PISO'S CURE FOR CONSUMPTION. CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists.

FIVE COACHES HELD UP

By a Lone Highwayman in the Yosemite National Park.

The Oil Lease Controversy—Runaway Car Killed 13 Miners—To Protect American Interests—Scientist Killed by an Automobile—Convicted of Giving Rebates.

Five Yosemite valley stage coaches were held up Saturday evening near the entrance to the national park in California by a lone highwayman who obtained a considerable amount of money and jewelry. The conveyances were halted in rapid succession at a curve in the road near Ahwahnee, at the identical spot where a bandit a year ago robbed several wealthy tourists of their valuables.

The stages Saturday were traveling sufficiently far apart to avoid each other's dust, and when the first vehicle reached the turn in the road the highwayman, whose features were hidden by a duster thrown over his head, stepped out, pointed a gun at the driver and commanded him to halt. Some of the men passengers screamed, while others began wildly to secrete their valuables.

The highwayman directed all passengers to throw out their money and jewelry, and when the order met with compliance he directed the driver to move on. The second stage arrived within a few minutes after the first and the driver and passengers suffered a similar experience. The process was repeated until all five coaches had been halted and robbed. Then the bandit disappeared in the brush. A dispatch from Berenda says the bandit has been captured.

Two Destructive Pests. State Entomologist E. P. Felt has mailed a placard to the postmasters of the state of New York illustrating the destructive gipsy and brown tail moths in their various stages and in connection therewith he has issued the following circular: "This matter is of vital importance to all residents of New York state, as the gipsy moth, a pest which has caused losses running into millions of dollars in Massachusetts, has already escaped from that commonwealth to New Hampshire on the north and into Rhode Island and Connecticut on the south, and is steadily making its way westward."

"Experience has shown that automobiles are very active agents in transporting this insect, and with their increased use in recent years no one can foresee where the pest may appear next. The brown tail moth is a more recent introduction and, unlike the gipsy moth, flies readily. It is not only a very destructive leaf feeder but the barbed hairs of the caterpillars cause a very severe irritation upon the unprotected skin. We earnestly bespeak the co-operation of yourself and residents of your vicinity in keeping watch for the appearance of these two dangerous pests."

The Oil Lease Controversy. Gov. Higgins explained his part in the controversy over the oil leases in Indian and Oklahoma territories, which has become a public question through the investigation made by Secretary of the Interior Hitchcock. When the governor's attention was called to a published article which stated that he had interceded with President Roosevelt in behalf of the oil operators, he said: "It is true that I have expressed my views to the president relative to oil leases in Indian Territory. I live in an oil country and many of my friends and constituents are interested in the oil business, migrating at various times from one oil country to another. "There has been a great deal of dissatisfaction over the manner in which the lease question has been handled by the department of the interior, especially in Oklahoma and Indian territories. The method is, as far as I know, unusual and I have so informed the president. "Among other suggestions I thought it would be wise for Secretary Hitchcock to advise with some practical oil men on the subject."

Runaway Car Killed 13 Miners. A runaway car, flying like the wind down a mine branch track that runs between Puritan and Portage, Pa., at midnight Tuesday, jumped the track a short distance west of Portage and crashed into a party of 20 foreigners who were holding a celebration along the track. Thirteen were killed instantly and without a moment's warning. Several others were injured. The car was smashed to kindling wood and the tracks were torn up for a hundred feet. The car was loaded with a motor consigned to the Puritan Coal company and had been left standing on a siding near the mine shaft. Mine officials give it as their opinion that striking foreigners loosened the brake and started the car down the precipitous spur, although another theory is that malicious boys sent the car off in a spirit of mischief.

To Protect American Interests. The U. S. authorities will take all proper precautions to prevent an uprising in Santo Domingo that would jeopardize American interests. It was stated at the navy department that in order to carry out Secretary Root's plan broached last week for a complete system of protection the gunboat

Mayflower has been ordered to Sar Domingo, where she will be joined by the Dixie with marines aboard and later on by the Tacoma. The result will be that an American man-of-war will be in every harbor of Santo Domingo where there is a custom house with an American collector installed.

