High Class Pattern Hats

Take a Decided Tumble.

For this good news thank fickle April. Unseasonable weather always results in unseasonable sacrifices. But it's an "ill wind that blows nobody good." In any event, many a woman who has heretofore cast envious glances at some of our high class patterns, may now gratify her heart's desire. The new prices now place them within reach of all:

- \$7.00 for \$10.00 Patterns. \$8.50 for \$12.00 Patterns.
- \$10.00 for \$15.00 Patterns. \$13.50 for \$20.00 Patterns.
- \$16.50 for \$25.00 Patterns.

What a Year for Roses.

Fashion says large hats for summer. Fashion also says abundance of roses.

Hence what an interesting offering this is:

100 dozen Imported Roses, 49c a bunch.

A lucky purchase made of New York's leading flower importer enables us to advertise choice Imported Roses at less than half their value.

75c and 85c Fancy Silks at 59c.

The price is so low you may suspect qualities. Dismiss suspicion. It is unfounded. Fact is these silks, though representing some of the most popular effects of the season, were bought at a bargain and will so be sold.

We refer to an attractive assortment of All Silk Taffetas and Louisines in all the popular size checks.

ROOSEVELT SAYS TAFT.

Tells Ohio Visitor the Secretary Should Be Nominated.

Cleveland, May 7.—A. J. Miller of Bellefontaine, Republican congressional candidate in the Eighth district, said that President Roosevelt told him at the White House last Monday that Secretary of War Taft should be nominated for president.

"I assured the president," said Mr. Miller, "that Taft's strength in Ohio was growing and explained to him that the primary bill soon would become a law, thus enabling the proposed test of strength between the Taft and Foraker forces. To this the president replied that Secretary Taft should be nominated, and added that he was the best equipped man for the office, because of Taft's knowledge of the present condition of national affairs. He said further that the secretary was a man to whom has been intrusted some of the most delicate affairs of the present administration."

"While at the Jamestown exposition I was much impressed by interviews I had with many of the most prominent politicians of the Southern states. With one accord they said that 'President Roosevelt is a Democratic Republican and good enough for us, and if he is not nominated we would like to see 'Big Bill' Taft chosen.'"

Instruction in Bricklaying Unattractive in Carnegie Institution.

Pittsburg, May 7.—The school of bricklaying of the Carnegie Technical school has just one pupil. The great building is fitted up for 100 students and includes a staff of instructors and also about 500 tools.

When Carnegie provided for the \$10,000,000 technological schools he insisted that the first departments started must be for the instruction of young men who wished to become expert artisans.

The school for bricklaying was one of the first opened, and, while the other departments are overcrowded, Daniel Chisholm is the only student so far entered in the bricklaying class.

Chisholm reports promptly every morning. He is first taken in hand by the \$15-a-day professor of bricklaying, who gives him a little technical talk. The prospective knight of the trowel then goes to work under the direction of the \$6-a-day expert union journeyman bricklayer. The daily income to the school from Chisholm's tuition is 10 cents.

Mr. Platt represented this district in the assembly for three terms beginning in 1886, was postmaster for four years dating from 1891 and was the president and owner of the City railroad until it was sold in 1904. THE NEW MEAT LAW.

Secretary Wilson Met in Chicago Chief Inspectors of Every Large City.

Chicago, May 7.—Secretary of Agriculture James Wilson met here the chief meat inspector of every large city in the country to discuss the application of the new meat law. The conference proceeded to the Union Stock yards, where the conference was held. The yards and packing houses were first inspected, after which an executive meeting was held.

Dr. T. H. Melvin, chief of the bureau of animal industry, in an address declared that on July 1, 1906, there were engaged in meat inspection at 163 establishments 764 employes. There are now 2,204 employes at 669 establishments. There have been granted to retail dealers or butchers 3,558 certificates of exemption. Inspection has been withdrawn from 46 of the establishments principally on account of failure to obtain proper sanitation and the use of prohibited preservatives.

"The approximate cost," said Mr. Melvin, "of the inspection as conducted at this time is for cattle and calves 5 cents per head; for swine, sheep and goats, 3 cents per head, and for the inspection of meats received at official establishments from other establishments one-half of one mill per pound."

In conclusion, Dr. Melvin declared that the greatest difficulty, thus far, had been the attainment of cleanliness. Conditions were, however, in his opinion, working for the better.
