APPALLING DEATH LIST.

Number of Victims of French Mine Horror Over 1,200.

State of Oklahoma—Cattle Cheap, Beef High—Lake Erie and Pittsburg Railroad—End of Hooker Case—Nixon Memorial—Verdict Against Ladies' Home Journal—Battle in Jolo.

The latest reports from Courriers, France, as to the approximate number of the casualties in the great mine disaster there on Saturday, give the figures at between 1,200 and 1,300. It is probable that the exact number of those dead will never be known, owing to the fact that many bodies, probably, were destroyed by fire which raged throughout the mine.

The three shafts are guarded by military, and the rescue work is being continued. There is little hope, however, of getting out any of the miners still below alive, or even of recovering the bodies. The funerals of the victims of the disaster were held Sunday. Those who were burned or mutilated beyond recognition will be buried together and a monument to commemorate their death will be erected over the spot by public subscription. All the public buildings and most of the houses of the town are draped in black.

M. Dehayntie, millionaire coal merchant and leading authority in France on the subject of mine construction, in an interview on the disaster, said: "The catastrophe marks the collapse of the scientific mining theory, alleging that protection is furnished by adjoining the galleries to allow means of escape. With the old system of single or double galleries disasters are limited to 200 or 300 casualties at the most, whereas the modern idea of connecting all the galleries rendered the holocaust possible. Courriers is noted as the most scientific mine in France, and it was the scene of the greatest catastrophe."

Cattle Cheap; Beef Higher.

A comparison of the farm prices of cattle and the wholesale prices of beef suggests ground for speculation. On the first of January every year, from 45,000 or more different sources of information, scattered throughout the entire country, the department of agriculture ascertains the farm or ranch prices of cattle and other live stock, and strikes an average. It is a rather singular fact that the price of beef cattle as reported on the 1st of January last, \$15.85 per head, is lower than it has ever been since the records were kept.

The lowest mark ever reached in the price of ranch cattle before 1905 was in 1891, when the average touched \$17.55 per head. The price of steers per 100 pounds at the Chicago stockyards has depreciated somewhat in sympathy with farm values, but the price of fresh beef in the wholesale market at New York has continued to rise. There must be some reason why the value of beef on the farm should go down so rapidly and in the market it should go up so rapidly, but the statisticians at the Agricultural department are not able to make it clear.

A Hot Fight in Jolo.

In an engagement in the Philippines 600 engaged Moros were killed in the crater of the precipitous volcano, five miles from Jolo. The Americans lost 18 killed and 52 men wounded, including Captain Rivers of the Fourth cavalry, Lieutenant Agnew of the Sixth infantry, Lieutenant Gordon Johnston of the signal corps, Ensign Cooke, commanding the Pampanga, and Captain White of the constabulary. The attack was under the immediate command of Colonel Duncan of the Sixth infantry. The fighting lasted two days among the lava ridges, which had been strongly fortified by the Moros. Artillery had to be hoisted by means of ropes up the last 500 feet at an angle of 60 degrees. General Wood highly commends the work of the troops.

Senate Bill For One New State.

The senate passed a bill for admission of a new state of Oklahoma to be composed of Oklahoma and Indian Territory. It was the house joint statehood bill with all the provisions relating to Arizona and New Mexico stricken out. The motion to strike out was made by Mr. Burrows and was carried, 37 to 35, after having been lost in committee of the whole by the still closer vote of 35 to 36.

Railroad Rate Bill.

The only visible object on the horizon of the United States senate is the railroad rate bill now on the calendar as the unfinished business, which gives it the right of way over every other subject each day after 2 o'clock. The only positive predictions that can be made concerning the course of the bill is that during the present week Senator Tillman, who has it in charge, will make a written report upon it; that there will be a number of speeches for and against the measure and that the efforts to amend it will proceed.

House Naturalization Bill.

The house passed 408 private pension bills and devoted three hours to the consideration of a bill providing a uniform system of naturalization, the chief features of which require an alien to write either his own or the English language and to speak and read the latter and to declare his intention to reside permanently in the United States before he can become

an American citizen. The bill is to be the outstanding order when appropriation bills are not under consideration. Mr. Bonyne (Col.) is in charge of the measure.

Lake Erie and Pittsburg Sold.

The sale was announced of the Lake Erie and Pittsburg railroad to the joint ownership of the Pennsylvania and Pittsburg and Lake Erie companies, which represent the vast Pennsylvania and Vanderbilt interests. The amount involved in the deal is not stated but it is not less than \$3,750,000.

The Lake Erie and Pittsburg railroad was planned as a double track line from Lorain, O., to Pittsburg via Youngstown. Afterward entrance was secured to all of the mills of the United States Steel Corporation and it was supposed this corporation was to be identified with the construction of the road.

It is learned that the plan of the new owners is to continue the construction of the line from Lorain to Youngstown and Lake Erie and thus bring a direct connection into Pittsburg from the new lake port and also give the Pittsburg and Lake Erie a direct entrance into Cleveland, which it has never had.