Eminent Naturalist Killed by Auto. Professor Henry A. Ward, the naturalist, was struck by an automobile at Buffalo Wednesday and died two hours afterward. He lived at 620 Division avenue, Chicago. His son, C. H. Ward, lives at 327 West avenue, Rochester, N. Y. Professor Ward was 72 years old. He had been visiting for the day in Buffalo, where he had dined with a friend. He was on his way back to the railroad station to take a train for Wyoming, N. Y., his summer home when he was struck by the automobile. The machine was driven and owned by Alexander Gannell, a real estate dealer, who says that Professor Ward stepped directly in front of the machine.

In Rochester Professor Ward built up what was said to be the greatest natural history establishment in the world. His son continued his father's work along that line after Professor Ward retired from active life a few years ago. Since then he had devoted his time to travel and research. He was an authority on meteorites and had traveled over every continent of the globe in search of them. He was expecting to make another excursion into Africa soon.

Convicted of Giving Rebates. The Chicago and Alton railroad and John N. Faithhorn and Frederick A. Wann, former officials of the road, were convicted in United States district court at Chicago of illegally granting rebates to the Schwarzschild & Sulzberger Packing company. No sentence was imposed by Judge Landis pending the arguments for a new trial for the defendants which will be heard today. Under the law the maximum sentence of the court may be a fine of \$120,000 for each of the three defendants. No imprisonment provision appears in the law.

PREY OF A BOGUS LORD.

Heads of Mormon Church Taken In by Plausible Englishman.

Beresford Hope Came to Utah to Represent the "British-American Securities Company, Limited, London." Imposing List of Directors—Company Since Discovered to Be Fictitious.

Salt Lake City, Utah, July 10.—Officials high in the Mormon church here would be very glad to hear some sort of explanation from a man calling himself Beresford Hope, who represented himself to be an English nobleman and who, by presenting credentials which looked good on their face, succeeded in "promoting" several schemes in which they are financially interested. Hope was suave in his manner and plausible with his credentials. The result was that he succeeded in swindling the men who rule Utah's dominant church for sums of money that ran into many thousands of dollars.

Just how much money was advanced to the alleged nobleman on his various schemes is not known because of the natural reticence on the part of his victims. He is now in Boston "still standing pat." Hope worked on a large scale. His were no petty schemes. He came to Utah with a letter from the "British-American Securities company, Limited, London." The letter head of this concern, since discovered to be fictitious, set forth that the company was capitalized at \$10,000,000, or approximately \$5,000,000.

It had as its directors, among others, Lord Rothschild, who bore the title of treasurer; Lord Deerpur, the chairman; Right Hon. Lord Vaux, Lord Talbot, Lord Vincent, Sir Alexander McKenzie and several prominent in the world of finance. London does not know of such a company, a fact which was learned by the investors hereabouts only after they had made their investments.

Hope's letter from the British-American Securities company was to the effect that his credit was good up to \$500,000. It helped him greatly. According to an interview here with his former stenographer he used to dictate letters addressed to himself on the letter heads of the company with Boston date lines and other men's signatures affixed. All of these letters were most encouraging, as they gave him carte blanche in the matter of investing the money of the company.

With this as a working basis, Hope began to talk to people about his schemes. He found many willing ears. Among those who listened to the siren's tale were many prominent Mormons. President Joseph H. Smith, the head of the church, and by virtue of his job as prophet, as well as president of many large corporations here, allowed his name to be used by Hope among the lists of his several boards of directors. Whether President Smith invested any money or not has not been discovered.

Big French Loan to American Railway. New York, July 10.—An important loan to an American railway company was reported to have been concluded in Paris. Dispatches from Paris were to the effect that the negotiations for the loan, which have been in progress for some time had been successfully terminated. No details as to the transaction were made public, but it was generally understood in Wall street that the borrower was the Chicago, Milwaukee and St. Paul and that the sum involved was about \$50,000,000. President Miller of the St. Paul was not at his office in this city and other officials of the company denied knowledge of the loan.

