Lightning Bolt Fell In Midst of Spectators.

Ena Saves Condemned Man - Czar's Fight With Parliament-Inspection of Fresh Meats - Trading Stamp Men Arrested-Restriction on Millinery-Standard Oil Methods.

During a baseball game in an open field three miles from Mobile, Ala., Sunday afternoon a thunderstorm came up, accompanied by vivid lightning, which struck in the midst of a crowd of spectators, instantly killing five persons and injuring about 25 others more or less seriously. The dead:

Donald Tourt, aged 21. Steven Touart, aged 19, sons of Steven J. Touart.

Arthur Moody, aged 19. Two negroes, John Green and Charles Thomas. Seriously injured: John Yonkers, Fred Johnson

At least 20 others were shocked and knocked down by the stroke. They quickly recevered and were able to leave the scene:

The field was strewn with bits of shoes and clothing from those who were killed or seriously injured and the bodies of the dead presented a terrible spectacle. A silver dollar taken from the pocket of one of the victims was melted on both sides.

Royal Wedding Thursday.

Spain will be given a new queen on Thursday, when Princess Ena of Battenberg, niece of King Edward VII of Great Britain, will be married to King Alfonso XIII of Spain. The ceremony will take place in the old church of San Jeronimo in Madrid and the state ceremonies and popular fetes will occupy the days until June 8.

The program for this week includes a gala banquet on Friday, and a flower battle and gala representation at the opera on Saturday. Representatives of many foreign governments will be present and an exceptionally brilliant gathering is assured.

Princess Saves Condemned Man. The first notable act of Princess Ena on her arrival in Madrid to become the bride of King Alfonso XIII has been to induce the king to pardon Fernandino Levera, who was condemned to death after an exciting trial.

The dramatic circumstance under which pardon was given, as the condemned man was going to the gallows, attracts widespread attention and further augments the popularity of

Levera was to have been executed in the neignboring town of Badajoz, but the population solicited Princess Ena's intercession and she spoke to the king, who consulted with the ministers and after a cabinet council the government resolved to grant the request, as it was the first petition the princess had made in Spain.

Thereupon the king issued a par don and a telegram announcing this fact reached the prison at Badajoz half an hour before the time set for the execution. The march to the scaffold was about to begin when a messenger brought word of the pardon.

Czar's Conflict With Parliament.

With breathless anxiety society in St. Petersburg awaits the government's response to the bold action of the lower house of parliament Saturday, which in censuring the ministry and demanding its retirement was like a deliberate slap in the face and a direct challenge, which the government, though inclined to prefer its usual policy of temporization and compromise, can hardly avoid meeting.

Parliament has burned the bridge and virtually has taken the step which the French states general did when it transformed itself into a national con-

vention. By flaunting the fundamental laws and practically declaring that it proposes to exercise ful parliamentary rights with a responsible ministry it has become in the eyes of the law a revolutionary body and from that po sition there seems no retreat.

The news of the action of the house came like an electric shock, the people generally being as greatly surprised as the bureaucracy at the promptness with which the whole of the government's policy was absolute-

The Constitutional chiefs are displaying calmness in the face of the crisis. They declare that having delivered their reply they purose to go calmly ahead with the work before them, forcing the government Elm to take the initiative.

The senate is counting upon a busy been made the unfinished business, will be pressed as steadily as circum stances will permit. In addition, conferees will be appointed on the rail road rate bill; the nomination of the president's assistant secretary, Mr. Barnes, to be postmaster of the city of Washington will receive attention, and the bill declaring a policy in the matter of the purchase of Panama canal supplies will be considered.

When the canal type bill is taken up Senator Kittredge will present the reasons which impelled the majority of the committee on interoceanic canals to report in favor of the sen-level plan It is understood that his address will be the first of a series on the subject. Sundry Civil Appropriation Bill. Work on the sundry civil appropriation bill will begin Wednesday in the national house. This bill is larger and carries more money than any preceding sundry civil act. The aggregate will be in the neighborhood of \$90,-000,000. The items relate to practically every branch of the public service and consequently have a bearing in nearly every congressional district. For this reason there will be many speeches, Chairman Tawney estimates that it will require fully a week to finish the bill.

Inspection of Fresh Meats. The senate has passed the agricultural appropriation bill carrying an appropriation of \$7,800,000 and without debate or objection added to it as an amendment the bill providing for an inspection of fresh meats intended for domestic consumption.

The provision is along the general lines of the law for the inspection of meats intended to be shipped abroad and the work is delegated to the bureau of animal industry.

It requires that acceptable meats shall be labelled and authorizes the destruction of condemned products. It also authorizes the inspection of all animals before they enter the packing houses and requires that those establishments shall be maintained in a sanitary condition, gives the inspectors access to all departments of them, and forbids interstate commerce in fresh meats which are not marked by the inspectors.

Trading Stamp Men Arrested.

On charges of having defrauded merchants of Philadelphia and vicinity by false pretence out of hundreds of thousands of dollars, L. A. Belmont, representing the Yellow Trading Stamp company; William Glenn, president of the Crown Trading Stamp company, and H. E. Winslow, local repre sentative of the Sperry and Hutchin son Trading Stamp company, were arrested and held in ball for a hearing.

The prosecutors charge that the trading stamp companies defrauded the retail merchants by representing that premiums given on a \$5 book of stamps were worth the full value, whereas the merchants claim that the premiums were not worth more than \$2 and in many cases were only worth 75 cents. Winslow and Glenn deny

The automobilists picked up the woman, carried her to the hospital and then hurried away without revealing their identity. The machine, the police think, belongs to a wellknown manufacturer of this city.

Farmer Jackson learned of the runaway several hours later, but did not know that his wife had been injured and supposed that she had gone to the house of a friend in the neighborhood. Late in the afternoon he started out in search of the horse, intending then to return for another wagon in which to bring Mrs. Jackson home. He found the animal in the stable of a friend about a mile away, and, mounting the horse, he started for home,

Being very nervous the horse acted badly, and Jackson struck the animal. At the first blow the horse bolted and picked up unconscious and hurried to the Frankford hospital, where he died shortly afterward. He was 69
