ARRIVAL AT READING

Of Bodies of the 17 Shriners Killed in Southern California.

Reef Pleads Guilty—Plot Against the Czar—Test of Submarines—Interview With Harry Orchard—General Kuroki at West Point—Standard Oil's Monopoly.

With practically the entire community paying respect to their honor, the bodies of the 17 Mystic Shriners of Reading who were killed in the Southern California wreck on May 11, were brought home Sunday night. With the dead came 10 survivors who showed the effects of the ordeal through which they passed.
When the funeral train arrived 200 Knights Templar in full uniform were on hand to act as a guard of honor. An entire troop of the state constabulary together with the city's full police force were on hand to preserve order. They were called upon to do little more than prevent people from blocking the approaches to the station.
The 17 caskets containing the Reading dead were carried from the car and placed on four large floats, each of which was drawn by white horses. Each float was laden with flowers. Headed by an escort of Shriners and Sir Knights, the procession moved from the depot to the three city mortuaries where the bodies were deposited for the night.

Large Masonic Funeral.
Two thousand persons were at the station at Binghamton when the survivors of the California wreck and the bodies of Mr. and Mrs. John W. Cutler, reached that city at 2 o'clock Sunday afternoon.
Mrs. Fred W. Grummond was in a worse condition than telegrams had led her friends to believe. She is still suffering greatly from bruises to all parts of her body, but her greatest trouble is the severe nervous shock to which she was subjected by being pinned for two hours under the wrecked baggage car.
A large Masonic funeral was held for Mr. and Mrs. Cutler Monday afternoon, all of the 33rd degree Masons of the city acting as bearers.

California Buying Wheat.
Wheat options at Chicago for July, September and December all went up past the dollar mark on Friday and remained there to the close, with the pit in a condition which a local newspaper described as "boreal storm." Erstwhile mythical dollar wheat being a reality, prophecy took on new enthusiasm and there was much talk of \$1.25 wheat. It was this sort of talk, coupled with reiteration of previous short crop predictions, that brought a flood of buying orders into the market and set a new record for the volume of business done. News from California was surprising. Ordinarily that state is a good wheat producer. On Friday California bought 500,000 bushels of real wheat in Chicago to be delivered at her granaries and predictions from that state were that California would need close to 10,000,000 bushels ere long.

Reef Pleads Guilty.
Abraham Reef, acknowledged adviser of Mayor Schmitz, and once the recognized dictator of municipal affairs in San Francisco, pleaded guilty Wednesday to the charge of extortion in Judge Dunne's department of the superior court. Sentence will be pronounced on him two weeks hence.
After a conference with his four attorneys in Judge Dunne's private chambers and after they had withdrawn from his case because of his resolve to change his plea and avoid trial, Reef, to the utter astonishment of the prosecution, arose in court and announced in a dramatic address that after long and earnest consideration he had determined to withdraw his plea of not guilty and to enter a plea of guilty. He then asked that the jury be dismissed and the trial abandoned.

Plot Against the Czar.
A terrorist conspiracy directed against Emperor Nicholas, the existence of which has been suspected for some time past, has been revealed by the arrest at Tsarskoe-Selo of a soldier of the guard regiment, who has confessed to the acceptance of a large money bribe to assist in the murder of his majesty.
All the threads of this conspiracy, which is radically different from former attempts of this nature, are not yet in the hands of the secret service men. A few underlings have been apprehended, but the real instigators of the crime and the men who furnished the blood money have not yet been identified.

Lake Mohonk Conference.
Many prominent educators and statesmen will gather at Lake Mohonk, N. Y., on Wednesday to take part in the three days' session of the 13th annual meeting of the Lake Mohonk conference on international arbitration. Among those who will address the conference are Enrique C. Cuel, Mexican ambassador to the United States; Ignacio Calderon, Bolivian minister to the United States; Lewis L. Woodford, former American minister to Spain; Nicholas Murray Butler, president of Columbia university; Francis B. Loomis, former assistant secretary of state, and John Barrett, director of the bureau of American republics.