Chief of Naturalization Bureau. Oyster Bay, July 10.—The president authorized the announcement of the appointment of Richard K. Campbell as chief of the new bureau of naturalization. Mr. Campbell has had long service as solicitor for the bureau of immigration. President Roosevelt sent to the Oyster Bay library four handsome volumes, being the old and new testaments illustrated by J. James Tissot. Every year since the president laid the corner stone of this library, he has sent a contribution. The governor's chair which he occupied at Albany comprises a part of the furnishings of the building.

Philadelphia Cricketers Ahead. Philadelphia, July 10.—In the first day's play in the annual cricket match between the Canadian and all-Philadelphia elevens here the home club scored 274 runs in their first inning and the visitors made 31 for five wickets when play was stopped for the day.

Opening of Congressional Campaign. Greensboro, N. C., July 10.—Secretary of War Taft last night before a meeting of North Carolina Republicans, on the eve of their state convention, delivered a speech that was generally anticipated as the opening gun of the congressional campaign of 1906.

Haywood Heads Socialist Ticket. The Socialist party of Colorado held a convention in Denver on the fourth of July and nominated a full state ticket, headed by William D. Haywood, secretary and treasurer of the Western Federation of Miners, now in prison in Idaho, for governor.

Chicago-Mackinac Yacht Race. On Saturday probably 20 yachts of various sizes will leave Chicago on a race to Mackinac, under the auspices of the Chicago Yacht club. Boats from Toronto, Toledo and Detroit are expected to compete for the prize, the Chicago Yacht club Mackinac cup.

Washing, O., July 10.—Mrs. Hannah Manley of Deer Lick, Greene county, has undergone amputation of her right arm following blood poisoning resulting from the scratch of a hen which she attempted to lift from a nest.

Belleville, Ill., July 10.—Farmers of Stoke township, this county, have filed claims amounting to about \$30,000 against the state for damages to their farms from the overflow of the Lewistown reservoir.

PIQUE DROVE HER FROM HOME.

Girl Failing to Win School Prize Don't Boy's Clothes and Joins a Street Show.

Connellsville, July 10.—Mary Sheedy worked hard all last term to win the medal for best scholarship at St. Joseph's Academy, Greensburg, and failed. When her failure was announced she disappeared and all efforts of her friends to locate her were in vain, although they offered a reward of \$100 for information concerning her. It was feared she had committed suicide.

Saturday she was picked up here, lurking about the streets with a carnival company showing in this city. She was attired in boy's clothing which was much too tight for her plump frame and her dress had at tracted a crowd of boys who drew the attention of the police to her. She at first denied her identity, but finally admitted who she was, but refused to say why she had left home.

The girl, who is 18 years old, is an orphan, her father having been killed in a wreck on the Baltimore & Ohio at Dawson two years ago.

WRECKS FAMOUS INDIAN RELIC.

Owner Destroyed "Painted Rock" to Be Rid of Crowds It Drew.

Washington, Pa., July 10.—"Painted Rock," a historical boulder which stood on the top of a hill overlooking the Monongahela river, near Millsboro, was blown up recently by dynamite by Joseph Horner, upon whose farm the stone was located. Horner destroyed the rock because he was annoyed by the thousands of persons which it attracted to his farm each year.

The boulder was in the shape of an altar, and had been carved by the Indians with figures of men, bears, wolves, snakes and, strangest of all, a kangaroo. For more than a hundred years it has been considered one of the most important remains of the written characters of the North American Indians. Columns have been published about it from the pens of eminent scientists and historians.

Boy Shoots His Brother.

Greensburg, July 10.—While hunting rats about a chicken coop at their home at Penn Monday morning Daniel L. Nesbitt, 11 years old, was shot and killed by his brother, 9 years old. The older brother carried a revolver and the younger boy, Dewey, a shotgun. Without looking where he aimed Dewey pulled the trigger of the gun and the lead took effect in Daniel's head. He fell dead. Dewey can give no reason why he pulled the trigger. The boys are sons of Edward Nesbitt.

War on Dogs and Cats.

