THE RAILROAD RATE BILL

Passed by Senate by a Nearly Unanimous Vote.

Strange Excuse For Crime-For a Sea Level Canal-International Dispute Fatal Auto Crash-Death of Justice Childs - Testimony as to Railroac

After 70 days of almost continuous deliberation the senate Friday passed the railroad rate bill by the practically unanimous vote of 71 to 3. The three negative votes were cast by Senator Foraker, Republican, of Ohio, and Senators Morgan and Pettus, Demo crats, Alabama.

The principal purpose of the bill is to permit the interstate commerce com mission to fix rates. The provision conferring this authority is found in the fourth section of the bill, which amends section 15 of the interstate commerce law so as to accomplish that result.

That section directs the commission to investigate complaints of unjust and unreasonable charges on the part of common carriers in the transportation of persons or property, or of regulations or practices affecting such charges.

It also authorizes an inquiry as to whether the rates or practices are "unjust, discriminatory or unduly preferential or prejudicial or otherwise in violation of the act," and in case any of these conditions are found to exist the commission is empowered to determine and prescribe what will be the just and reasonable maximum rate and what regulation or practice is just, reasonable and fair.

The commission is given access to the accounts of the companies affected by the act, but examiners are forbidden under penalty of heavy fine and long imprisonment from divulging the facts ascertained. Fines of \$500 for each failure to keep proper accounts is provided. A faisification of accounts is made punishable by fine and imprisonment.

Minister's Strange Excuse For Crime. In furtherance of his inquiry into the unusual case of the Rev. Charles Stuart Bain, who is in the county jail of Seneca county on a charge of setting fire to the First Baptist church of Waterloo on March 6 last, and who claims that at times he is under influence against which he has no power of resistance, District Attorney Bodine was advised by the warden of the Illinois state prison at Joliet that one Charles S. Bains, alias C. W. Wilson became a prisoner in that institution Oct. 20, 1896, on a commitment from

Kane county charging embezzlement. The prisoner, who was No. 5,162, was paroled April 19, 1898, and was given his final discharge May 23, 1899. Mr. Bodine states that a photograph of Rev. Mr. Bain which was sent to Jollet has been returned with the statement of the warden that it is undoubtedly a picture of the former Illinois

prisoner. The district attorney also stated that he had received a letter saying Mr. Bain was tried at Converse, Ind., in 1893 by an ecclesiastical court on a charge of lying and conduct unbecoming a minister and that he was dis missed from the Presbyterian ministry as a result of the trial.

For a Sea Level Canal.

nessee gave the sea level advocates a majority of one vote and consequently Chairman Millard was the only one of the minority faction who attended the meeting.

The committee remained in session just long enough to authorize Senator Kittredge to make the report to be presented to the senate as soon as the minority may have an opportunity to prepare their views for a lock canal. The two reports will be made at the same time.

The vote was had on a resolution presented by Senator Kittredge declaring it to be the sense of the committee that the construction of a sea level canal be recommended.

On the motion the affirmative votes were Messrs, Platt, Kittredge, Ankeny, Morgan, Carmack and Tallaferro. The chairman, Mr. Millard, voted in the negative. Senators Knox, Hop kins, Simmons and Dryden were not present. All of these are supporters of the lock type.

An International Dispute.

An international dispute of magnitude is imminent at Detroit between the United States and Canada over the question of payment of Canadian income tax by the United States government engines:s who are in charge of the dredging operations in the Canadian channel of the Detroit river and who make their home in Amherstburg at the mouth of the have decided against the Americans the latter still refuse to pay and the Canadian government has seized the household goods of Chief Engineer C. Y. Dixon and Assistant Enginers Harry Hodgman, E. B. Lewis and B. A Pritt. A sale of these goods by public auction has been announced to satisfy the government's demands.

Tot Lies Uninjured Under Train. "Lie down, lie down!" cried Fireman fast-flying locomotive to a tot stand-

The heavy train was be hind time and dashed around the big curve at Lock Haven at frightful speed. Far ahead Engineer E. J. Mor. rison and the fireman saw a little mite of humanity on the track. One woman was killed and three other persons are in the Hamot hospital at Erie, Pa., in a very serious condition as a result of an automobile accident on the Lake road shortly after midnight Sunday morning, near trirard, Pa. The party had left Cleveland early in the evening to make the run to Eric, with the intention of go-

ing on to Buffalo Sunday morning. The accident occurred about a mile east of Springfield, on a piece of roadway that is particularly favorable to speeding. In turning a sharp curve the machine crashed into a telegraph pole, throwing the occupants out and the machine turned over on top of them

Justice Henry Augustine Childs the dean of the Eighth judicial district justices, died at his home in Medina early Wednesday morning. Death was due to apoplexy, with which he was stricken about 9 o'clock the night before. He had been in poor health for several months, but he improved so much within the past few weeks that he expected to be able to resume his duties on the supreme court bench the first of next month. Justice Childs would have been 70 years old if he had lived until July 17 of this year. He was born in Carlton, Orleans county, in 1836.

The forest fire which raged for a distance of 64 miles along the line of the Escanaba and Lake Superior and for 30 miles beyond Channing, the western terminus of the road is out.
