MRS. EDDY'S AFFAIRS.

Her Son and Nephew Begin Suit For an Accounting.

Mrs. Eddy's Financial Affairs—Hum-
mel's Statement Ruled Out—Bill
Aimed at Japanese—Train Thrown
Into Ditch—Jamestown Exposition
Stamps.

A bill in equity to obtain an ac-
counting of the financial affairs of
Mrs. Mary Baker Glover Eddy, head
of the Christian Science church, was
filed in the superior court for
Merrimack county at Concord, N. H., by
Mrs. Eddy's son, George W. Glover of
Deadwood, S. D., and his daughter,
Miss Mary Baker Glover, and George
W. Baker of Bangor, Me., nephew and
"next friend" of Mrs. Eddy.
The bill is directed against Alfred
Farlow and other trustees of the Chris-
tian Science church in Boston, and
Calvin A. Frye, Mrs. Eddy's secretary;
Lewis C. Strang, her assistant secre-
tary, and Herman S. Herring, first
reader of the church in Concord.
Besides demanding an accounting of
all transactions relative to Mrs.
Eddy's affairs, the bill asks for resti-
tution in case any wrong doing ap-
pears; for an injunction during litigation
against interference with her
property and business, and for a re-
ceiver.

In a statement issued last week by
former United States Senator William
E. Chandler, a special counsel in the
action, it is declared that Mr. Glover is
accused by a spirit of disrespect to his
mother, but believes that the proceed-
ing is in her real interest. Mr.
Glover says that the action is not di-
rected against the religion of the
Christian Scientists.

The statement further declares that
Mr. Glover had long thought that his
mother was growing too feeble in body
and mind to attend to important busi-
ness matters, but that for a long time
he was unable to confirm this suspi-
cion, because those immediately
about her seemed unwilling to allow
even her nearest relatives to have an
interview long enough to reveal her
actual condition.

Early in January, however, it is
stated, Mr. Glover, while on a visit to
Concord, was enabled to talk to his
mother for three-quarters of an hour.
As a result, after due consideration,
he decided upon the present action
"as an imperative duty too long ne-
glected."

The action is returnable at the April
term of the Merrimack county superior
court, which will begin April 2.
Bill Aimed at Japanese.
The lower house of the state legis-
lature last week passed a measure
last week known as the "anti-
alien property holding bill." It is
aimed at the Japanese and Chinese
property owners in the state, and is
intended to prevent them from acquir-
ing and owning property for a longer
period than five years. In urging the
passage of the bill Assemblyman
Drew said that since January 1 one-third
of the property transfers in Fresno has
been to Japanese.

The bill provides that any alien who
does not become a citizen of the United
States shall not hold title to lands
in this state for more than five years.
If within that time the alien does not
become a citizen the district attorney
shall compel the sale of his lands or
shares. Japanese and Chinese are not
specifically named, but as they can-
not become citizens the bill precludes
them from owning property for more
than five years.
The impression is given out that if
the bill reaches the governor he will
sign it.

Entire Train Thrown Into Ditch.
Baltimore and Ohio train No. 49 west-
bound being 18 minutes late and run-
ning 40 miles an hour, was wrecked
Thursday night near Indian Creek,
seven miles east of Connelville, Pa.
The entire train, consisting of a
combination smoking and baggage car,
two day coaches and the private car
of Robert J. Finney, superintendent
of the Pittsburgh division of the Bal-
timore & Ohio railroad, left the rails,
and after running for 200 feet along
the ties was thrown into a ditch at the
foot of the mountains, where the
wreckage was completely buried.

The engineer, Willie Irwin of Pitts-
burg, was killed and the fireman, T. D.
Frederick of Pittsburgh, fatally injured.
The baggage-master, express messen-
ger, conductor and six passengers were
seriously injured. About 30 passen-
gers were more or less cut and bruised.
Irwin was held down by the wrecked
engine and burned to death before the
passengers who were powerless to lib-
erate him.