Probable End of Hooker Case.

What is regarded the end of the effort to secure the removal of Warren H. Hooker of Fredonia from the supreme court bench in the Third judicial district, on the long-discussed charges of improper conduct in connection with appointments and rental transactions concerning the postoffices at Fredonia, Dunkirk and Fort Plain, came Wednesday afternoon when the state assembly, by a vote of 87 yeas to 59 nays, defeated a motion of Assemblyman Tompkins, Democrat, of New York, to take from the judiciary committee his resolution directing that committee to repeat the investigation of those charges.

U. S. District Attorney Removed.

President Roosevelt has removed Horace Speed, the United States district attorney for Oklahoma, as a result of charges preferred against him. These charges were to the effect that he had entered into a contract with a certain county commissioner to render legal service and that he had paid improperly to that commissioner certain sums of money in connection with that employment. The charges were investigated by the department of justice and the president's action followed the report on that investigation.

Nettleton Shoe Factory to Move.

A. E. Nettleton of Syracuse has authorized the Chamber of Commerce of Binghamton to announce that they had decided to locate a large branch of their Syracuse factory in that city and possibly the whole plant. The chamber announced that Mr. Nettleton expects to have the local plant in operation by June 1. They will employ about 300 hands and have a capacity of 1,000 pairs of shoes per day. In case the whole plant is moved to Binghamton from 600 to 700 hands will be employed.

Nixon Memorial Meeting.

The assembly adopted a resolution postponing to March 27 (Tuesday evening) the formal exercises in memory of the late S. Fred Nixon of Chautauque, who died last October with the unprecedented record of seven consecutive terms as speaker of the assembly. Lewis E. Carr of Albany, a long-time friend of Speaker Nixon and well-known as an orator, will deliver the memorial address.

Operators Reject Propositions.

The week should see a decision one way or the other of the question of a strike of coal miners in both the anthracite and the bituminous fields. The operators having sent to the miners their reply to the demands of the United Mine Workers of America, in which they reject the propositions of the anthracite workers, the miners will probably go into conference immediately.

Former Senator Green Acquitted.

George E. Green, a former state senator of New York, who has been on trial in the district supreme court at Washington for more than two weeks on charges of conspiracy to commit an offense against the United States and to defraud the government in connection with sale of time recording clocks to the postoffice department, was acquitted by a jury.

Resignation of Rouvier Ministry.

Like a bolt from a clear sky the Rouvier ministry was defeated in the French chamber of deputies Wednesday night and immediately resigned. The cabinet crisis comes at a most dramatic moment, when the Franco-German contest has reached a decisive stage, and may exert an important adverse influence on the Algerias conference and European affairs.

Verdict For Pierce Medical Company.

Sixteen thousand dollars damages was the award announced by the jury at Buffalo who heard the World's Dispensary Medical association's libel suit against the Curtis Publishing company of Philadelphia. The plaintiff sued for \$200,000 and is dissatisfied with the verdict. It will appeal.

Colonel Mann Indicted.

Colonel William D. Mann, editor of Town Topics, was on Monday indicted on a charge of perjury by the grand jury. The indictment was based on his testimony in the recent trial of Norman Hapgood, editor of Collier's Weekly, on a charge of criminal libel.

NO 99-YEAR FRANCHISES

By Court Decision Chicago Has Control of Traction Situation.

Supreme Court Decides That Companies Are Entitled to Only Such Grants and on Such Conditions as the City May Give—Occupy the Streets on Sufferance.

Chicago, March 13.—By the decision of the United States supreme court the city of Chicago obtains almost complete control of the local traction situation. The decision sustains the acts of the state legislature extending the life of the charters of the street railway companies to 99 years, but does not sustain the contention of the companies that contract rights which are limited to fewer years than remain to the charter life of the companies are also extended.

In its effect the decision leaves the Union Traction company without any right whatever, other than by sufferance, in the streets of the north division of the city. It leaves the Union Traction company in the west division and the Chicago City Railway company, which operates all the street car lines on the south side of the city, without rights, excepting where their ordinances contain a purchase clause. The original ordinances granted to the street car companies were for 99 years inside the city limits as they existed in 1865. The companies have extended their tracks as the boundaries of the city have been enlarged and have claimed that the extended lines which were built under franchises from the city were also operative under the 99 year act. The court has held, however, that the 99-year act extended only the charter life of the street car companies without extending their ordinances.

The court also denies the claim of the street car companies that they have been vested with the exclusive rights for 99 years to enter into contracts with the city for the occupancy of streets for street railway purposes. The decision also holds that the street car companies could receive only such grants as the city might give and on such terms and such conditions, including the time of the grant, as the city might prescribe.

TRACTION EXPERT'S REPORT.