Washington, Pa., July 10.—The day of the dog and cat is nearly over in East Washington, where Washington's aristocracy lives. A movement for the chasing of all dogs from this fashionable suburb is meeting success. A petition will be presented to council asking for an ordinance forbidding the keeping of dogs and cats in the borough. It is claimed that dogs deface lawns and nightly feline and canine elated dogs disturb slumber.

To Fix the Ice Trust.

Harrisburg, July 10.—Because of the exactions of the local ice monopoly a project is being agitated among merchants, ice cream manufacturers and butchers of Harrisburg by means of which they hope to take the ice situation in their own hands. It is proposed to get subscriptions to 1,000 shares of stock at \$25 each for the erection of a 20-ton ice plant to supply the shareholders with ice at reasonable rates.

Her Dream Came True.

Dunbar, July 10.—Mrs. Mary Busieth of Mr. Bradcock dreamed last Friday night that her death was near at hand. Sunday evening, as her husband stepped from the house for a few minutes, she remarked: "You had better not go away, for I am not going to live long." Busieth laughed at her fears, but when he returned from a neighbor's he found his wife lying dead. Her death is attributed to heart failure.

Death For Work Seeker.

Belleville, O., July 10.—Just as an unknown man stepped into the Union Portland cement plant and asked John Scott for work a coal grading machine exploded, killing Scott and the unknown man and fatally burning M. D. Thomas, another workman. Fire followed and damaged the plant to the extent of \$10,000. The plant is now in the hands of J. C. Cruikshank is president and J. C. Joss general manager.

Hen's Scratch Is Serious.

Washington, O., July 10.—Mrs. Hannah Manley of Deer Lick, Greene county, has undergone amputation of her right arm following blood poisoning resulting from the scratch of a hen which she attempted to lift from a nest.

Belleville, O., July 10.—Farmers of Stoke township, this county, have filed claims amounting to about \$30,000 against the state for damages to their farms from the overflow of the Lewistown reservoir.

SUMMARY OF THE NEWS.

Short Items From Various Parts of the World.

Record of Many Happenings Condensed and Put in Small Space and Arranged With Special Regard For the Convenience of the Reader Who Has Little Time to Spare.

Wednesday. The Chicago and Alton railroad and two of its former officials are put on trial on charges of giving rebates to packers. The Pennsylvania Railroad company house cleaning committee recommends the return by officers and employees of all gifts of coal stock. Misleading statements by detectives to Harry K. Thaw given him in order to prolong the drain on his purse are said to be the cause for White murder.

Inquiry into the cause of the wreck of the American line express train at Salisbury, England, was postponed by the coroner, and the railway officials offer no explanation of the disaster. Secretary Shaw announces at Washington the issue of \$30,000,000 Panama canal 2 per cent bonds on terms which will favor the small buyers and induce the general public to invest in the securities.

Thursday.

Harry Thaw's lawyers and friends admitted he had no immediate motive for the killing of Stanford White. The French chamber, according to a cable dispatch, has annulled the election of Comte Boni de Castellane on the ground of fraud. Indiana officials raided the French Lick Springs hotel, of which Thomas Taggart of the Democratic national committee is head, charging that gambling was permitted there.

William J. Bryan, who has arrived in London, says that a reception to him upon his arrival here must not be regarded in the light of an endorsement for the presidential nomination.

Friday.

Henry Watterson said that Bryan and Roosevelt will be candidates for the presidency in 1908 and that Bryan will win on the third term issue. Six persons were drowned in Lake Manawa, near Omaha, where over 100 persons, while watching a display of fireworks, were precipitated from a floating dock into 16 feet of water. The number of deaths from Independence Day celebration in the United States, according to the Chicago Tribune, total 38, and of injured 2,789. The injured exceed last year by 358.

The crew of the Club Nautique de Gand (Belgium) defeated Trinity Hall, Cambridge, by three lengths in the final for the grand challenge cup at Henley. The cup thus leaves England for the first time in its history.

Saturday.