Standard Oil's Monopoly.

That the history and operation of the Standard Oil interests "show for the past 35 years a substantial monopolization of the petroleum industry of the country, a deliberate destruction of competition and a consequent control of that industry by less than a dozen men, who have reaped enormous profits therefrom," largely through abuse of transportation facilities, is charged in a report just submitted to President Roosevelt by Commissioner of Corporations Herbert Knox Smith.
The report contains the net results of a study of the petroleum business during the year 1904. It is the first official statement of the operations and methods of the Standard Oil company, by which, the report states, through "scandalous railway discriminations" and other unlawful devices they have secured and maintained an "exclusive domination of the petroleum industry."

Interview With Harry Orchard.
Harry Orchard, the prisoner witness at Boise, Idaho, upon whom the state of Idaho chiefly relies to prove its charge that an inner circle of the Western Federation of Miners planned the murder of ex-Governor Steunenberg, denied distress or force was used to obtain the statements he made, and denied that Detective McPartland and state officers promised him immunity for his confession of crime or reward for the value of his alleged confession Orchard's manner and conversation tended strongly to confirm the assertion that he has been converted to Christianity.

Submergence Records Broken.
With all hands well and contented, with a bountiful supply of fresh air, and with records of submergence broken, the submarines Octopus and Lake rose to the surface of Narragansett bay at 4 o'clock Thursday morning, ending a test of 24 hours under water.
The Octopus blew out foul air only twice during the 24 hours she was at the bottom of the bay. It was computed that only 145th of her air supply was exhausted. If these figures are correct they tend to show that the boat could remain submerged 45 days, provided the food and fuel supply was sufficient.

Schwab's Steel School.
Hundreds of boys from the Lehigh valley, Virginia, Iowa, Michigan and other states enroll themselves as apprentices in the Bethlehem steel works, attracted by Charles M. Schwab's unique offer to instruct them in the steel industry, so that they will not only become mechanics, but skilled mechanicians. So far several hundred boys between 16 and 21 years have applied and been enrolled in the trades school which is Mr. Schwab's pet scheme, but which, however, is still in its initial stage.

Board of Guardians Sentenced.
With a single exception all the members of the West Ham board of guardians in London and the workhouse and infirmary officials whose trial began at the Central Criminal court April 24 on the charge of receiving bribes, were found guilty and sentenced to prison. In summing up, Justice Jelf characterized practices disclosed in the evidence as being a curse to the country. He added that he was afraid it was a growing curse and that the people were losing their hold on all that was best in the civic life of the country.

General Kuroki at West Point.
The methods of teaching Americans to be army officers were demonstrated at West Point to Gen. Kuroki of the Japanese army and the officers of his staff. The Japanese were guests of Colonel Hugh L. Scott, commandant of the academy, for four hours, were welcomed with a salute of 17 guns, watched a cavalry drill in the riding hall, witnessed a parade of cadets on the barracks piazza and visited the interesting buildings at the academy.

No Opposition to Utilities Bill.
Without a single dissenting vote the New York assembly has passed the so-called public utilities bill introduced by Assemblyman Merritt of St. Lawrence, 140 yeas, including that of Speaker Wadsworth, being cast for the bill.

Fined \$20,000 For Rebating.
The Chicago, Milwaukee & St. Paul Railway Co. by its general counsel, Charles B. Keeler of Chicago, pleaded guilty before Judge Holt in the United States circuit court on two indictments recently returned against the road for granting rebates in violation of the Elkins anti-rebating law. The court assessed a fine of \$10,000 on each count pleaded to, or \$20,000 in all, which Attorney Keeler at once paid.

Will of Ernest W. Huffcut.
The will of E. W. Huffcut, late dean of the Cornell law school, was probated at Ithaca on Saturday. The bulk of the estate goes to his sister, Lillian Huffcut. The parents, Mr. and Mrs. Ambrose Huffcut of Binghamton, will receive \$500 in cash each and an annuity of \$180 per year jointly. Other relatives receive minor bequests.

