Dry Goods, Millinery, Cloaks and Suits. Extraordinary Values.

Here's a story of a Skirt purchase that will be of great interest, no doubt, to the women of Tionesta and vicinity. A Cleveland skirt maker, famous for the very high order of workmanship and superb tailoring of his skirts, has just completed an order for 50 skirts. These skirts have been made up of short lengths--factory remnants--broken lines of materials of which there was not sufficient quantity to make up a complete order. Skirts among them that we considered mighty good value, early in the season, in a regular way, for \$6.50 and \$7.50 retail. Naturally we secured them at a much less price and while we could very easily get the price these skirts are actually worth, we propose putting the entire lot on Sale for

\$4.75

Three different styles, and a dozen different materials. Materials consist of neat stylish checks and broken plaid effects, in eight tans and greys and plain greys. You'll find skirts have not been slighted in the smallest detail of perfect skirt making. Full, generous width, seams bound with bias tape, hem basted so length of skirt may be easily adjusted.

Even so small a detail as Skirt hangers have been provided. One style pleated to the knee. At the knee Skirt is laid in in inverted pleats which gives a wide full flowing effect at the bottom. Self strapped.

Another style is pleated to a depth of 12 inches; here pleats widen into full box pleats and extend the full length of the Skirt.

A third style is full pleated as cut.

Some Extraordinary Suit Values.

At \$15.00, \$16.50 and \$18.00.

Since April 10th we've received some 30 Suits from a prominent New York Suit maker and not one of them but what's at least a \$5.00 bill under regular price.

Every Cloak and Suit manufacturer, because of the backward spring, experienced a season of extreme dullness between the middle of March and April 1st, due to the unfavorable weather conditions and the re-orders they would naturally expect from the retail merchant.

This Suit maker in order to keep his tailors employed put in work some two hundred Suits which he proposed disposing of at a greatly reduced price to his customers. Thirty-five of these were sent us and we found them such exceptional values that we kept thirty of them and they are the Suits referred to.

Suit buyers coming to Oil City in the next week or ten days should visit our Cloak and Suit Department, where they will find the Suits to verify the statement made about them.

Materials from which these Suits have been made have been selected very carefully, both as regard to quality and correct style of the fabrics used.

William B. James,
Oil City, Pa.

HORACE MARVIN DEAD

Body Found in Marsh Less Than a Mile From Home.

Suicide of Ernest W. Huffcut — Irish International Exposition — Resigns \$100,000 Job — Bean Combine Announced — Otto Kelsey Reconfirmed. New Santo Domingo Treaty.

The body of Horace Marvin, Jr., which was found on Saturday lying in a pool of water on the marshes less than half a mile from where he was last seen playing on March 4, was buried Sunday in "Bay Meadow Lawn," on the Marvin farm.

All the child's playmates and fully a thousand neighbors attended the funeral services.

Prior to the funeral 24 men, composing Coroner Calloway's jury, officially identified the body and authorized an autopsy. The jury was then discharged to reconvene at the call of the coroner.

There is much to make it appear that the boy wandered away and fell exhausted into the pool where his body was found.

Drs. James Wilson, Wilbur E. Burton, William F. Hoy and Alfred Roby, the latter a bacteriologist, are trying to determine the cause of death for the coroner, and have decided that the boy did not drown.

The stomach, which was removed by Dr. Roby, was empty and the child may either have been frozen or starved to death.

Many of the jurymen and detectives are of the opinion that he wandered around his father's farm and in his efforts to get back home over the frozen marshes became exhausted, fell into the pool and died of exhaustion and privation. A few still believe that the little fellow was murdered.

The detectives are perplexed at the discovery of the body so near to the Marvin home and at a spot which they had walked over again and again. To have reached the place where the body was found the boy must have walked across frozen and snow covered fields in the face of a driving wind and then climbed two high embankments besides crawling through a barbed wire fence.

Suicide of Ernest W. Huffcut. The tragic death on Saturday of Ernest W. Huffcut, counsel to Governor Hughes—the second suicide and the seventh death within the immediate connection of the legislature since the beginning of the present session—has cast a marked gloom over the

Capitol, where "the dean," as he was affectionately called, was widely known and beloved; but the indications are that it will not interfere materially with the legislative program as was feared Saturday.

