Friday was the end of the hunting season for such game as wild turkey, deer, quail, pheasants, rabbits and squirrels. But you can continue to bag the big black bear with impunity until next March, but you mustn't kill more'n half a dozen of 'em in one day.

Slush ice began running in the river Monday night, and yesterday morning the back channel and mouth of the creek were closed with ice about an inch in thickness. This is the coldest spell of the season so far. Thermometers registered at zero at 6 o'clock yesterday morning.

A little gas but no oil was found in the well drilled by townfolks on the river bank in the borough, the drill having been shut down at a depth of about 450 feet, at which depth a fairly good green oil sand was struck. The gas would probably be sufficient to supply an ordinary household.

The employees of Wheeler & Dusenbury, at Endeavor, received their annual in the shape of big fat turkeys for Thanksgiving dinner. It required a toward 200 of the fowls to provide for each family, and the combined lot of the lot must have been 2,000 pounds.

The Ladies' Missionary Society of the Presbyterian church of Endeavor made the nice sum of \$225 at their annual fair, held Friday, Nov. 25d. The ladies of that society are faithful workers and you venture the assertion that there isn't another town of its size in these parts that can equal this record.

The Tidioute schools are to have a sewing department after the first of the year, which will be established and maintained by the Shakespeare Club, the most prominent literary club of the town. The department will be in charge of Miss Josephine Strong, who is well known to many of our young people, and it will be a great help to the girls of the school.

For the first time in half a century Pennsylvania's Governor elect is a bachelor. The honors of the Executive Mansion after January 1st will be done by Miss Cora Stuart, and one of Philadelphia's most accomplished society women. Unless his presence should be required, Governor-elect Stuart will not go to Harrisburg until he assumes office next month.

After the prayer meeting services tomorrow, Thursday evening, at the Presbyterian church, a congregational meeting will be held, at which it is hoped every member will be present, as well as all those who usually attend services at that church. Business of importance will be brought before the meeting in which all are interested, and it is hoped there will be a large attendance.

Bert Ficus, a 15-year-old Marienville lad, son of John Ficus, shot one of his thumbs off while out hunting, Friday. He was resting his gun on a log when it slipped, allowing the hammer to strike, and discharging the weapon. It was at first thought some of the shot had entered his body and the lad was taken to the Kane hospital, when it was found his injuries were not as serious as had been supposed.

Attention is directed to the reading notice of the Indiana, Pa., Normal School, in this issue of the REPUBLICAN. This is one of the finest institutions of learning in the State, having many advantages not possessed by any similar school. If you have in contemplation the sending of your son or daughter to a first class school, it will be to your advantage to write for information which the principal will cheerfully give.

At an election of officers of Stow Post No. 274, on Monday evening, the following officers were elected and compose the roster for 1907: Commander, Charles A. Hill; S. V., Geo. W. Boward; J. V., Solomon Fitzgerald; Quarter Master, S. Criswell Johnston; Chaplain, Ben. F. Feit. Other subordinate officers will be detailed on installation night, which will be set sometime early in January. Geo. W. Robinson was elected delegate to the State encampment, and Samuel D. Irwin, alternate.

If you want to make an absent relative or friend, removed from Tionesta to some other town or city, an acceptable Christmas gift, you cannot do better than present him with a year's subscription to the REPUBLICAN. The pleasure of most gifts is soon forgotten but not so with the home paper. The news it contains is of daily interest all the year round. Remember your children, brothers, sisters and friends who have taken up their homes elsewhere by sending them the REPUBLICAN for 1907.

Sheriff McElhinney has learned the correct name of Holl Smit, accused of killing John Balk at Franklin last Saturday night, is Ale Lukkie. He also learns there is a reward of \$2,500 for his capture offered at his former home, Detroit, Michigan, for murder and assault upon a fellow workman. It is said that Luki or Smit has money on deposit in the Bank of Franzati, Pittsburgh. An effort will be made to apprehend him should he make his appearance at the bank.—Blizzard.

Robert P. Kane, the last of three distinguished members of the Kane family of Philadelphia, died at his home in the Quaker City Wednesday. He was a brother of Eliza K. Kane, the celebrated Arctic explorer, and of Major General Thomas L. Kane, the founder of Kane, in McKean county, and colonel of the celebrated "Backtail Regiment." Robert P. Kane was born in Philadelphia in 1827, and was the oldest living graduate of the High school in that city. He was a lawyer by profession, and a successful one.

Less than three weeks remains before Christmas. The merchants in anticipation of big business, have provided themselves with very large stocks of goods. The rush during the two weeks immediately preceding the holidays will be unprecedented. Therefore, in order to avoid the annoyance incident thereto, wise buyers will proceed to make their purchases early, when the stocks are unbroken and the clerks have more time to devote to their customers. The argument in favor of early purchases are so apparent that the chances are a large proportion of them will be made before the final rush.

For some time there have been no final papers of naturalization granted in Forest county on account of the new law passed by the last Congress. Hereafter the system of naturalization will be uniform throughout the United States. In many particulars the procedure does not vary from what has been in effect in this judicial district for many years. The applicant, or alien, must reside in this country five years before he can present his petition for naturalization. He must also file his declaration of allegiance two years prior to presenting the final petition. It is necessary that the applicant be able to speak the English language. Heretofore an alien could go before an agent in the State and make application for citizen-ship, now it is specified that final papers must be filed at least nine weeks before the sitting of court, and the first applications for naturalization under the new law will be acted upon at the February term of court.

