A Paying Investment.

How can you invest your money to better advantage than in clothes that fit you properly, and at a price that will keep the dollars in your own pocket, instead of putting them in the other fellow's? It requires but little money to dress well if you let us make your clothes. We will make you a suit to order for no more than you must pay for "good" ready-made or about half what you would pay any other good tailor. A trial will surely convince you that Glasgow Woolen Mills tailoring is right in every way.
