In what was to have been a 15-round boxing contest between Kid Leibrich, of Titusville, and Young Griffith, of Dayton, Ohio, before an Erie audience Monday night, the "Kid" was knocked out in the first round, and is said to have been completely outclassed.

Attention is directed to the ad. of the Indiana, Pa. State Normal School in this issue. It is one of the first institutions of learning in the State, and is rapidly growing in popular favor under Dr. Jas. E. Ament, the Principal. Write him for catalogue and full information.

Be as careful to keep the weeds out of the minds of your children as you are to keep them out of your garden. But remember something will grow there. If you don't plant them with good grain, the tares will take root in spite of you. Keep a library of good clean books, and by all means keep your home paper before them.

The snow fall of Sunday afternoon was doubtless the heaviest of the winter. Nearly six inches fell in less than that many hours, and was welcomed by teamsters, lumbermen and all having heavy hauling to do, and they have lost no time in taking advantage of the improved condition to get their wares to the shipping points.

Last Sunday morning Rev. Edwin L. McIlvaine offered his resignation as pastor of the Presbyterian church of this place, to accept the unanimous call tendered him to become pastor of the Presbyterian church at Ridgway, the same to take effect on March 31st, at which time he will preach his farewell sermon.—Emmenton News.

The littlest girl in the class was reading laboriously. "See Mary and the lamb," she read slowly. "Does Mary love the lamb, buttonhook?" "Why do you say buttonhook?" asked the teacher. "Picture of a buttonhook here," replied the child, pointing triumphantly to the interrogation mark.—Woman's Home Companion for March.

James Haslet has been scoping in a few prizes on fancy poultry at the big shows lately. Week before last at Rochester, N. Y., in the Partridge Plymouth Rock class he was awarded first prize on cock bird, and last week, at the big Pittsburg show he won first prize both on cock bird and hen. James believes these birds will win at any show in the United States as they score up almost perfectly.

Ernest Upton, who has charge of the Epstein lease near Lynch, narrowly escaped being killed or seriously injured at this place Tuesday. He had been to Kane to purchase some oil well tool, and had expressed to this place. The expressman failed to put the tool off and closed the door of the car. Upton noticed it just as the train was starting and ran to the express car door. When he reached the car he lost his footing and slid under the moving train. In reaching for some support or protection his hands grasped the iron rod under the car and he showed himself clear of the track and wheels. It was certainly a close call.—Sheffield Observer.

Oil City has it, too. Listen to this from the Derrick: Some local politicians engaged in the earnest discussion of "who would have charge in case the President and Vice-President of the United States should die simultaneously?" Most of them decided that the Secretary of State would be the one eligible. They acknowledged their error when the man propounding the query announced that "the undertaker" was the correct answer.

Lewis A. Albaugh, in his 33d year, died at his home in Oil City, Thursday morning last, from spasmodic asthma, after an illness of several weeks' duration. The deceased will be remembered by many Tionesta people as having resided here with his brother, George Albaugh, about 25 years ago. He was constant in his ward at the time of his death. The funeral, conducted by Rev. R. A. Zahniser, of the Free Methodist church, was held on Saturday.

The Tidoute News was thirty-three years old on Washington's birthday, the paper having been guided almost this entire time of a century by the present owner, Charles E. White, who says, like Washington, it has never told a lie—hardly ever—which we guess is no lie either. The News has been clean, honest and fair above the average of county weeklies, on account of which it has enjoyed a good patronage and a good standing in its community. And we wish for it a continuance of fair weather and smooth sailing.

There is a bill before the legislature known as the Nurse Registration bill, which should be put promptly to sleep. It provides for the registration of nurses before they can enter upon their duties as such, and places the matter in the hands of a few nurses who may accept or reject applicants for registry. In other words the bill seeks to create a nurse monopoly. A schedule of rates is provided in the bill, which practically puts the question of nurse hire out of the reach of those in ordinary circumstances. Surely the legislature has better sense than to impose such a measure on the people.

A note from a friend at Arrow, Somerset county, Pa., gives an account of a big cut of lumber made on the Babcock mill at that place. Scott Kearns is superintendent of the mill: "February 1st the short side and gang mill cut 1,222 logs, with Ass Barnaby as sawyer, and James Beatty (formerly of this county) as filer on the gang. This beats the largest cut ever made on the mill by 250 logs. On the same day the long side also made a big cut of 24-foot logs, the output being over 140,000. Floyd Fetter was the sawyer and Webster W. Underwood filer. I tell you here is where they cut the lumber with a successful superintendent, filers and sawyers. PUCK."

Alfred Cunningham, well known to many of our readers as a former resident of this county, died at the Franklin hospital Sunday evening of typhoid pneumonia. The deceased was born at Fryburg, Clarion county, Feb. 3, 1874, and was a moulder by trade. He was a young man of industry and good habits and popular with fellow employees and social associates. His parents died some years ago and he is survived by the following brothers and sisters: Mrs. Ellen Stahl, Lucinda; Mrs. Richard Cogan, Crown; Miss Mary Cunningham, Oil City; Wm. and Richard of Marienville; Edward, Joseph, Matthew, James and John of Kelleetville, and Frank of Pittsburg. The funeral services will be held at St. Michael's church, Fryburg, this Wednesday morning.