Curtis Jones and Will Ewing killed a 250-pound bear at a regular "crossing" on the road about two miles this side of Guiltonville, on Thanksgiving day. It is said the animal showed fight before it was finally obliged to give up, having been hit five times with Winchester rifle balls. The present snow is affording bear hunters excellent opportunities for pursuing their favorite sport, and the slaughter is apt to be quite large while the snow lasts, bear being unusually plentiful this season. One was seen early Saturday morning near the public road a short distance from the pump station located on Little Tionesta creek.

Jay Range, of Stewart Run, whose arm was badly torn in a cog gearing on election day, is doing nicely at the Titusville hospital under the care of Dr. Hugh Jameson. He spent Thanksgiving with his parents at home and returned to the hospital Saturday afternoon. He has some control over the ruptured triceps muscles and can move his upper arm considerably. The elbow joint is still stiff but that will come right as the wound heals and the inflammation disappears. The granulations are perfect and there is no reason why he should not recover the full use of his arm. This information will correct certain disquieting rumors which had been circulated in the vicinity of the boy's home.—Titusville Herald.

No town will become a good business centre so long as its business men rely on a few merchants to make the effort to bring trade to town, says the Brookway Record. Too often the men in a few lines of trade are about the only ones that go out after custom. Other merchants will wait until these men induce the people to come to town and content themselves with trade that naturally drifts to their place. A public-spirited man should ask himself if he is doing his part to attract people to come to town to trade in helping the entire business community, and not town is a success unless all lines are working to extend the trade as far as possible and trying to bring a larger territory in the circle in which the town is the business centre.

Word was received in Franklin Sunday afternoon of the death of Hon. John S. McCallmont, which occurred suddenly Sunday morning at his home in Washington, D. C. He was 85 years of age, a veteran of the Civil War and for many years one of the most prominent residents of Venango county. He served for several terms as President Judge of the 15th judicial district, which was composed of Clarion, Forest, Jefferson, Mercer and Venango counties. In 1849 and 1850 he was a member of the Assembly, the last year serving as Speaker. He also held a number of important public offices. Since 1889 he has resided in Washington, D. C., having been associated with his son, Edwin S. McCallmont, in the practice of law. The body will be brought to Franklin for burial.

Rather than stop its trains at Arnold, the Allegheny Valley railroad will discontinue local service and a tract of four acres will revert to the heirs of Robert Arnold. When the railroad was extended up the valley Arnold deeded the tract to the company with the understanding that all trains should stop at the little borough. For years the pact was religiously kept. A year or two ago the railroad company changed its schedule and some of the faster trains went flying through Arnold. Later the company ran almost all its trains through without stopping. The heirs instituted ejectment proceedings in the Westmoreland county courts and the railroad company gave notification that it would not oppose the suit. The four acres have accordingly reverted to the heirs and the Arnold station will be razed.—Franklin News.

A distressing fatality occurred at Fryburg, Clarion county, on Saturday afternoon, when John McCauley, aged 15 years, son of James McCauley, of that place, was accidentally shot by a younger brother, dying shortly after being wounded. The brothers and some other lads of the neighborhood were in the barnyard, at the McCauley home, when a squirrel was routed and took refuge in a tree. John McCauley climbed the tree to catch the animal and his brother went to the house and secured a double-barrel shot gun. When he reached the tree with the weapon he dropped it and one barrel was discharged, the shot taking effect in the shoulder and neck of his brother, who fell back in a crotch on the tree and hung there until an uncle was called from the house and lowered him to the ground, where he died after gasping once or twice. The funeral services will be held at St. Michael's church, Fryburg, at 9 o'clock, on Wednesday morning.

For a Board of Trade.

A large number of our representative citizens gathered at the council room on Tuesday evening to consider the question of the organization of a Board of Trade for Tionesta. A temporary organization was effected by the election of E. W. Bowman as chairman and J. B. Mose as secretary. Brief speeches were made by a number of gentlemen showing the urgent need of such an organization. A committee on organization, constitution and by-laws was appointed, consisting of Dr. J. C. Dunn, C. A. Randall, R. M. Herman, Chas. Clark and S. S. Sigworth. The meeting then adjourned to meet at the court house next Wednesday evening, Dec. 12th, at 7:30 o'clock, when the committee will report. Let every citizen who has the welfare of the town at heart attend this meeting. The committee asks that all the business houses be closed on that evening, so that all may attend. Remember the hour and be prompt.

Last Friday at 9:40 a. m. fire broke out in the house owned by John Jackson, of Gusher, and occupied by A. E. High-gates and family. The fire is supposed to have caught by an over pressure of gas and by the time help arrived it had made such progress that nothing could be done to save the building, but by hard work some of the household goods were saved.

The family lost all their wearing apparel, bed clothes, dishes and eatables. The loss of the house falls quite heavily on Mr. Jackson, who had no insurance.

Hunters are still quite numerous in our locality and Messrs. To send a card asking for our catalog, setting forth the advantages enjoyed by the students who attend The State Normal at Indiana, and it may be the turning point in the life of your son or daughter. An education obtained in a good normal school fits for life and business, as do other schools, but its diploma has a peculiar legal value that should not be overlooked; it makes its possessor a legally qualified teacher in the State for life.

None of us can look very far into the future. Your daughter may not need to teach now, and may lay her normal diploma away, never intending to use it. But some disaster later in life may make it necessary for her to earn her living, and that diploma would prove her most valuable possession. In it not best to be educated in a school whose diploma has such value?

The Indiana State Normal was founded by the General Assembly in 1871; it is one of the best known schools of its kind in the land, and the expense of attending it is as low as can be found in any first-class institution of learning.

Our Winter Term will open January 1. If you desire full information about this school, address the Principal, James E. Ament, L.L. D., Indiana, Pa.
