Oil King to Bequeath \$250,000,-000 to Education and Charity.

Hummel's Testimony Admitted-Panic in Wall Street-Losses by Floods. Negro Rhodes Scholar-Changes In Barge Canal Route-Burning of Sinclair's Helicon Hall.

The New York Herald of Sunday says that according to a member of John D. Rockefeller, Jr.'s Bible class and who is also a personal friend of John D. Rockefeller and in a position to know of his affairs, the latter proposes soon to make a princely gift to the city of New York. It will amount to at least \$50,000,000. It will be partly charitable and partly educational,

The Herald adds; "This man informed a Herald reporter that when Mr. Rockefeller was conferring with his son at Lakewood, N. J., a fortnight ago, the meeting was not for the purpose of discussing any immediate gift, but was on the subject of Mr. Rockefeller's will, which document the oil king was then completing with the aid of his son and his lawyers. It is said that this document will astonish the world when it is made public. It will, it is declared, donate no less than \$250,000,000 for charitable and educational purposes, and it will be so bestowed that the benefit therefrom will e almost perpetual.

The manner in which these bejuests will be bestowed is said to be mainly educational and charitable. While there are some contributions for religious purposes, it is stated that Mr. Rockefeller does not think it necessary to extend any great financial aid to churches. To his manner of thinking, the churches are growing stronger and stronger and there is no danger that they will ever need any great financial assistance from one

"As to the charitable bequests, it was said some time ago that Mr. Rockefeller had in mind building model tenements for the poor, such as have been erected in some European cities. "In his will." The Herald's inform-

ant states, "Mr. Rockefeller has provided these things-bequests for religious purposes, though not of large sums; liberal bequests for education, and what are described as princely bequests for charitable purposes. It is said that there is scarcely a man, woman or child that will not benefit in some way by these prospective donations."

Hummel's Story of Evelyn's Affidavit. With Attorney Delmas fighting him every inch of the way Mr. Jerome secured from Abraham Hummel his complete story as to the affidavit which it is alleged Evelyn Nesbit Thaw made in the lawyer's office in 1903 charging Harry K. Thaw with beating her when she had told him that the statement that Stanford White had drugged and ruined her was not true.

The Hummel testimony came during the afternoon session of the trial, and Mr. Delmas, first objecting broadly to all of Hummel's testimony, offered a specific objection to each question put by the prosecutor. Justice Fitzgerald overruled every objection and Mr. Delmas had exceptions to the rulings noted on the records.

Evelyn Nesbit Thaw herself was called to the stand in the effort of the defense to keen Hummel silent. She declared she had called upon Hummel in his professional capacity and to seek his advice as a lawyer. Stanford White had taken her to the lawyer's office with that end in view.

Unsuccessful in blocking Hummel's testimony, Attorney Delmas in crossexamining the witness brought from his own lips the fact that he had been convicted in December, 1905, in the very court room in which Thaw is being tried, on a charge of conspiracy. He further admitted that two indictments for subornation of perjury are pending against him and that one of these indictments charges him with having caused a false affidavit to be made.

Medical Experts Differed.

Answering the same hypothetical question which the alienists of the defense answered by saying that Harry Thaw was suffering from a mind so unsound that he did not know the nature or quality of his act when he shot and killed Stanford White, Dr. Austin Flint, the first expert called to the stand by District Attorney Jerome in rebuttal, asserted it as his opinion as a scientific man that Thaw positively did know the nature and quality of his act and knew that the act was wrong.

Will Not Go to Washington. Messrs, McCrea, Mellen, Hughitt and Newman, four railroad presidents

for whose visit to the White House Morgan arranged before his departure for Europe, held a conference at the Grand Central station in New York. The whole situation was canvassed with great care and it was finally decided not to go to Washington.

It is understood that the reason for this conclusion was that the four gentlemen involved did not feel that they had any proper mandate from the railroad corporations to represent them.

They recognized that the railroad managers of the United States are not themselves in perfect accord, and that until some method could be adopted for securing a consensus of opinion a visit to the president would be idle, At the conclusion of the conference the various presidents left for their homes.

No Radical Attack on Rallroads. For two days the White House

ed with appeals that President Roosevelt and Secretary Cortelyou take some action to avert the "threatened disaster" in the financial and railroad world. It can be stated authoritatively, however, that President Roosevelt will not change his attitude toward the railroads, though it is admitted that the administration has no intention of entering upon an extremely radical attack on the railway corpora-

Will Not Affect General Business.

Jacob Schiff of New York declared that he could not see any reason why the Wall street panic should spread to the general business conditions of the country. Interviewed at Augusta, Ga., he said:

"I have strong hopes that much good will result from the present The railroads and the situation. people will be brought nearer together. The welfare of one is indissolubly connected with the success of the other.