Dean Huffcut was more minutely familiar than any other person with the details of the public utilities bill and it was at first thought that it might be some days before the matter could be fully adjusted again. But Governor Hughes himself and Senator Page and Assemblyman Merritt have studied the bill so closely that the loss of Dean Huffcut at this time is not a fatal matter so far as this single item is concerned. The amended bill is expected to be reported in the assembly early this week.

Just how much trouble the bill will have in the assembly owing to the more or less avowed opposition of Speaker Wadsworth to some of its major features cannot be definitely predicted. The friends of the measure are, however, reasonably confident of its passage in the assembly and anticipate the more difficult time in the senate, where the line-up of last Thursday night in the Kelsey case makes it a matter of speculation just how many senators will "support the governor" in the matter of the public utilities bill.

Funeral at Binghamton.

The body of Dean Ernest W. Huffcut was brought to the home of his parents in Binghamton on Sunday morning, accompanied from New York city by his sister, Miss Lillian Huffcut, and her close friend, Miss H. K. Smith. The funeral was held from the parents' home at 1 o'clock this afternoon and will be strictly private to conform to the wish expressed by Dean Huffcut in the last letter that he wrote.

Irish International Exhibition.

The Irish International exhibition, which opened at Dublin on Saturday, is an event of far-reaching interest to Ireland, as it is designed to revive the drooping interests of the country, and at the same time present a picture of Irish development and progress. Men of all classes, creeds and politics, headed by the Marquis of Ormond, have worked indefatigably, a guarantee fund of nearly \$1,000,000 has been raised, and an exposition eclipsing any previously attempted in Ireland is now open.

Elaborate arrangements are being made by the English railway and steamship companies to transport great numbers of visitors to the capital and their officials say they are prepared to carry between 40,000 and 50,000 passengers daily during July and August.

The opposition manifested by the Nationalists has somewhat abated, and the show promises to be a successful one. Comparatively few foreign nations have become interested in the enterprise, foremost among those

participating being France, Italy and Japan, but the principal colonies have sent fine exhibits.

Resigns \$100,000 Job.

The resignation is announced at Boston of President Frederick P. Fish of the American Telephone and Telegraph company, who wishes to resume the practice of law. He is to be succeeded by Theodore N. Vail, a member of the directorate and formerly general manager of the American Bell Telephone company. Mr. Fish will continue as a legal adviser.

President Fish has enjoyed the distinction of being the highest-salaried man in Boston, receiving as president of the telephone company \$100,000 a year. This he will give up when he retires. He has held the presidency since 1901, and is credited with being the man behind the huge development of the company in recent years.

Municipal Ownership Barred.

Five justices of the state supreme court at Lansing, Michigan, constituting a majority, decided that the city of Detroit cannot build street railway tracks to be leased to an operating corporation. The council of that city in 1905 ordered the department of public works to lay tracks on several streets and appropriated \$10,000 to begin work. A question as to the legality of this action was raised and an injunction was sought to restrain the city. The Wayne circuit court granted the writ sustaining the assertion that the city had not the right to do the work and the case was carried to the supreme court.

Government Outbid For Experts.

The draft on the "economic force" of the geological survey made by mining organizations which offer the government experts much greater salaries than they get from the government is seriously impairing the efficiency of that branch of the service, says a survey report on the investigation of metalliferous ores in 1906.

The report adds: "It is only by years of practical experience in the field that the geologist, however excellent his preliminary training, becomes competent to carry on independent work in investigating a mining district, and the loss of trained men in this work is, for a time, irreparable."

Jail For Rich Auto Scorer.

At Yonkers, N. Y., William E. Dodge of New York city, son of the philanthropist William Earl Dodge and son-in-law of Henry T. Sloane, the millionaire carpet manufacturer, was sentenced to serve a 10 days' term in prison, in addition to paying a fine of \$100 for automobile speeding. The sentence was imposed by City Judge Beall. Dodge had been arrested twice before for the same offense. On the first occasion he was fined \$25, and the next time \$50. He gave notice of appeal from yesterday's sentence and was released on \$1,000 bail.

RELATIONS SEVERED.

Mexico and Guatemala Are on the Verge of War.