Saw Negroes Shooting.
Two witnesses in the Brownsville investigation before the senate committee on military affairs testified that they saw negro soldiers "shooting up" the Texas town on the night of Aug. 13th.

BAGLEY MONUMENT.

Unveiled on Capital Grounds at Raleigh, N. C.

Wash. May 21.—The unveiling of the Bagley monument on the Capitol grounds here of the statue of Ensign Worth Bagley, a North Carolinian and the only regular naval officer of the United States killed in the war with Spain, was witnessed by a crowd of about 20,000 people.
It is the gift of the entire Union, in contributions of a dollar from each contributor.
The invocation was by Rev. John S. Watkins of the Presbyterian church of Spartanburg, S. C., who was Ensign Bagley's pastor. Besides music by military bands there was a children's chorus of 250 voices.
In the procession were Confederate, Federal and Spanish war veterans, National Guardsmen and a thousand school children.
The oration was by Congressman Richmond Pearson Hobson of Alabama, and there was an address by Lieutenant Victor Blue of the navy, who was born in North Carolina.

On behalf of the alumni of the United States naval academy, a tribute to Bagley was paid by Colonel John Wilkes, the oldest living alumnus and the president of the Naval Academy Alumni association.
"Bagley and Four at Cardenas Bay," a poem, was read by Dr. Hubert Royster, the chief marshal.
The presentation of the statue was made by Chairman William W. Russ of the Bagley monument committee. The statue was received for the state by Governor R. D. Glenn.
Mrs. Adelaide Worth Bagley, mother of Ensign Bagley, was the honored guest of the day.
After the exercises Governor Glenn gave a public reception at the Capitol.

The day was a legal holiday in the state, being the anniversary of the signing of the Mecklenburg declaration of independence in 1775. The city was liberally decorated.
Ensign Bagley was killed in action off Cardenas, Cuba. He was the deck officer of the torpedo boat Winslow. Four of the crew were also killed.

Nine Lives Lost in Colorado Mine.
Trinidad, Col., May 21.—Seven miners, including Superintendent Alexander Jacobs, were burned or suffocated Sunday night at the Engleville mine at Engleville, Col. The bodies were recovered yesterday. The men went to work Sunday night and when they did not come out in the morning an investigation was started. It was discovered that fire, which broke out in the mine a year ago, suddenly spread and swept across the incline tunnel, preventing the men from reaching the outside. The point where the flames crossed the tunnel is three miles from the opening, and it was necessary to dig a temporary tunnel around the fire to reach the dead bodies.

Mrs. Gould's Suit For Separation.
New York, May 21.—Clarence Shearn, counsel for Mrs. Howard Gould, said yesterday that Mrs. Gould's suit for permanent separation from her husband has been begun in the supreme court but the papers in the case have not been served on Mr. Gould. Mr. Shearn said that Mrs. Gould brought suit on the ground of cruel and inhuman treatment covering a period of more than three years. The lawyer also declared that the suit will be tried in open court, adding: "Mrs. Gould desires that full publicity be given to it and she refuses to spare any one engaged in the plot against her."

To Make All Coal Smokeless.
Washington, May 21.—Smokeless coal will take its place commercially along with smokeless powder if an invention tested in England has not been misrepresented. The department of state has been informed that at Manchester a process has been successfully tested for depriving soft coal of its most objectionable feature by abstracting the oils which produce smoke, leaving a fuel which has been christened "coalite." It appears something like coke and can be furnished at one-third the present cost of coal. A large plant is being erected at Manchester to produce the smokeless coal.

Fatally Shoots Stepmother.
Petersburg, Ind., May 21.—Albert Taylor, a wealthy farmer living five miles east of here, fatally shot Mrs. Martha Taylor, his stepmother, at noon yesterday. His wife had applied for a divorce, and he overheard his stepmother telling his wife over the telephone to hide, as her husband was looking for her to kill her. Taylor was arrested.