"President Roosevelt did not bring about the muddle; he simply recognized earlier than most others whither we were drifting. By the wise course he has taken he has rendered a great service to the people and to the corporations themselves. The lesson will be valuable to the corporation managers in the future."

First Negro Rhodes Scholar.

The Rhodes scholarship for the state of Pennsylvania has this year been awarded to a colored man. He is Alain LeRoy Locke, 712 South Twelfth street, Philadelphia, a senior at Harvard university.

In the will of the late Cecil Rhodes shall made no difference in the selection of the candidate, and Locke was chosen on his merits. There were five who passed the examinations which were held at Lafavette college on Jan. 17 and 18, and of these Locke was deemed the best fitted to receive the

Locke will be the first negro to get one of the American Rhodes scholarships.

"I intend to devote myself to study while in England," Locke said at his home, "and on my return to this country I will devote myself to the bettering of the condition and general education of my race."

Loss by Flood In Pittsburg.

With the rapid receding of the waters in Monongahela, Allegheny and Ohio rivers, conditions are fast assuming normal proportions and the greatest and most destructive flood in the history of Pittsburg is at an end.

Ten square miles were inundated. The loss in actual dollars will probably never be known but an estimate thus far in Allegheny county may be summarized as follows: Loss in output of steel mills, \$3,000,000; loss in output of other industries, \$2,000,000; loss in wages of employes, \$1,837,000; estimated damage to industrial plants, \$2, 500,000; total, \$9,337,000.

Excitement was caused by several fires. One which swept the Mt. Washington district had to be dynamited on account of a shortage of water in the mains. The loss from both fires will not exceed \$225,000.

Burning of Sinclair's Utopia, Coroner Lees of Englewood, N.

J., has requested Prosecutor Koester to assist him in the investigation and inquest which is to follow the complete destruction by fire on Saturday morning of Upton Sinclair's Helicon Hall. The coroner has called a jury headed by Mayor McDonald Mackay, and the proceedings will probably begin on Thursday. The death of Lester Briggs caused the in-

Mrs. Grace McGowan Cooke and Miss Alice McGowan, who were injured by leaping from the burning building, are still in a serious condi-The others who were burned are doing well.

The members of the colony seem inclined to continue the experiment in a fireproof building.

Changes in Barge Canal Route. The plan to have the barge canal

pass through the city of Rome was set aside and State Engineer Skene's plan to construct the waterway south of the city was adopted at a meeting of the canal board in Albany, It is estimated that this change will save the state \$88,000 in the cost of the work and probably \$1,700,000 in claims for damages. No action was taken on the state engineer's plan to increase the depth of the locks from delegations from Ithaca and Savannah are expected to be present to discuss proposed changes in the route of the barge canal at the latter place.

No Trace of Missing \$176,000. It having proved impossible to obthe theory that an employe of the subtreasury, subject to mental aberration, misplaced the money. This employe has admitted he is subject to attacks when his mind is a blank. He that some clew to the money may be

Smothered in Ruins of Snow Fort. John Meara, the 16-year-old son of save his life. Against a high board District Attorney Jerome. fence the boys had packed a square of damp hard snow eight feet high into which they were burrowing when the Thaw was so mentally unbalanced at roof collapsed.

MAY BE VERDICT FRIDAY.

Last Word of Evidence May Be Uttered In Thaw Trial Today.

Mr. Deimas Introduced Record In Trial and Conviction of Hummel on Charge of Conspiracy-Defense Introduced More Alienists Who Swore That Thaw Was Irresponsible.

New York, March 19 .- When the Thaw trial was adjourned but four expert witnesses were to be examined efore taking of evidence closes. Three experts were disposed of in a little more than an hour, so it is generally believed that the last word of evidence may be uttered in the famous case today.

In that event the summing up by Mr. Delmas for the defense will begin Wednesday morning. District Attorney Jerome will reply on Thursday. Justice Fitzgerald may proceed immediately with his charge to the jury or he may defer it until Friday. Unless the unexpected happens there should be a verdict by Friday night,

The case for the people was closed by the introduction of the much discussed Hummel affidavit which, with the consent of the defense, was read in full to the jury. The affidavit proved a surprise only as to the severity of the alleged assaults by Harry K. Thaw upon Evelyn Nesbit during their trip through Europe In it is provided that color or religion 1903, when, according to the testimony of Abraham Hummel, Miss Nesbit would not sign statements which Thaw had prepared accusing Stanford White of having drugged and ruined

In this affidavit Miss Nesbit charges Thaw with having attacked her with a cowhide whip while they were stopping at an old castle in the Austrian Tyrol and lashing her bare skin until she became faint from the pain and swooned.

He repeated the attack next day, according to the affidavit, and afterward in Paris he beat her at halfhour intervals throughout one entire day, leaving off only when she would faint away and could no longer understand what was happening.