Mr. Dalrymple Thinks Cities of United States Not Ready For Municipal Operation. Chicago, March 13.—The long-awaited report of the traction expert, James Dalrymple of Glasgow, Scotland, on the street railway systems of Chicago was made public. Mr. Dalrymple declared that he had not been in Chicago many hours before he realized why the people of Chicago are so anxious for a change in street car facilities. The present equipment, he says, should be relegated to the scrap heap and the different systems practically rebuilt. Mr. Dalrymple says he thinks Chicago is not yet prepared to undertake municipal ownership, and advises that arrangements be made, if possible, with the companies whose franchises are about to expire. The report continues: "Presuming that the companies are unwilling to meet the city on anything like reasonable terms, what is the only course left open for you? I should say, undoubtedly to start your municipal system on each line as the franchise expires. "I should be very sorry, however, were you forced to take such a step, as, speaking from my knowledge of what it means to operate a municipal street car system, I think the municipalities of the United States are not yet quite ready to undertake this work."

Pitcher Pays \$500 For Release.

Columbus, O., March 13.—Pitcher Iver Wagner of the Columbus American Association Baseball club, today paid \$500 to Business Manager Quinn for his release from the club. He quit the action for the purpose of being certain that he will not be farmed out to the Wilkes-Barre, Pa., team.

German Force Ordered From China.

Berlin, March 13.—In accordance with a decision taken in October, Emperor William has just ordered the German force in China to return to Germany. A detachment of 25 officers and 700 men will remain to guard the embassy at Peking, a portion of the force being kept at Tien Tsin as reserves.

Five Killed in a Church Fight.

Warsaw, March 13.—Five persons were killed and 15 wounded in a fight at Skrykoff, government of Piotrkoff, Sunday between Catholics and sectarians who occupied in force a Catholic church.

SEPARATION PROCEEDINGS.

Preliminary Hearing in the Castellane Case Postponed.

Paris, March 13.—The preliminary hearing of the separation proceedings instituted by the Countess Boni De Castellane (formerly Anna Gode) against her husband, Count Boni, which was set for March 14, will probably be postponed.

The lawyers representing the various branches of the case have been in consultation upon the financial features involved and other final details of the procedure.

This has resulted in a determination to change the form of the proceedings. Although authoritative information is withheld for the present there is reason to believe that the change contemplates the countess asking for an absolute divorce instead of a separation, which would necessitate a postponement of the hearing, as the change would require filing a new bill of complaint, as the facts recited in the former writ would not suffice for the changed procedure.

Moreover the change will permit of a more prompt final adjustment of all the legal and financial branches than the indefinite three years stage under a separation. The new papers have not yet been filed but are expected to be ready in a day or two.

The proposed change appears to be the result of the conclusion of all concerned that a reconciliation between the countess and the count is impossible during the three years in which the legal separation would be required. It is the intention of the lawyers on both sides to avoid public hearings of the case and to secure a decree without a contest.

Alleged Anti-Jewish Proclamation.

St. Petersburg, March 13.—The anti-Jewish proclamation alleged to have been issued by the bureaucracy consisting of a program of 22 articles, including a demand for the expulsion of the Jews from all the cities of European Russia and Siberia into the Pale, the prohibition of higher education for Jews, the prohibition of the stopping of work of Jewish holidays, the levying of a lump sum of money from the Jewish population in lieu of military service, the resumption of Jewish names where they have been changed, the prohibition to the Jews of certain professions like the stage, and that none but the grand-children of Jews who have accepted Christianity shall enjoy full legal rights.

Hudson Open For Navigation.

Albany, March 13.—Navigation on the Hudson river will be resumed, weather permitting, on Thursday night, it being the present intention of the People's Line and Citizens' Line companies to start their passenger steamers from New York at that time. It is not believed that the expected cold wave will compel the abandonment of this plan. This will be the earliest opening of navigation since 1897, the inaugural trip of the larger boats being the signal for the smaller craft to begin the season's business.

MARKET REPORT.

New York Provision Market.

New York, March 12. WHEAT—No. 2 red, 86 1/2c f. o. b. afloat; No. 1 northern Duluth, 87 1/2c. CORN—No. 2 corn, 48c f. o. b. afloat; No. 2 yellow, 49c. SUMMARY OF THE NEWS.

Short Items From Various Parts of the World.

Record of Many Happenings Condensed and Put in Small Space and Arranged With Special Regard For the Convenience of the Reader Who Has Little Time to Spare.

Wednesday. Joe Jordan, Texas witness in Patullo hearing at New York, is sentenced to imprisonment for a year and eight months for perjury.

President Roosevelt sent to congress elaborate coast defense plans prepared by the joint army and navy board and urged the necessity of their adoption.

Russian delegates at Algieras proposed that the Moroccan police be entrusted to France and Spain, the Germans asked time to consider and the conference adjourned until Thursday.

Chicago council, by a vote of 40 to 28, passed the ordinance for a \$1,000 saloon license. The increased revenue is to be used to hire more policemen. Mayor Dunne announces he will sign the measure.

Thursday.
