In the calendar year that ended December 31 the revenue of the government was ahead of expenditures \$59,000,000. Secretary Shaw's estimate of \$58,000,000 surplus for the fiscal year that closes June 30 next is likely to be exceeded.

THE Dingley law will be a decade old this year. It has made good as the most wisely planned tariff legislation the country has ever known. Its "revisers" should take need lest they prove themselves to be bungling destructives.

THE latest prosperity advice of Secretary Shaw is "to be of good cheer and try to be conservative in everything except thankfulness," The secretary sees no cloud in the sky except freight congestion, and a remedy for that can be devised by American resources and enter-

PRESIDENT ROOSEVELT'S message to Congress on his act, discharging the negro soldiers for shooting up a town in Texas, shows many precedents for his action in this matter. Those colored soldiers who shielded the real murderers are just as guilty as the murderers themselves, and whether white or black, they were a disgrace to the army and were properly discharged without honor.

WHAT America needs more than railway extension and western irrigation, and merchant marine, and a new navy, is a revival of piety, the kind mother and father used to have-pie'y that counted it good business to stop for daily family prayer before breakfast, right in the middle of harvest; that quit field work a half hour earlier Thursday night, so as to get the chores done and go to prayer meeting; that borrowed money to pay the prescher's salary. That's what we need now to clean this country of the filth of graft and of greed, petty and big; of worship of fine houses and big lands and high office and grand social functions. What is this thing we are worshiping but a vain repetition of what decayed nations fell down and worshipped just before the light went out? Read the history of Rome in decay and you'll find luxury that far excelled even New York extravagance. Great wealth never made a nation substantial nor honorable. There s nothing on earth looks ou dangerous for a man or a nation to Drovers' bank is still disposing of his bandle as quick, easy, big money. If coal holdings in Greene county to raise you do resist its deadly influence the chances are that it will get your son. It gations: Yesterday he and his wife takes greater and finer heroism to dare jointly disposed of 100 acres in Wayne, to be poor in America than to charge the earthworks in Manchuria.-Editorial P. ### New Pure Food Law is Strict.

On the first day of the year the pure food and drug law enacted by Congress at its last session became effective. The following facts gathered from the new enactment are presented by the Blizzard, and will interest most of our readers:

It is istended to end the practice of and endanger bealth.

The girl fainted after the a fine of not more than \$500, one year's shots were fired and has not recovimprisonment, or both, with the amount ered consciousness. Her condition is of the fine doubled for the second offense. critical.

The word "drug" as used in the law pertains to all medicines and preparations recognized in the National Formulary for internal or external use, and any aubatance or mixtures of substances used for the cure or mitigation of disease of either man or animal, Drugs that do not come to the standard of strength as provided by the National Formulary, are wwn persons. Muriatic acid was looked upon as adulterated, except where their strength, purity of quality be stamped upon the wrapper or box cover. Also if the drug falls short of the standard or quality under which it shall be sold, it is considered as adulterated. The labels of all bottles or boxes containing drugs or admixtures and in which there is alcohol or poison of any kind must state the formula and the amount of alcohol or poison in the mixture. If the goods are manufactured as compounds, imitations or blends they must be so iabeled so that the purchaser can tell just exactly what he is getting.

Any druggist found offering for sale any drug that comes under the ban of the act, is held personally responsible for the violation unless he can produce the guarantee of the manufacturer from whom the goods were purchases, in which their purity and non-adulteration are vouched for. In this case violation does not hold against the retailer, but against the wholesaler. All goods held by retail dealers at the time the law went into effect, will be stamped "on hand December 31, 1906," which will show that they were not purchased after the law became active, thus freeing the dealer from any liability of prosecution. For weeks past wholesale houses over the entire state have been sending out to the trade guarantees of the purity of the goods sold by them, in order that the retailers may experience no unessiness in purchasing.

The law as a whole is expected to revothe drug trace, eventually "te imposters and unseruINSANITY PLEA FOR THAW.

His Mother, It Is Said, Has Been Wor

Over to Favor It. New York, Jan. 8.-According to Pittsburg dispatch to The Times, act ing upon the advice of some of the most famous legal lights in the country, both as attorneys and friends, Mrs. Mary Thaw, mother of Harry Ken dall Thaw, has decided that to save her son a plea of insanity will have to be entered for him.

The latest persons to advise Mrs. Thaw to follow this course are United States Senator Philander E. Knox of Pennsylvania and Justice McKenna of the United States supreme court. This information comes to a person who is very close to the Thaw family. Mrs. Thaw has at last decided to adopt this course, if it is possible.

Harry K. Thaw is not to be told of be made plain to him that the insant ity plea is the only one that is safe for him. If he does not consent to adopt it, his relatives, it is said, will withdraw from the case.

Senator Knox and Justice McKenna are both old friends of the Thaw family. Mrs. Thaw visited them and pleaded with them to advise her, not as attorneys but as friends, as to the best course to pursue.

DEAD FINGERS CLUTCHED BIBLE.

While on Way to Church Train Kills

McKeesport Bookkeeper. Pittsburg, Jan. 8 .- With his stiffening fingers tightly clutching his Bible, Gaylord D. Edmundson of Beaver street, McKeesport was picked up from the Baltimore & Ohlo railroad tracks early Sunday night in a dying condition just after he had been struck by a westbound passenger train. He died five minutes later in the McKees-

port hospital.

Mr. Edmundson was 55 years of age and was on his way to church. The accident occurred at 13th street, the "hoodoo" crossing, noted for its fatalities. Mr. Edmundson was forced to walk on the railroad tracks to avoid the muddy pavements and had just stepped out of the way of an eastbound freight train when the passenger train struck him.

Mr. Edmundson was a bookkeeper. His daughter, Edna Edmundson, went to church in a car and did not hear of her father's death until after the services. He is survived by his widow, one son and daughter.

Fireman's Terrific Leap.

Pittsburg, Jan. 8 .- During a \$4,000 blaze at a McKees Rocks dwelling Sunday aftermoon a gas explosion shattered the house and cut off the escape of Walter Richards, a fireman of hose company No. 2. Richards leaped from a third-story window, alighted on the roof of a porch and rolled uninjured from the porch to the ground. Leaking gas pipes caused the blaze which was in the home of Fred Glauser on Island avenue. A general alarm summoned all the firemen in McKees Rocks and Esplen. Mrs. Glauser, an invalid, was carried out to a neighbor's suffering from shock.
