Findings of Department Investigators Sent to House.

Cassatt Owns No Coal Stock-Disastrous Tornado-Three Killed by Explosion of Oil Stove - Eleven Men Blown to Pieces - Murderer Killed

What is known as the department of agriculture report on packing house conditions was sent by the president the house. A part of this report is a letter dated April 5, 1906. from A. D. Melvin, chief of the bureau of animal industry, in which he says, commenting on the sanitary condidona:

"From personal observation I know that sanitary conditions at abattoirs where this bureau maintains inspection, while not always satisfactory, are much superior to those at the average establishment without such inspec-

Further he says that he knows that many diseased animals are not shipped to market centers where inspection is maintained. He advises the most rapid extension of the inspection possible, and says the demand for inspection is much greater than can be supplied.

The report concludes with recommendations for inspection legislation which seem to have been followed in the Beverldge amendment.

A supplemented report is made by the committee which is a comment on the "Jungle" articles in the London Lancet and other magazines.

"The process of slaughtering cattle and packing the product is carried on in Chicago on a colossal scale and it is true in many instances sanitary featares, such as light and air, are sacrificed to increase the capacity of the plants," says the report.

"The reference to special legislaion against Chicago by several foreign nations undoubtedly refers to the requirements of these nations that all pork from the United States shall be microscopically inspected for trichi-"The inference that horses are

slaughtered for meat in Chicago," the eport continues "is erroneous and without foundation in fact, so far as this committee is aware." As to sanitation, the report says

that inspection has been withdrawn from one Chicago slaughter house since the report of the committee of April 3 was made.

Some of the criticisms made in the 'Jungle" articles describing killing rooms are concurred in.

In reply to a statement in a magaine article that pork rejected for ex port is put up for the domestic market the report says: "This report is grossly misleading."

Cassatt Owns No Coal Stock. After concluding his answer to the Pennsylvania railroad investigators' circular. President Cassatt makes the following statement to the special committee:

"You will observe the only coal stock

owned by me since becoming president of the Pennsylvania Railroad company is 160 shares of the Millwood Coal and Coke company, which stock has been sold, but in view of the repeated rumors of my being a holder of stocks of the Keystone Coal and Coke company, the Berwind-White Coal and Mining company and the Henrietta Coal company, and of my being interested in the firm of Cassatt & Co., I think it proper to state that I never owned or had any interest in the stocks of the Keystone Coal and Coke company or of the Henrietta Coal company, nor have I ever had any interest in the firm of Cassatt & Co. I never owned any stock of the Berwind-White Coal Mining company while an officer of the Pennsylvania Railroad

Disastrous Tornado In Canada.

Thousands of dollars damage was done by a terrific wind and rain storm which swept over Ontario on Friday, Houses and buildings in several cities were twisted out of plumb by the wind. Chimneys were torn down, the streets blockaded with felled trees and other debris and general havoc was played. Two men were killed by falling of a

barn and a woman was killed by light-

ning near St. Thomas. It was reported that the wind storm reached the proportions of a cyclone around the race track at Hamilton. The horses were parading past the stand for the second race when the storm came up. They were sent back to the paddock and everybody sought shelter. The skies were overcast with beavy black clouds and the wind tore

Three Killed by Oil Stove Explosion. The explosion of an oil stove in a second-story apartment at Syracuse at noon on Thursday resulted in the death o. Mrs. D Davis, aged 16;

mrs. Homer Alexander, sister-in-law of Mrs. Davis, and Mrs. Davis' 3-yeardaughter Gladys, Mrs. John Wright and Mrs. Emmett Harris were slightly injured.

Mrs. Davis and her two children, Gladys and a baby 8 months old, were visiting Mrs. Alexander. While the wo women were preparing lunch over the stove it exploded. They rushed across the room to an adjoining room to rescue the children and their clothes caught fire. One of the women threw the younger child out a window and its life was saved. With Gladys they started down stairs, the clothing of all three on fire.

Ambulances carried the stricken ones to a hospital. There the child died at 1:30 p. m., Mrs. Davis at 5:30 and Mrs. Alexander late at night.

Eleven Men Blown to Bits.

