—Although somewhat chilly yet, the hot weather will be upon us before we know it, and Hopkins is prepared to furnish the summer dress goods that will afford the greatest comfort and look the prettiest. A fine stock.
—S. M. Henry has about completed negotiations for the purchase of the Tionesta Cash Store. Mr. Henry has had many years experience in merchandising pursuits and will undoubtedly meet with the success his many friends wish him.
—Constable Wm. Green, of Jenks twp., on Saturday last, brought Albert Stenbrook to Tionesta and delivered him over to the custody of Sheriff Stroup on a serious charge preferred by P. L. Greely, also of Jenks twp. The female in the case is Cora Greely, under sixteen years of age.
—The blackest hail storm in years passed over this immediate section last Wednesday. Hailstones as large as small hen's eggs and millions of them fall thick and fast for about five minutes, and while the wind was terrific and the atmosphere black as night—almost—no serious damage was done.
—Miss Rose Harrison, Tionesta's up-to-date milliner, will be at the Kingsley House, Kellestville, from Wednesday to Saturday of this week with a fine line of trimmed hats, all of the very latest styles. The ladies of that community are cordially invited to call and inspect her elegant stock, and make selections.
—A well completed by Tionesta capitalists last week near the White Church, in Harmony township, and which showed up for a fair producer, might almost be termed a duster. It may pay to pump it if the price of oil gets up to about nine dollars a barrel. The well on M. L. Range's place, Stewart Run, is settling down to a fair little pumper.
—Tionesta is billed for a big circus. Jones' Enormous Railroad Show and Frontier Exhibition has rented the large baseball grounds and will pitch its tents on Thursday, the 17th of this month. This is perhaps the largest show that has ever visited Tionesta, and will be worth going miles to see. Arrange to be here on that day and bring the family.
—Henry Yarnell, who lives over in Harmony township, not far from Stewart Run, went with a party on a snake hunt last Sunday and their catch netted seven rattlers and one black snake, or blue racer. The smallest of the rattlers was a trifle over 3 feet in length, and each one supported a fine string of rattles. The den was located at a ledge of rocks about a mile from Stewart Run, and the snakes were out sunning themselves and apparently getting ready for their summer pilgrimages among the huckleberry bushes and other favorite resorts. Henry says several of the snakes escaped by crawling under the rocks before they could be dispatched. And it wasn't an extra good day for snakes either.

—Justice John H. Shaw came down from Kellestville Monday to get his new commission as J. P. in Kingsley township, having been re-elected to that office at the February election. The "Squire" manages to keep things very orderly about the busy town of Kellestville, but it seems now and then, with all his vigilance, there is an occasional small delinquency reported, for instance like the one a few nights ago when some one swiped an old hen with a brood of chickens from under the Salmon Creek company's barn. Who was it?

Across of the Ocean.

EDITOR REPUBLICAN:—So many questions have been asked about the American Line steamers sailing from Philadelphia, so little seems to be known of their outside of eastern Pennsylvania, perhaps some of your readers who think of taking the journey abroad may be interested to learn more of them. The three best boats of this line are of 8,000 to 12,000 tons capacity, very comfortable in their appointments, well ventilated, and, in cold weather, heated. Being heavily loaded with freight they are very steady in motion. The service is excellent and the food generally wholesome. These boats make the trip from Philadelphia to Liverpool in from eleven to thirteen days and the fare is from one-third to one-half less than on any of the New York steamers. Our steamer, the "Merion," arrived in Liverpool at seven o'clock, April 26th, having been detained nearly twenty-four hours by difficulty in crossing the bar at the mouth of the Delaware. It is an outrage that Congress does not appropriate sufficient funds to deepen the channel of the Delaware and so bring to Philadelphia the maritime commerce her location deserves.
Our passengers were a miscellaneous company—a missionary from the Congo, a party of jolly physicians from the west going to Berlin for some of the summer medical work. One old lady of seventy-two years was entirely alone, going from Indiana home to England for a last visit to some of her children still there. A number were from California and their holiday spirits were terribly broken by the news at Queenstown of poor San Francisco's fate. One family from San Francisco who were off for a summer of travel, were met by the news that their entire fortune—invested in buildings there—was swept away and two children, left at home, were probably destroyed. They were desperate, but fortunately could catch a New York Cunarder at Liverpool, returning Saturday. Our hearts went out especially to a bright young girl from the Golden Gate, traveling alone. She left the boat at Queenstown, going out alone in the darkness to the tender, only to hear there the fate of her distant home.
The steamship company gives us tickets to Paris at much reduced rates, with ten days stop over privileges in England, and the choice of three routes to London. We go to Paris Sunday night and hope to be ready for the summer's work in a very short time. KATE C. DUNN. Liverpool, England, April 26, 1906.