The total appropriations aggregate
\$919,948,670, of which \$756,622,674 is
for the annual expenditures of the gov-
ernment for the fiscal year ending
June 30, 1908. The balance of the
grand total is to be used as follows:
\$12,449,685 for emergencies and de-
ficiencies on account of the fiscal year
1907 and prior years; \$1,000,000 for
miscellaneous objects, such as private
claims and the like, authorized in spe-
cial acts, and \$149,886,320 for perma-
nent annual appropriations to meet the
interest charge on the public debt, the
requirements of the sinking fund, ex-
penses of collecting the revenue from
customs, redemption of national bank
notes and other purposes. The reve-
nues of the government for 1908 are
estimated at \$850,000,000, which, it was
stated, would leave a surplus of \$20,
000,000, and not a deficit as had been
predicted in some quarters.

During the 59th congress as a whole
it was stated that \$198,000,000 was
appropriated in excess of the total for
the 58th congress.
Analyzing the increased appropria-
tions for the year 1908, over the cur-
rent fiscal year, the total of which is
given as \$40,000,000, the increases are
distributed in part as follows:
For the army \$6,700,000, fortifica-
tions \$1,800,000, legislative, executive
and judicial \$2,400,000, postal service
\$20,000,000, pensions \$5,000,000.

It was stated that while the river
and harbor bill carried approximately
\$82,000,000, the expenditure under it
would be but \$27,000,000 during 1907.
The appropriation on account of the
Panama canal during the 59th con-
gress was increased over that during
the 58th by \$69,500,000. During the
same time the postal expenses in-
creased \$50,000,000.

English Trains on Time.

The public service rendered by the British railway lines, the convenience to the traveler and the shipper, is far in excess of anything to be found in this country. The British lines are ab- surdly small when compared with our vast areas, and this of course simplifies the operating problems. There are no snowdrifts to delay schedules, no sec- tions of crudely built track awaiting perfection, and the locomotives are never far from their home shops. Yet even with allowance for these advan- tages both freight and passenger traffic are habitually handled with a regular- ity and certainty that deserve the high- est degree of praise. In any large terminal in England the number of passenger trains that arrive either ahead on time or a minute or two ahead is far greater than that of trains even the least overdue. Five minutes is usu- ally a safe margin for an important connection. At Finsbury Park, a sub- urban station just outside London, trains pass on an average of one every two minutes night and day, yet this tremendous traffic is handled with clocklike precision.—Ray Morris in At- lantic.

Queer Russian Ways.

If you drive through a Russian vil-
lage about 10 p. m. you will be struck
by the absolute quiet that pervades
the scene. Not a creature, man or dog,
is visible moving about. The place has
the air of a deserted village. Suppose
by some rare untoward chance you
come upon a group of men standing
together, apparently in conversation,
you will notice that they speak in sub-
dued tones, and wait so long as you
please, you will never hear them
laugh. The cause is simply this: These
Russian peasants believe in evil spir-
its, but, unlike the Chinese, they be-
lieve that they are attracted, not
repelled, by sounds. And so if some
doubtful face perceives that the moon
be out of doors after 11 p. m. he is a
particularly silent man. This feeling also
extends to some of the southern towns.
Kiev, the holy city of Russia, is a
model in this respect. After 10 p. m.
you may practically leave the streets
to yourself.—Blackwood's Magazine.

A Coyote Round-Up.

We have been requested to suggest
to the country people a coyote round-
up. These animals are becoming
very numerous.

One coyote in a year's time will de-
stroy many dollars' worth of poultry
sufficiently high to justify men taking
the time to kill them in the spring.
We resume the best way to handle
a round-up would be for several to
get together and select a leader and
appoint a place of meeting upon a cer-
tain day and then take in as much ter-
ritory as the number of participants
would justify.—Hill City Republican.