Miss Nesbit is alleged to have sworn in the affidavit that she was in daily fear for her life and that Thaw acted like a demented person during some of the assaults.

Contradiction of Hummel's Testimony The affidavit was in some ways a direct contradiction of Hummel's recent testimony upon the stand. In order that the defense might not prevent him from relating how the affilavit was made, he stated positively that he was not acting as Miss Nesbit's attorney when he drew up the document: that he was acting solely

now Harry Thaw's wife. There was considerable surprise. therefore, when Mr. Jerome read the opening words of the affidavit, which

in behalf of the young woman who is

in the interest of Stanford White and

"Supreme Court, County of New York: Evelyn Nesbit, plaintiff, against Harry Kendall Thaw, defendant." It is said the action contemplated when the affidavit was made was the recovery of certain property which it was alleged Thaw had wrongfully taken from the girl. In dictating the affidavit Hummel referred to himself as Miss Nesbit's attorney, she being reported to have said:

"I have received certain letters and cablegrams from Thaw which I have turned over to my attorney, Mr. Abraham H. Hummel."

The affidavit is also indorsed "Howe & Hummel, attorneys for plaintiff." When Mr. Delmas began the introduction of testimony in sur-rebuttal he introduced first of all the record in the trial and conviction of Hummel on the charge of conspiracy. He started to read the entire record, but had not reached the remarks Mr. Jerome made when Hummel was sentenced, which Mr. Delmas wanted to present to the jury, when Mr. Jerome said he would admit the entire record without objection. Mr. Delmas then said he would save the district attorney's references to Hummel for the summing up by the defense.

Police Said Thaw Was Irrational. Next Mr. Delmas put upon the stand three policemen who saw Thaw the 12 to 14 feet. At the next meeting night of the tragedy or early on the morning after, and they all declared that he either looked or acted irrationally. To two of them he complained of hearing young girls voices. The witnesses admitted on cross-examination that there were seven women of the street in the statain any trace of the \$176,000 lost tion house the night Thaw was there from the Chicago sub-treasury, secret and that they were making considerservice officers are now working on able noise, but the officers said these women could not be heard from

After this testimony had been pro sented Mr. Delmas passed to the final stages of the trial by introducwill be closely watched in the hope ing the first of seven alienists employed by the defense, three of the experts being new to the case. Dr. Graeme M. Hammond and Dr. Smith Ely Jelliffe, who have been in the case from the first, and Dr. W. A. a policeman, was smothered to death White, superintendent of the governat New York city in the ruins of ment hospital for the insane at Washa snow fort which he had helped other ington, D. C., were the witnesses and boys to build. His brother Edward, all were interrogated on the 15,000 aged 13, was dug out only in time to word hypothetical question framed by

> Basing their answers on this ques tion, all three of the experts declared the time he killed Stanford White

that he did not know the nature or quality of his act and did not know that the act was wrong. None of the three would classify the form of in-

fendant was suffering. On cross-examination Mr. Jerome drew from Dr. Hammond some new facts concerning brainstorms. The expert when asked for synonyms on

brainstorms, replied: "Maniacal furor and psycho-kinesia are synonyms."

Today the experts will be Drs. Evans and Wagner, who have heretofore testified for the defense, and who will now be asked to give an opinion on Mr. Jerome's ' ag question, and Dr. Charles W. Pilgrim of Poughkeepsie, N. Y., precident of the New York state lunacy commission, and Dr. Minas Gregory, superintendent of the Psychopathic Pavillon at Bellevue hospital, this city.

INSTRUCTION TO GRAND JURY

Which Is Investigating the Brewster

Wreck on the New York Central. New York, March 19 .- The grand jury which has been investigating the wreck of the Brewster express on the Harlem division of the New York Central railroad last month, in which 24 persons lost their lives, were specially charged by Judge Rosalsky to hand down indictments, if the evidence warrants them in doing so, not only against the corporation as such but also against the railroad officials, "be they high or low."

In very specific detail Judge Rosalsky explained the second degree of manslaughter. He told the jurymen that it was not only well settled in this state but that it is a fact that as a common carrier a railroad company is bound to exercise such care as any prudent man would in the conduct of his own business.

He called upon the members of the grand jury to indict officials, no matter what their station, should the evidence so warrant.

"The interests of the people demand that you make a thorough and vigorous investigation," said Judge Rosalsky, "to the end that those gullty of any offense against the laws may be brought to justice."

Safe Blowers Held Up Village.

Troy, N. Y., March 19.-Three safe owers held up the village of Eagle Mills, about five miles outside of this city, early yesterday morning and terrorized the community. Two of the number stood guard outside the general store and postoffice while the third used dynamite to blow open the safe and ransack the place in general. When Postmaster Mullin, who heard the explosion, reached the store he was driven off at the point of a pistol. Other residents who gathered were at a safe distance by bullets. For all their daring effort and hard work the burglars received nothing. They escaped, presumably taking a trolley later to Albany, that no legal action was contemplated

Public Land Stealers Sentenced.

