The game was practically a pitchers' battle between Bankhead and Gray, in which the former had much the best of it. Bankhead's support, except in one inning, was fine. Gray's support was a little weak. But it was a good game and interesting to the finish. ## This Is a Good Fish Story.

C. D. Allen, a well-known hardware man of Grand Valley, Las a well-founded belief that there is nothing in the fish, flesh or fowl line that is as intelligent as a brook trout. Some time ago he caught three trout in a stream near that place. One of these was a foot long and was alive when Mr. Allen reached home. It was too fine a specimen to kill and eat and he put it in a tank of water in his warehouse. Mr. Allen made it a daily custom to catch flies and feed the fish and inside of 10 days the fish showed that it recognized the man and would come to be fed each time he approached the tank. Then Mr. Allen some time ago, went to Youngstown, O., took the fish out of the tank and deposited it in a hole in the small stream that winds through the town. Two days later Mr. Allen went to the hole and as soon as he companied by her mother, Mrs. Hugh put in an appearance the fish came to the surface of the water and showed evidence that it recognized him and was wating for its feast of flies. Others who have tried to get a sight of the big fish, have been unable to do so, as it sulks in the bottom of the deep pool, but rises readily when Mr. Allen visits the spot .- Oil City Derrick.

## About Wills.

No matter the size of your estate, you should leave a will. It not only directs but simplifies, and frequently relieves some very embarrassing situations. The drawing of a will and the making o changes in a will already drawn, are things that should not be postponed.

One of the most important matters in connection with a will is naming the Executor. Any individual named may decline to act, may be ill or have moved away, or may not live until his services are required.

Some men name their wives without realizing the amount of work and worry this throws on her just at a time when she is absolutely unfit to assume it. The average woman is not familiar with business affairs and has to rely on the advice of various friends. This advice is often conflicting; in short, the best results are not secured. The

OIL CITY TRUST COMPANY Offers its services in this, or any other trust capacity, thereby assuring you of a faithful and business-like management o your affairs.

## Unknown Friends.

There are many people who have used Chamberlain's Colic, Cholera and Diar-rhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends for its curas of diarrhoea and all forms of bowel trouble. For sale by Dunn 3
