With the finding Sunday of the personal effects of the man who threw the bomb in the Fourth Street National bank at Philadelphia on Saturday, killing Cashier W. Z. McLear and himself, there is little doubt left in the minds of the police that he was Rollo Steele of Garner, Ia.

The bomb thrower is found to have slept Friday night at the Grant House, a hostelry on the outskirts of the Tenderloin, frequented mostly by respectable working people. He regisered as J. R. Steele of New York. Early on Friday night he engaged a 50 tent room. He carried a grip which to refused to allow the colored porer to carry to the room.

When detectives searched the room unday they found several yards of ow fuse, a number of detonating ps, a revolver, a box of cartridges, a imber of tools and some clothing. here was a suit bearing the tag of a ilcago clothing house and a pair of eralls marked with the name of a ourg, Va., merchant. There was nelburg, va., merchant. the Southern railway.

As Rollo Steele is reported to have been in Chicago and Lynchburg, and at the latter place lately, the police are practically sure of bomb thrower's identity.

It is probable that none of those 19, I, O, O. F. ning, in Odd iding. hurt by the explosion will die. Willlam J. Crump, the negro messenger of the bank, is the most dangerously injured and was on Sunday operated on to save his eyesight. His eyes will

never regain their normal state.

The police Saturday found a bunch corps, No. of keys in a fragment of the clothes of the bembthrower. It bore a tag marked "R. Steele, Garner, Ia." A badge of the Modern Woodmen of the World was also found which, it is thought, belonged to him.

Those who know Steele vell say that for some time he had been experi-ER. S-AT-LAW, Tionesta, Pa. menting with explosives and electric batteries. He frequently talked in a way that indicated thoughts of violent

I KX ON STOCK TRANSFER

Declared Not Unconstitution rt of Last Resort.

Disposed of All the Ob-Justice t jections in the Statute—Case Was Brought of Citizen of Connecticut to Secure Reversal of Rulings of New York Courts.

Washington, Jan. 8 .- In deciding the case of Albert J. Hatch versus Ed-ward Reardon, the latter a peace offi-cer of New York, favorably to Rear-don, the supreme court of the United States passed upon the validity of the stock transfer tax law, in effect holding it to be not in contravention of the constitution and thus sustaining the decision of the supreme court of New

York.

The case was brought by Hatch on a writ of error to secure a reversal of the rulings of the New York courts by which he was refused release or writs of haveas corpus. The statute imposes a fine and imprisonment for failure to pay the requiste fee on all

stock transfers made in the state.

Hatch is a citizen of Connecticut and it is charged that in June 1905, he sold to another Connectice man some shares without affixing samps. When arrested Hatch immediately applied for a writ of habeas acrous and car-ried the matter to the court of last re-

The question raised was that the enforcement of the law would deprive one of liberty and property without due process of law, while it was argued that the New York state constitution had also been violated in that the amendment to the tax laws under which proceeding falls had lain for only one day instead of three on the tables of members of the New York legislature.

Justice Holmes di posed of all the objections to the New York statute in succession. Of the contention that a tax on sales is a tar on property, he said in part; "Whaever the right of parties engaged in commerce among the states, a sale depends in part on the law of the state where it takes place for its validity, and in the courts of that state, at less for the mode of proof. No one would contest the power to enact a satute of frauds for such transactions. Therefore the state may make parties pay for the help of its laws, so far a this objection is concerned."

With reference to the argument that the tax is an interference with interstate commerce he putlined the court's position as follows:

"There is not a shadow of a ground for calling the transaction described such commerce. The bargain was not affected in any way, legally or practically, by the fact that the parties happened to have come from another state before they nade it. It does not appear that the petitioner came into New York to sell his stock, as it was put in his behalf. It appears only that he sold after coming into the state. But we are far from implying that it would have made any difference if he had come to New York with the supposed intent before any bargain was made."

POSTOFFICE FRAUD OF T'S. House Passed a Bill Providing For Judicial Review

Washington, Jan. 8. - The house passed a bill providing for a judicial review of orders excluding persons from the use of the United States mail facilities, after a debate lasting most of the session. This debate was participated in by Representatives Crumpacker (Ind.), the author of the bill; Overstreet (Ind.), Dalzell (Pa.), Littlefield (Me.), Perkins (N. Y.), and Mann (III..), who led the opposition.

In arguing that the bill should be passed, Mr. Crumpacker said the power given the postmaster general, under the statutes, to issue fraud orders was not all in the nature of administrative' discretion. It partook rather of the nature of a police power for the regulation of the morals of the people of the country.

Mr. Manu read several advertise ments which he said seemed to show that concerns were still doing business which ought to come within the scope of fraud orders. He said the bill was defective and that there should be no permitting doubtful con-cerns to fleece the public,

Judgment Against Hyde and Others.

Albany, Jan. 8.-The court of appeals affirmed by default the interlocutory judgment of the lower court overrule ing the demurrer of James Hazen Equitable Life Assurance society to the complaint of Mary S. Young of Saratoga Springs. Mrs. Young sued to compel restitution of funds of the society which she alleged were wasted during the Hyde administration. Attorneys for Mrs. Myde sought to have the court merely dismiss the appeal, but to this former Senator Brackett, counsel for Mrs. /Young, objected and judgment was entered. An appeal involving practically the same parties, that of Young ws. the Equitable Life Assurance spelety, Alexander and others, is down for argument in the court of appeals today.

Later in Chicago he told John Mitchell, pres ident of the United Mine Workers, that he was going to New York city. Mr. Mitchell saw in the papers an account of the robbery and that Stinson was suspected. He telegraphed to Mr. Kennedy, who notified the Net, York police. Stinson was arrested as a vagrant at Mt. Finding Most Interesting Chapters. Women as a class are credited with having no scruples about opening a book at the middle or end or anywhere else they may expect to find the most interesting chapter. A frequent fem-inine visitor at libraries was overheard revealing to a friend of her own sex her secret of locating at once the most thrilling chapter in any book, no matfer how unfamiliar one may be with it. "You simply close it tight," she said, "and glance along the edge of the leaves. It is seldom, indeed, that you do not notice a distinct line, or even more than one, caused by a number of edges soiled slightly more than those about them. Open the book there and you have the best chapter." A librarian explained this by saying that the reading and rereading of the particularly interesting chapters of a book naturally cause certain pages and their edges to be more soiled. Of course the longer the book has been in circulation the more distinct are the marks,-Philadelphia Record.