Eleven men were blown to pieces and five others were seriously injured by the explosion of a dynamite plant Saturday near Pequea, Pa., along the Susquehanna river. The cause of the explosion is not

known. The two unknown residents of York county who were killed had fust started to drive from the place with a load of dynamite. They had scarcely gained a distance of 50 feet when the plant blew up with a detonation that was plainly heard 15 miles

The plant consisted of a dozen buildings. All were blown to pieces except a remove structure in which seven girls were at work.

The dynamite plant was owned by G. R. McAbee & Co. of Pittsburg and manufactured the explosive for the use of the Pennsylvania railroad construction work under way in that section. It was situated midway between Pequea and Martic Forge.

Conference Report on Rate Bill. It is not expected that the conference report on the railroad rate bill will again reach the senate in time for further discussion during the week.

There are many subjects of important legislation crowding for consideration in the house. The sundry civil appropriation bill still has the right of way, and if uninterrupted will be passed by Thursday.

Meat Inspection Amendment.

One of the early actions of the week will be the consideration of the agricultural bill with its worrisome meat inspection amendment attached. The plan is to get this bill into conference at the earliest possible moment,

Members of the agricultural committee have become impressed with the necessity for haste in any action to be taken. Continued and increasing injury to the live stock interests have been set forth to the committee with evident effect.

TENEMENT HOUSE FIRE

Caused Death of Four Persons. Others Are Missing.

Woman Overcome by Smoke Dropped Her Child From Third Floor Fire Escape-Bodies of Three Persons Found in a Top Floor Tenement. Ladder Fell With Fireman.

New York, June 12 .- Four persons are known to be dead and several others are missing as a result of a fire in a five-story tenement house at No. 209 East Ninety-Seventh street. Two firemen were injured by falling from the building and one of these is

not expected to live. Scores of thrilling rescues occurred, and just as the firemen were about to take a woman and her 2-year-old baby from the fire escape on the third floor, the woman fell, overcome by the smoke, and dropped the child. It was dashed to death on the pavement 30

The other bodies were found on the top floor of the tenement. All of them were so badly burned that they have not been identified.

feet below.

The firemen injured were: James Tauher of Engine No. 36, fractured ribs, fractured thigh and interial injuries, will die; Vincent Cahill, Truck No. 13, fractured leg, possible fracture of the skull.

Starting on the ground floor in a real estate office, the fire spread rapidly through the building, which was occupied by 21 families. Even before the alarm could be sounded the flames had blocked all means of escape from the upper floors save the fire escapes. Several women and children were taken from the fire escapes by policemen before the firemen reached the scene.

The house was then ablaze from cellar to roof and persons clinging to the fire escapes near the top of the building were rescued with the greatest difficulty.

A ladder which had been placed against the side of the building slipped when Fireman Tauher was near the top and the fireman plunged to the sidewalk. He was terribly injured and probably will die. Fireman Cahill fell from a fire escape platform at the third floor and also was severely injured.

The three persons who lost their lives in the flames occupied a tenement on the top floor. Their bodies were found after the flames had been subdued. Apparently they had been overcome by smoke before they could reach the fire escapes.

WRECKED BY OPEN SWITCH. One Car Went Over an Embankment

and Another Struck a Freight Car. New York, June 12 .- One man was killed and more than 20 other persons were injured yesterday when the locomotive and two cars of an Atlantic City express on the Central Railroad of New Jersey jumped the track at a switch at Eatontown, N. J.

The dead is George VanDuser, a vaudeville musician, of New York city, Mrs A Dunlap of Chicago was one of the passengers who sustained bruises and suffered from shock. Most of the other injured were New Yorkers and their injuries are not re-

garded as dangerous. The train, on which were many persons returning from a week-end outing at Atlantic City, was passing through Eatontown at a rapid rate of speed when a switch opened while the train was passing over it.

The locomotive and smoking car went over an embankment, the car turning on its side. VanDuser and most of those who were injured seriously were in this car. The day coach next behind struck a freight car which was standing on a side track and was badly smashed. Several of its pas sengers were badly bruised. Two Pullman cars which completed the train were not much damaged.

Liner Hard Aground on Shoals.