J. W. Lusher, of Titusville, G. S. Hastings, of Tidoute, and W. B. Poor, of Shamburg, were business visitors in Tionesta last Thursday, and while here Messrs. Lusher and Hastings sold to Mr. Poor the tract of timber in Hickory township known as the old Braceville tract. The tract is on Beaver run, six miles east of Endeavor, and is part of Warrants 5218 and 5233. The tract contains 1144 acres, on which there is estimated to be about a million and a half of merchantable pine, red oak, white oak and chestnut timber, and about 30,000 railroad ties. The timber was cut off twenty-two years ago, but there remains much of value, both in old timber and in second growth. The consideration was private, but is understood to have been a rather fancy figure. In the near future Mr. Poor will begin lumbering operations there.

The Cambridge Springs Enterprise is responsible for the following: "The announcement some time ago of an apple having been produced with one side sour and the other side sweet has been thrown into the dark shadow by a greater discovery of a local horticulturist. This gentleman has been experimenting for some time by grafting the apple twigs upon the chestnut tree but until lately has never succeeded in getting anything of value. All previous attempts have only produced a small sour apple covered with a very thick prickly skin very much resembling a chestnut burr. The result that has so long been looked for has been accomplished at last by grafting the top limbs of the Baldwin apple tree upon the lower branches of a second growth chestnut and must be done while the moon is full. The fruit so far produced is the size of a large naval orange, but instead of the usual core the centre of the apple is filled with a handful of ripe plump chestnuts.

H. H. Wilson, of Townsville, was in the city on Monday seeking a photograph of the famous Indian God Rock, which is located along the river two miles below the mouth of East Sandy creek. Some time ago he received a letter from the Smithsonian Institution at Washington requesting him to get a photograph of the rock in order that the mysterious signs, or hieroglyphics, might be interpreted. Mr. Wilson did not succeed in getting a likeness of the rock and requests that any person who may have one will please communicate with him or notify this office. Mr. Wilson said he visited the rock last fall and found that it had been terribly defaced by persons who had carved their names or initials on the huge stone. Between this and the effect of the ice and water on the rock, the characters had become so nearly obliterated that it was impossible to distinguish them.—Franklin News. Scores of people in this section, who have seen this rock when it was at its best will regret to learn that it is fast "going to rack," as it were, by the operation of the elements and vandals.

C. A. Asterlin, the gentlemanly district passenger agent of the popular Nickel Plate railroad, was in Tionesta last Wednesday in the interest of his road. The Nickel Plate's patronage for this section has been quite extensive heretofore, and with such affable men to manage its affairs it is bound to continue to receive the lion's share of business.

The friends of ex-Sheriff C. B. Bowman will be glad to learn that he has assumed charge of the office and yards of the Kel-Bow Lumber Co., at Penokee Siding, Pigeon postoffice, on the B. & O. narrow gauge, above Marienville several miles. The Sheriff was in town a couple days the first of the week visiting his family and shaking hands with friends.—Clarion Democrat.

Dr. J. C. Dunn was summoned to appear before a legislative committee of the Pennsylvania Legislature, at the Bolton House, Harrisburg, on Tuesday of this week, to give evidence on important medical legislation now pending before our lawmakers. Owing to the critical condition of several patients under his care the doctor could not leave home, and was therefore unable to obey the summons.

Two dozen of the lady friends of Mrs. J. H. Robertson took possession of her home Monday evening while she was out taking tea with another of her friends, and when she responded to a hurry-up call to come home at 6 o'clock, she found everything in complete order for a most delicious and bountiful dinner. The surprise was so complete as to almost amount to a shock, but there was no

time for that, "the girls" having set about to make the occasion a most delightful one, and they succeeded. The evening was spent in a decidedly cheerful way, a guessing contest, music and "joy unconfined" taking up the hours until 'twas time to take leave of their good-natured hostess. A set of pretty engraved sterling forks was left as a memento of the happy event. Mrs. Robertson expects in a few weeks to depart with her husband for the west.

