SCHOOLING LAKE SAILORS.

Marine School Recently Opened in Kingston, Canada.

A marine school has recently been

opened in Kingston, Canada, the first ession being attended by one hundred candidates for master's and matea' certificates. The object is to enable the Canadian sailors of the great lakes and the St. Lawrence River to better comprehend the innumerable details in the work connected with their profession. The Canadian Department of Marine is giving more attention to the needs and requirements of the inland water trade. A proper understanding of his compass, a thorough knowledge of deep water channels and the rules of the road and the use of lead lines and log, along with handling the larger vessels, seem to be the chief topics to be studied in this school.

The rules of the road should be better understood on both sides of the border, as instances in waters adjacent to Kingston might show. If mutual American-Canadian efforts at instructing captains, mates and sailors of the lakes and rivers were promoted it would be beneficial and stimulate the already well established friendly relations between the two countries. The Pittsburg Steamship Company has already issued an order to its seventy lake captains requiring them to attend a school of lustruction in the use of the compass and rules of the road. Similar efforts in larger lake border cities would improve the marine service in keeping with the constantly increasing commerce of the lakes.

Nature's Perch Clamp. "Chickens and other birds, roost-

ng on a perch no bigger than a lead caril, never fall off. Do you know why?" said a farmer.

"The tendon of a roosting bird's eg is so constructed that, when the leg is bent at the knee, the claws have to contract-can't open till the eg is straightened out again.

Thus a chicken gets on its perch, ends its knee to be comfortable, and with that bending locks itself, as with a key, to the wood. It can't fall off Pat a chicken on your finger and on make it sit down. Its claws will clamp your finger tight and be unable to let go till the bird stands up again. Nature, very kindly, has so constructed roosting birds that the act of settling down clamps them to their perch."

A Wonderful Dress,

At a ball in Bermuda, West Indies, wouderful dress was worn, in the making of which over 30,000 stamps were used. They were not put on anyhow, but in an elaborate design. On the front of the bodice was an eagle made entirely of brown Columbian stamps. Suspended from the bird's talons was a globe made of very old blue revenue stamps.

On each side of the globe was an American flag, having stripes of red and light stamps. On the back of the bodice was a collection of foreign stamps in the form of a shield. in the center of which was a portrait of Sir George Summers, cut from old revenue stamps. A picture hat covered with red and blue stamps was worn with this remarkable dress.

Xiagara's Fossil Church. A church near Niagara Falls is composed entirely of fossils. At the first clance the walls appear to be con structed of rough sandstone smeared with an uneven coating of gritty, coarse plaster, but on a closer view the eyes behold tracerles of delicate leaves, lacework of interwoven ments of mossy bark, splinters of wood, all preserved against the wasting of time and decay by being Tribune. turned into the hardest of flinty limestone. As a matter of fact, every block of stone in the four walls is a closely-cemented mass of dainty

French Postmen's Salary. The French postman of rural

neighborhoods ckes out the small salary of his governmental position by doing all kinds of errands in the village for people who live along his route. He makes a small income from the fees received for these services. In summer, he sometimes goes his rounds on a bicycle, but in winter he has to walk.

Use of Discorded Sabers, It appears that the discarded mili-

tary sabers of Europe find their way to Germany. Thence they are distributed all over the world-to the savage tribes of Africa, to Arabian rebels in Yenen, even to Russian revolutionists. The other day a German firm bought in one lot 20,000 condemned French sabers.

Do Not Pay Rent.

A Paris flat owner has hit upon an iden which is popular with his tenants. On the door of every apartment is a number, and on the first of each month the landlord draws a lottery, and the occupant of the flat the number of which proves to be the winning one pays no rent.

Discovered a Mine,

The curiosity of a woman, who examined some colored rock she noticed in Sau Bernardino County recently, resulted in the uncarthing of a turquoise mine. It has just been sold for \$24,000 to C. W. Baldwin of New York.

CHEEK OF A STOWAWAY.

When It Came to Work He Was Anxious to Have the Trip End. Young Captain Scalby of the Medterranean liner Cretic was talking

about stowaways. "Most of those fellows," he said in his deep, resonant voice, "have an excessive quantity of cheek, of brass. "Once we discovered a stownway . few days from New York and put

him to work in the galley. "A woman on a tour of inspection paused by the stowaway as he sat peeling potatoes.

"'How soon do you think we'll reach Naples?' she said to him. "Well, madam," he replied, "I'm doing all I can to get her in by Tuesday." -- New York American.

No Harm Done.

The customer at the five cent lunch counter, with some exertion, had dug a spoonful from the contents of the side dish

"Waiter," he sald, "this tastes different, somehow, from the mashed potato I usually get here."

"It is different," said the waiter, inspecting it. "It's the chunk of putty, for a broken window pane, that the old man has been making a fuss about for the last ten minutes. He'll be glad to get it back. Thanks."-Chicago Tribune.

No Time to Lose,

"W-why, this is so s-sudden," she exclaimed. "Give me a little time to

"Can't do it," he interrupted. "I need the money." And so they were married and lived more or less happily ever after.

In the Dim Future. "Why so blue, Reggy?"

"Why, confound it, I was goose enough to ask Miss Dashing to be my wife. I haven't enough at present to support myself, so I must set the date as far distant as possible." "Oh, that's all right, old man, Tell her you will marry her the day the Panama Canal is finished."

The Joy of Sadness.

"A woman's tears are sure to find sympathy," said the kind-hearted

"Yes," answered the cold-blooded one, "And yet when you see a woman crying you can't be sure whether she has trouble or has been enjoying herself at a matinee."-Washington Star.

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REM-EDY is not a disguised enemy of the human race; where it cannot help, it does not harm. It is composed of vegetable ingre-dients and does not heat or inflame the blood but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of Dr. Kennedy's FAVORITE REM-EDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business certificates never possess. It makes no drunkards—excuses no crimes breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Your druggist has it.