Omaha, March 19 .- The most important land case in Nebraska ended in the sentence of four prominent and influential cattlemen by Judge W. H. Munger of the United States court. Bartlett Richards and William G. Comstock were sentenced to pay a fine each of \$1,500 and to serve a year in jail; Charles G. Jameson and Aquilla Triplett were each fined \$500 and eight months in jail. These men were indicted for conspiracy to defraud the United States out of upward of 200,000 acres of land in Northwestern Ne braska. All the defendants made motions for appeals, which will be ar-

Held For Bringing In Stolen Goods. New York, March 19,-Arthur P. Green and Charles D Rohrer, who

were arrested upon the arrival of the steamer Amerika Sunday on a charge of attempted smuggling, were held in \$100,000 hall each on a charge of bringing stolen goods into the country. The smuggling charge was dropped. The complaint upon which they were held was based upon a cablegram received from the Scotland Yard officials several days ago asking their arrest and claiming they had stolen gems valued at \$35,000 from London stores.

Commission Reduces Railway Fares.

Ottawa, Ont., March 19 .- The railway commission has ordered the Canadian Pacific and the Grand Trunk rallroads to reduce passenger rates to three cents a mile. The regulation goes into effect in 60 days and affects all lines east of and including Edmonton. Other roads are to be immediately notified and requested to conform to the decision or to inform the board why they cannot do so.

Gray's Confession a Fake.

San Autonio, Tex., March 19 .- D. W. Gray's alleged confession as to the Brownsville affair is considered here "Take." A telegram to department headquarters here from Lleutenant Fred Van S. Chamberlain, recruiting officer at Houston and Galveston, says: "Gray story a fake. Gray has worked in Galveston seven years and has never been in the army."

Theater and Newspaper Office Burned. Penn Yan, N. Y., March 19 .- Fire destroyed the Yates Lyceum theater

last night while "The Hottest Coon in Dixie" company was playing. The theater was erected in 1889. The loss is partly covered by insurance. The Penn Yan Democrat, established in 1824, and a photograph studio were also burned. The total loss is \$35,-

to doctors as "caterpillar rash" are intense irritation on the palms, and sometimes on the face, accompanied by a number of blisterlike swellings which, when they occur round the eyes, sometimes have the effect of obstructing vision. The preventive is to leave hairy caterpillars alone. As the "palmer worm," the hairy caterpillar of the gold tail moth, one of the commonest and most beautiful objects of the country at midsummer, passes from hand to hand, it leaves on every palm a few of its loosely attached hairs, and those hairs are possessed, for the protection of the caterpillar against birds and browsing animals, of what scientists call "urticating properties." "Urtica" is the Latin for "nettle." Many other hairy caterpillars are almost as bad as the "palmer worm," and as a general rule the less you handle any hairy caterpillar the better .--London Mail.

The Benefit of Exercise.

Exercise does for the body what the mountain side does for the stream of water. When the water runs down the mountain side it is a babbling brook, leaping out into the air now and then, throwing itself into spray, exposing itself to the air and sunshine and the waters are crystal pure. In the valley or on a level plain the waters may form stagmant pools and get covered over with slime of all sorts and inhabited by all kinds of filthy creeping things. Some people let themselves get into the condition of that stagnant pool and then wonder why the frogs croak in their brains and why the birds do not sing instead. When a person gets into the condition where the body is like a stagment pool a radical change must be made in his life. He must begin by getting vitalized, new blood into all his cells and tissues. Good Health.

Jackson in Triumph. After the battle of New Orleans, says

Thomas It. Watson in his magazine. when the victor had been crowned with laurel in the eathedral and acclaimed like a demigred through the streets, it was of his mother that he spoke to the officers whom he was about to disband their glorious work being done, "Gentlemen, if only she could have lived to see this day," As you follow the narrative of Andrew Jackson's career, you will hear him say many things that you will not approve, will see him do many things which you cannot appland, but when you recall that at the very top notch of his success and his pride his heart stayed in the right place and was sore because his mother could not be there to gladden her old eyes with the glory of her son you will forgive him much in his systems instead of a cessation was life that was barsh and cruel and utforeshadowed as a result of President terly wrong.

Thousands of thrifty men and women have built up savings accounts in banks that have not only made them independent but placed them in a class looked upon as lucky. Yet there was no luck-only thrift and economy-and a determination to succeed. This bank encourages thrift by accepting deposits in any amount from \$1 up and paying interest at the rate of 4 PER CENT. COM-POUNDED EVERY SIX MONTHS.