"Farmer" Dean at Bradford.

The Bradford Era of a recent date contained the following personal reference to a well-known former Tionesta citizen:
Farmer I. E. Dean, the big broad-shouldered oil man who knows all about petroleum from A to Z—from Pithole to Texas and back again—is in town. He is here on a business mission and will soon go back to the land of Democrats and gushers.
In speaking yesterday of the Texas oil situation he said that fuel oil is constantly becoming more popular. All but one of the railroads entering Houston, where the "Farmer" lives, use fuel oil in their locomotives. It is less expensive than coal, four barrels being equal to one ton of the latter. It is nearly one-half cheaper than coal and it has many advantages. The locomotives are equipped with tanks of petroleum and the fuel is fed to a burner in a manner that is safe and easy. No ashes, where it is used, are to be removed from the firebox. No cinders are to be dug out of the eyes of the traveling public. Railroads that use oil for fuel in that country are now paying dividends, whereas, in days gone by, some of them failed to do so for very important things. It is an ideal fuel for steam-raising purposes.
"Farmer" Dean stated emphatically that he is out of politics and intends to stay out. He looks prosperous and is prosperous. Time has dealt gently with him and he seems to be as vigorous as he was in the old days when he was punctured the rock in search of Pennsylvania oil—and when, for the sake of diversion, he told in burning words why the proletariat should rise up en masse and vote for a greenback currency and equal privileges.

Monthly Meeting of Stow Post.

The monthly meeting of Capt. Geo. Stow Post was held on Tuesday evening at the hall. Officers mostly present, Commander Chas. A. Hill in the chair.
The National and Department orders concerning Memorial Day were read, which direct as follows: "Commanders will arrange to have their respective Posts attend divine service on Sunday, May 27th. These memorial services preparatory to the observance of Memorial Day are worthy of our highest consideration. The W. R. C., Sons of Veterans and the people generally are invited to participate, especially all veterans, whether active members of the Post or not."
In pursuance of these orders, the Committee of General Arrangements, consisting of Comrades Agnew, Robinson and Irwin, made report that they were happy to be able to state that they had secured Rev. Paul J. Sionaker to preach the memorial sermon at the M. E. church, and that Rev. W. O. Calhoun was appointed to deliver the address on Memorial Day, and considered ourselves fortunate in securing these able and patriotic gentlemen for the two occasions.
Chester Hollister was admitted as a member of the Post on card from a New York Post and welcomed as a member.
The Post further expressed its thanks to Capt. Geo. Stow W. R. C. for their aid during the last year and during the past year. Comrades Hill and Johnston reported aid furnished a traveling soldier last week to help him on his journey.
The General Committee asked further time to confer with the Woman's Relief Corps concerning the observance of the days prescribed by the general orders. A program will be formulated later.
"We have observed this day since our beloved Logan instituted it in 1868," says National Commander Tanner. "This year we are crossing the broad river at the rate of 5,000 a month, 60,000 a year. Soon the majority will be sleeping their last sleep. Let us pay loving tribute to their memory, decorating their graves with flowers emblematic of a glorious immortality. Let tuneful choirs fill the air with sweetest music, and patriotic verse and stirring generations shall not only remember the patriot dead but shall learn and remember what it cost to save the nation and preserve the flag."
SAMUEL D. IRWIN, Adjt.

Letter to Silas J. Shriver,

Tionesta, Pa.
DEAR SIR:—Here's a story with a point to it.
Devoe lead-and-zinc is a cheaper paint than lead-and-oil; costs less, goes further, wears twice as long. But this last don't belong to the story we're going to tell this time.
One of the best painters in Uniontown, Pa., is L. O. Rutter; does all the best work. We told him Devoe goes further than lead-and-oil or mixed paint.
He said: "I've known it for two years, and have increased my business by it. I take a job for less money than anybody else, and get my pick of the work. Don't give it away; for nobody knows how I do it."
The name to go by is Devoe.
Yours truly,
F. W. DEVOR & CO.
