, don't you? It comes from Odell Hardware Co., Greensboro, N. C. Mr. R. G. Glenn's house in that town was painted Devoe about 15 years ago, and next, this year.

A house, next-door, was painted about the same time with another paint supposed to be good. This house was painted again about 5 years ago with still another paint, that professes to be extraordinary.

Glenn's house, before it was painted just now, was in as good condition as that one. Devoe 15 years; the other 5 yearsguess that's about how to put it. But this extraordinary paint is a bluff; Devoe is the paint.

A Short Sermon

To particular men.

There's a right way to do everything.

The young fellow with his first cigar finds it out when he swallows the smoke. The man with a lame watch discovers his predicament when he misses a train.

If it is true of the trivial circumstances of life, it is equally true of dress. More so, perhaps-for man is judged by the clothes he wears, and as your hat is the most prominent part of your dress, it certainly ought to be right.

We've styles in both soft and stiff hats, and while nothing extremely radical in style, there's enough change so your old hat will look like a "Has Been."