American Charge in Guatemalan Capital Has Been Instructed to Look After Mexican Interests—Formality of Issuing Passports For Withdrawal of Ministers Will Require Time.

Washington, May 7.—Although telegraphic advices have not reached Washington that diplomatic relations between Guatemala and Mexico have been severed, officials here do not doubt that Mexico has taken action which will result in giving the Guatemalan minister in Mexico passports for his withdrawal.

The Mexican minister in Guatemala is now preparing to return home and the American charge, Philip Brown, secretary to the legation, has been instructed to look after Mexican interests in the Guatemalan capital upon the departure of the Mexican minister.

Ambassador Creel of Mexico has been in hourly anticipation of a message from his government that the break had occurred. He was advised that Guatemala denied the request for the surrender of General Jose Lima, who is suspected of being implicated in the murder in Mexico of ex-President Barillas of Guatemala, and that there was no alternative but for Mexico to consider the refusal an insult necessitating discontinuance of relations between the two countries.

The state department had numerous messages from Minister Lee, who is about to leave Guatemala for the United States on account of illness, and from Secretary Brown. These dispatches confirmed the advices received from diplomatic representatives of the two countries in Washington, that there was no possibility of Guatemala and Mexico settling the controversy over the demand for the extradition of General Lima.

The formality of issuing passports for the withdrawal of each minister will probably require a day or two. It is not known here what diplomatist will attend to the interests of Guatemala in Mexico, but it is not impossible that the United States will perform this service.

The severance of diplomatic relations does not mean war, but the fact that the countries adjoin causes great anxiety. There might be at any time invasions from one or the other of the countries into territory of the enemy by irresponsible bands and such trouble might easily end in declara-

tions of hostilities. The state department intends to use its good offices in an effort to adjust the difficulty.

Dr. Toledo Herrarte, the Guatemalan minister, conferred with Assistant Secretary Bacon about the situation. He said he hoped there would be a settlement soon. He declared that under the treaty between Mexico and Guatemala neither country had the right to demand the surrender of a citizen of the other. The extradition treaty is intended to cover the surrender of a fugitive, but in the case of General Lima the extradition could be expected only as an act of courtesy.

Dr. Herrarte received a cable message last night from the Guatemalan minister of foreign affairs, saying that the difficulty would be satisfactorily adjusted.

Holds Up Train to Kill Man.

Savannah, May 7.—Henry Manigault held up a passenger train soon after it left the station here to kill James Lewis, who, Manigault says, robbed him of \$50 in a card game. He had accused Lewis of cheating and the latter fled. Manigault learned Lewis had boarded the train, and as it was going slowly through the yards sent a bullet from his rifle through the cab of the locomotive, compelling the engineer to stop. Lewis leaped to the ground and attempted to run, but was shot down. Manigault rushed to the dying man, and holding off the trainmen with his rifle, took the money from the pockets of his victim and escaped.

Fushimi Wants to See "Mikado."

London, May 7.—The universal ridicule with which the prohibition of the presentation of "The Mikado" has been received here has caused a reconsideration on the part of the lord chamberlain and it is now announced that if certain modifications are made in the text the restriction will be removed. A petition is in preparation for presentation to Prince Fushimi, cousin of the Emperor of Japan, asking him to intercede for the removal of the ban and the latter is reported to have remarked that he would like to see the opera himself, as he had always understood that it was delightful and harmless.

Ruef Trial Postponed a Week.

San Francisco, May 7.—The illness of Abraham Ruef caused a postponement of his trial for one week. Dr. J. Shields, appointed by the court to make an examination of Ruef, testified that Ruef is suffering from a severe cold and is threatened with pneumonia.

Canadian Coal Strike Settled.

Vancouver, B. C., May 7.—A special from Fernie says that the miners' committee have signed the new wage schedule and all striking miners will immediately return to work.

CORLISS SAFE

Weight, 33,000 Pounds. Absolute Security. If you confuse the character and efficiency of this modern safe with that of the old style box safe, you are doing it and yourself an injustice, retarding progress. This safe is a creation—it is modern. It is as far ahead of the old style safe as the cash register is ahead of the money drawer. It represents a bank with dignity and credit, and marks it as being progressive and abreast of the times. It is absolutely burglar proof.