Cape May, N. J., June 12.-Witht nore than 1,000 persons on board, the American liner Westernland, from Liverpool and Queenstown for Philadelphia, is hard aground on the south shoals near the entrance to Delaware Bay. The steamer struck the shoals about 10:15 a. m. as it was about to enter the bay on the northt side. The shoals are about four miles off the Cape May shore and one miles north of the Overfalls lightship. Although the Westernland is hard aground the vessel lies in an easy position and strong hope is entertained that the i.eamer will be floated on the high from Andrew Carnegie for library en tide. There was practically no disorder among the passengers when the vessel grounded.

Oil Is Struck in Nebraska.

Lincoln, Neb., June 12.-Petroleum was discovered yesterday at the well of the Yankee Hill Development company, three miles from Lincoln. STUART HEADS TICKET.

Pennsylvania Republican Platform Deals at Great Length With State Issues.

Harrisburg, June 7. - The Republican state convention vesterday nominated a ticket headed by Edwin S. Stuart of Philadelphia for governor. The platform commends the national and state administrations; advocates legislation giving to trolley companies the right to carry freight; advocates a two-cent passenger rate on steam railroads and deals at great length on other state issues.

The ticket was the one agreed upon by United States Senator Penrose and other party leaders in advance of the convention. An attempt of certain country delegates to form a combination to break the slate failed. The ticket represents all the factions of the party and will, the party leaders believe, harmonize all past differences, *President Roosevelt is said to have advised the selection of such a ticket in the belief that it will help the congressional candidates.

WILL BUY OWN BONDS.

United States Steel Will Soon Issue \$50,000,000 Worth.

New York, June 9 .- Within a short time the United States Steel Corporation will issue \$50,000,000 of bonds the proceeds to be used for the building of the steel plant at the new city, Gary, Ind.

The bonds will not be sold to the public. The steel corporation will buy the whole issue out of its large cash surplus, which is now around \$90,000, 000. The yearly interest on these bonds will be about \$2,500,000, but this interest will go into the treasury of the company, so that all in all the issue is merely a matter of bookkeepinig.

The officials of the company figure that the profits from the new plant will be close to \$20,000,000 a year. The plant will be the largest and most modern in the world when completed It will take at least three years to get it in complete operation.

Ohio Girl Killed by Falling Tree,

Newburg, June 11. - Miss Ione M. Bunn of West Union, Adams county, Ohio, was killed here Sunday during a storm by a falling tree. Mrs. J. W. Bunn, mother of the girl, was serlously hurt and Hazel Coonan, aged 14, of Newburg had her leg broken and was hurt about the head. Miss Bunn, who was 24 years old and a graduate of Oxford College, Ohio, was in company with her father, Dr. James W. Bunn, and her mother. While walking along Grand street, a large tree was blown down by the gale and fell on the party. Miss Bunn's head was crushed by a limb. The party had been to Boston to attend the medical convention there last week and was en route home stopping over here.

Papers Ready For Application to Supreme Court.

New York, June 12.-Recorder Goff has denied a motion for a new trial in the case of Albert T. Patrick, the convicted murderer of William Marsh

Patrick's lawyers, it is said, were prepared for an adverse decision, and have the papers ready for an application to the United States supreme court for a writ of error and for a writ of habeas corpus. These applications would again delay the carrying out of the death sentence and would make ed battle between guards at the Plum the fifth postponement for Patrick. who has now been in the death house F. D. Coburn was appointed by Gov- in Sing Sing for more than four years.

The last resort in the effort to save Patrick will be an application to Governor Higgins for a commutation of the death sentence. The fact that the court of appeals sustained the verdict against Patrick by a majority of only one may be the chief argument before the governor.

Recorder Goff in his decision declared that not one of the grounds urged in the motion is sufficient cause to grant a new trial.

Of the witnesses who testified at the recent hearing concerning alleged man Shuttleworth. The injured man denials by Valet Jones of the testimony given by him at the Patrick trial, is Fred Schneider, a resident of the decision says:

"It would be taxing human credulity to a point beyond forbearance to even ask 12 men in a jury box to give credence to the witnesses who testified to the alleged admissions of Jones. Apart from the inherent improbabilities of their stories, the trace of a common design and surprises was unmistakable."