Ten warships and 1,000 marines are watching Santo Domingo in the interest of the United States. Sir Edward Grey, foreign secretary, warned the British parliament that there was danger of a Moslem rising in Egypt. Wire tappers intercepting the result of the first race at Windsor, Canada, defrauded the poolrooms out of \$60,000 to \$100,000. Information has been filed in an Ohio court charging John D. Rockefeller and the Standard Oil company with conspiracy.

Warrants were issued in Pittsburg charging Augustus Hartje and two others of conspiracy in the Hartje divorce suit, in obtaining perjured testimony by bribery.

Monday.

A handwriting expert declared the famous letters in the Hartje divorce case, alleged to implicate Mrs. Hartje and her coachman were forgeries. France is aroused to a new storm of protest at the Dreyfus affair by the speech of Procurator General Baudouin, which revived interest in the case. The Chicago and Alton railroad and two of its former officers were convicted in Chicago of giving rebates to the Schwarzschild & Sulzberger Packing company.

Edgar E. Clark, grand chief of the Order of American Railway Conductors, is appointed by President Roosevelt as a member of the interstate commerce commission. Dismemberment of the Canadian confederacy is believed a possibility of the near future as a result of the diversion of traffic by United States railroads which are tapping the Dominion.

Tuesday.

In every city of New Jersey, except Atlantic City, saloon keepers observed the new law forbidding liquor sales on Sunday. Henry Watterson declared his belief that if Theodore Roosevelt runs for a third term he surely will lose Massachusetts. The American Line express, wrecked a week ago with terrible results, passed over the Salisbury curve at greatly reduced speed last Sunday. Fresh air camp for sick babies, the gift of John D. Rockefeller, to be opened in New York, is to be followed by others if it proves a success. Mrs. Christine F. Mackinnon and her two daughters lost their lives in a fire on the third floor of the Delahunt flats at 14th and Rhode Island streets, Buffalo.

WITNESSES IN THAW CASE.

Woman Said to Have Heard Thaw. Another Thaw Valet.

New York, July 10.—A witness whose testimony may be of considerable importance in connection with the Thaw case was found in the person of Warren Hammond, who at one time was employed by Thaw as a valet. Until today it had been supposed that when William Bedford, Thaw's regular valet, died, the testimony of the only person who had ever occupied the position of a body servant to Thaw had been lost irrevocably. Hammond, however, substituted for Bedford during three months when the latter was ill about three years ago.

Among the persons questioned by Assistant District Attorney Garvan was Charles Hartnett, who was employed by Stanford White as a secretary. While Mr. Garvan refused to say what the examination disclosed, it is understood that Mr. Hartnett's testimony tended to contradict the current reports of much that was discarded in Mr. White's private life.

A Mrs. Schwartz, who lives in West 32nd street and who is an intimate friend of the Thaws, will be questioned by Mr. Garvan today. It is said that shortly after Harry Thaw and Miss Nesbitt were married, Thaw threatened, in Mrs. Schwartz's presence, to shoot Stanford White.

Chamberlain's Political Retrospect.

Birmingham, July 10.—The celebration in honor of Joseph Chamberlain's attainment of 70 years was continued last night when 10,000 persons assembled in Bingley hall to witness the presentation of 120 addresses of appreciation of Mr. Chamberlain's political services. The addresses came from various parts of the United Kingdom. Replying to the speeches Mr. Chamberlain entered on a political retrospect. Alluding to the charge that he had often changed his opinions Mr. Chamberlain quoted William E. Gladstone, who once said that change was a sign of life and that it was only the dead who remained the same.

Independent Refiners Subpoenaed.

Pittsburg, July 10.—It was learned that subpoenas have been served upon Lewis Emery, Jr., Democratic and Lincoln party candidate for governor; J. P. Brockway of Warren, Pa., and W. P. Wislaka of Titusville, in one of the Standard Oil investigations by the interstate commerce commission. The above mentioned are cited to appear before the commission at Elmira, N. Y., on July 12. All are independent oil refiners.

Bulgarian Bands Annihilated.

Saloniki, July 10.—In the Konopliha district yesterday, Turkish troops annihilated three Bulgarian bands which had concentrated, killing 92 of them. The Turks lost 20 killed.
