Consolidation of Red Cross and Citizens' Committee.

ManyChildren Lost to Parents-Canada's \$100,000 Still Available-Crapsey Heresy Trial-Vesuvius Becom-Ing a Dead Volcano - Miners' Convention This Week.

What to do with the large sums of money that has been contributed to the rellef of San Francisco's homeless people was the question that is receiving careful consideration by all those now engaged in relief work.

While the complete details of dis bursing and accounting for the immense sum of money already contributed have not been formulated, they have been thoroughly discussed in committee and may be briefly stated as follows:

by the finance committee of the citizens and Red Cross funds. The members of this committee are bankers, business men and jurists of San Francisco and Dr. Devine of the National Red Cross society. This committee will audit all accounts and make a de tailed report to the war department where a final audit and statement will be made."

Many Tots Lost to Parents.

Governor Chamberlain of Oregon sent the following telegram from Salem to Governor Pardee: "Many children and some bables are coming through here unidentified and unaccompanied by anyone, cared for only by strangers. Can they not be gathered together at Oakland and kept together for subsequent identification? As it is, they will be forever lost to their parents."

The British cabinet last week lengthily considered the dispute with Turkey regarding the Tarbah boundary and resolved to dispatch the second class cruiser Minerva to El Arish, with instructions to investigate the report that the Turks have removed the frontier pillars at Bafanear and El Arish. The negotiations continue with Constantinople but the cabinet meeting showed the British government is unalterably determined to enforce the withdrawal of the Turkish troops from Egyptian territory.

## ONLY TWO REGIMENTS.

General Greely Divides the City Into Seven Districts In Charge of Army Officers - Chairman Phelan Tells of the Demands Upon the Relief

Only two regiments of troops, in all about 1,350 men, will be sent to San Francisco to reinforce those now there, instead of the 2,500 men as originally proposed by General Greely and sanctioned by the war department.

Sunday was the first rest day San Francisco has experienced since cataclysm and conflagration wiped out half of the city and made 200,000 persons homeless campers in parks or recipients of charity under the roofs of

The loss of some 300 lives and the devastation of almost four square miles of the best part of San Francisco have now been written in history and he day found every one confident of the rapid rebuilding of the greater and better San Francisco.

CITY HALL AFTER THE FIRE.

According to the plan of General Greely the unburned part of the city will be divided into seven districts in charge of army officers who will assume control of all the relief stations. Responsible civilians will be installed under salary at the sub-stations for clerical work, and daily records will be kept. As the period of extreme distress has passed the issuance of rations will at the earliest possible moment be confined to helpless women and children and refused to able men. Luxuries will be confined to infants and invalids.

Rigid economy is enjoined on every officer engaged in relief work. In each of the seven districts there will be 100 stations. The amount of food to be allowed each person, with latitude for certain conditions, is specified. The allowance, in a measure, is based on the army ration.

Banks Have Not Yet Opened.

James D. Phelan, chairman of the municipal finance committee, in a statement said: "The demands on the finance committee are very great and we don't see how we can meet them if the conditions continue. There is no money in circulation.

"The banks are closed because they dare not open their heated vaults and when they do open them, they will probably pay out slowly, as they realize upon their assets. They expect next week to cash the checks of well known customers to the extent of \$500 each. That measure will help in a small degree the resumption of bus-

"There is sufficient food supply in sight for the present, but the great problem for us is how to provide for the absolutely destitute, for the sick, old, children and all other dependent

persons. "The means of support of the hospitals, orphanages, religious and charitable associations of all kinds are absolutely cut off. The local Red Cross estimates that \$1,000 a day is necessary for the hospitals. To set these Institutions on their feet will be work of years, because the local people are unequal to the task because of personal demands."

Fire Department's Losses.

The losses of San Francisco's fire de partment during the earthquake and fire were not large. So far as known. three firemen were killed and one injured. The apparatus of the depart ment, while damaged, is still intact, Nineteen companies have been put out of commission and many of them will be disbanded.

List of Dead at San Jose The following telegram has been received at the war department from General Greely:

"Following is a list of the dead from earthquake at San Jose. It is believed to be complete: Mrs. Hela Brandon Mrs. Ugoina Costa, Mr. and Mrs. Car -igan and baby, Dr. Warren Drerwn, Pegentry and Osctin Dady, Mrs Claude Everitt, L. Etters, Paul Ferres, K. Fugil and wife, James Hiungive. Bost Healy, wife and two children, Romeo Manshed, Delta Mar quant. Thomas O'Toole. Total 21."

Destitution Has Not Been Exaggerated San Francisco, April 20,-Dr. Devine of the National Red Cross issued a statement in which he says: "It is important for the entire country to un derstand that the loss of homes and property in San Francisco has not been exaggerated. Sick and delicate persons will need care for months inmates of institutions which have been burned and destroyed must be established elsewhere on some plan yet to be derised. Families which canot get stasted otherwise may be given a helping hand,"