Mrs. Jennie E. Corah, wife of Thomas W. Corah, died at the home of her daughter, Mrs. D. V. Lytle, in Siverly, Pa., Tuesday, February 26, 1907, after an illness of about three months. She was the daughter of Mr. and Mrs. John Valentine and was born at Fagundus, Pa., June 8, 1854, at which place she was united in marriage with Mr. Corah, who survives her, together with the following children: Mrs. F. S. Hunter, of Tionesta; Edgar L. and Edward Milton Corah, of Warren; Mrs. D. V. Lytle, of Siverly; Miss Edna M. Corah, of Tionesta, and Miss Lena A. Corah, of Siverly. The deceased was formerly a well known and respected resident of Tionesta, the family removing to Warren eleven years ago. Chauncey E. Law, of Gowanda, N. Y., was a visitor in Tionesta over Sunday, stopping off on his way home from Pittsburgh for the purpose of visiting the scenes of his childhood and caring for the grave of his father, which he found in the old part of Riverside cemetery. His father, Lewis M. Law, and his grandfather, Chauncey Law, are well remembered by many of our older citizens, having been engaged in the hardware and tinning business here in the early '60's, their location being the building now used as a barn by J. W. Jamieson. Their residence was on the site of Mr. Jamieson's home. Chauncey Law died in 1862 and was taken to Aurora, N. Y., for burial. The death of his son, Lewis, followed on May 18, 1863. The present Chauncey Law left here a short time after his father's death and this was his first visit to Tionesta since that time, but he readily recognized the building in which his father conducted his business. He is the owner of a flourishing hotel, the New Erie, at Gowanda.

Fire at Kelleetville.

The dwelling house of Wm. Harkless, at Kelleetville, took fire from an overheated stove about 7 o'clock Saturday morning and was totally destroyed, together with all contents. During the progress of the fire Mr. Harkless was quite severely burned in going through a doorway in an attempt to rescue his baby daughter, whom he thought was sleeping in an upstairs room. The mother, however, had taken the child to a neighbor's house when the fire was discovered.

The loss will reach about \$50, with no insurance. Before noon of the day of the fire the good people of Kelleetville had raised by subscription a fund of over \$200 for the unfortunate family.

February Court Minutes.

The regular session of February court convened Monday morning with President Judge W. M. Lindsey and Associates F. N. Kreidler and P. C. Hill on the bench. There being no cases to require the attention of a jury, both the Grand and Petit Jurors had been ordered not to attend, and the session of the court was short, closing Monday afternoon.

The time of the court was taken up in hearing the constables' returns and a number of divorce cases, motions and petitions.

I had been sick for two years with backache and kidney trouble. With great effort or pain could I get out of a chair or bed. I tried all the leading kidney cures, and doctored with one doctor all winter, but got very little relief. After taking three bottles of Thompson's Barosma I was entirely cured, and have been for three years. My wife also had been troubled with her back but one bottle of Barosma cured her. P. M. Tionesta Local Institute.

A local institute for the teachers of Tionesta borough and surrounding townships was held in the High School room of the borough schools on Saturday, Feb. 23d. There was a goodly number of teachers in attendance and all took an active part in the two sessions.

The committee on program had arranged an interesting program which was interspersed by music by the Skidoo Club. The members of the club are Fern Dunn, Janet Jamieson, Agnes Joyce, Florence Maxwell, Hazel Clark and Glenn Weaver.

The devotional exercises were conducted by the Rev. W. O. Calhoun. These were followed by a talk on the proper arrangement of the school program by Supt. Morrison. The arrangement is not given the attention it should have, oftentimes it is a matter of the teacher's convenience rather than the pupils' needs.

The subject of spelling was discussed generally by a number of teachers. Good spelling was shown to be the result of eye perception with some pupils and ear perception by others. Phonics play an important part in the teaching of spelling.

Miss Iva D. Carpenter of the Tidoute schools read a very interesting paper on Industrial Education as practiced in the schools there. It was very helpful being "practical," not "theoretical."

Waste in Educational Work was taken up by June Herman, who showed the importance of proper arrangement of the program, as to length in sessions, intermissions, etc.

Glenn Henry gave an interesting and practical talk on the Value of Individual Instruction.

School Room Literature was then taken up by Prof. J. O. Carson, who handled his subject in a masterly way. The subject was further discussed by director J. C. Dunn, who showed himself an adept in reciting gems of literature.

Prof. A. W. Jones read an excellent paper on the subject of School Discipline. Prof. Jones' paper showed careful reflection and was appreciated by the teachers.

The subject of Educational Factors was discussed by Prof. Morrison, who gave some excellent ideas on education, after which the institute adjourned.

An excellent dinner was served the visiting teachers by the town teachers in the school building.

Letter to L. J. Hopkins,
Tionesta, Pa.

DEAR SIR—It is a great thing for a merchant to have the exclusive sale (in his region, of course) of anything wanted by everybody.

There are two ways to treat such goods. One is: put the price up and make big profit. The other way is: be fair and make more.

Devo is the paint that takes least gallons and costs least money a house, a job, a year, a lifetime—no matter how you reckon your costs, except by the gallon—Devo is the best care-taker and costs least money.

Don't forget that the principal part of the cost of paint is putting it on. Less gallons, less cost. Don't forget that another principal part of economy is long wear; less gallons, less cost and long wear.

It is a great thing to have the exclusive sale of popular goods, of goods that make friends, of goods that enrich both buyer and seller. Devo is perhaps only ten per cent. better than one or two others; but ten is plenty—it's 200 or 300 better than many.

There's many a merchant who hasn't found-out his goods. It doesn't take a man long to find-out that Devo is the least-money paint and why, no matter which side he is on.

Yours truly,
F. W. DEVORE & CO.,