Ex-Governor Hill Much Improved.
Albany, May 21.—Dr. Andrew MacFarlan, who is attending ex-Governor Hill, said today that Senator Hill was improving. "I believe," said Dr. MacFarlan, "that Mr. Hill has passed the danger point. His condition was much improved today."

BOMB IN POLICE BUREAU.

Three Officials Killed—Black Hundreds in Work of Revenge.

Odessa, May 21.—Following the assassination of three police officials here yesterday serious rioting occurred and at 8 o'clock last evening the Black Hundreds were running wild through the streets, mercilessly beating people, particularly Jews, more than a hundred of whom were seriously injured soon after the disturbance began.
The police apparently remained passive spectators of the disorder. No arrests were made and the Black Hundreds continued their work of revenge unchecked.
The tragedy which led to the rioting was as follows: While the superintendent of police and other officials were in the central police bureau in the morning two men and a girl entered the building, deposited an infernal machine in the office and hurried away. The machine exploded almost immediately afterward, killing the chief of police and the two chief detectives of this city. They were blown to pieces and seven other persons were seriously injured. The police pursued, fired at, wounded and captured the two terrorists but the girl who was with them escaped. The leader of the terrorists was subsequently identified as a man named Tcherhoff.
The two detectives killed were bitterly hated by the terrorists, one of them for participating in inciting the outbreak of 1905 here, and the other, who was nicknamed "The Hangman," because he had tortured political prisoners.

Joy at Emperor's Escape.
St. Petersburg, May 21.—Previous to the opening of the session of the lower house of parliament yesterday a resolution expressing the great joy of the house at Emperor Nicholas' escape from death, as shown by the discovery of plot to assassinate his majesty, and the deepest indignation at the criminal conspiracy so fortunately frustrated, was unanimously adopted. The reading of the resolution called forth hearty applause, but the expected monarchist demonstration did not take place. The Social Democrats, Social Revolutionists, part of the group of Toil and others were absent from the house when the resolution was presented and adopted. In formally announcing the discovery of the plot, Premier Stolypin said that not only was the emperor's life aimed at but the conspirators had planned to assassinate Grand Duke Nicholas Nicholasievich, president of the council of national defence, and himself.

Injunction Against Union Picketing.
Milwaukee, May 21.—A sweeping decision against union picketing acts was rendered by Judge A. L. Sanborn of the United States district court, in the case of the Allis-Chalmers company against the striking union molders. The strike began about a year ago, and last fall Judge Quarles issued a temporary injunction restraining the unions from interference with non-union workmen and with the business of the company. Later Judge Sanborn convicted several union men for contempt in violating the injunction, but suspended sentence as to the greater number of them. Now he makes the injunction permanent and so sweeping in its provisions that concerted picketing will be practically impossible.

Crashed Into Rear of Freight Train.
Rochester, May 21.—Westbound train No. 385 on the Falls branch of the New York Central railroad, due at Lockport at 6:50 o'clock, with a train of four coaches, crashed into the rear of a freight train east of Vine street crossing in Lockport, telescoping the coaches and piling freight cars in pyramid shape on the tracks and blocking traffic. The wreck, it is said, was caused by the members of the freight crew not flagging the passenger train. The train was running 40 miles an hour. Several residents of Lockport who were on the passenger train were badly bruised by being tossed from their seats when the crash came.

Longshoremen's Strike Collapses.
Montreal, May 21.—The longshoremen's strike collapsed last night, the men, union and non-union, returning to work on the terms offered by the steamship companies, 2 1/2 cents increase over the rates formerly paid, making a rate on general cargo 27 1/2 cents and the night rate 32 1/2 cents per hour. A meeting of the union was to have been held last evening but it was declared off, the greater portion of those who would have attended having gone to the wharves to put in an early application for their former jobs.

Claim For Injury on Lift Bridge.
Albany, May 21.—Henry R. Howard as guardian ad litem for Harold Duane Gardner filed a claim of \$15,000 against the state for injuries sustained by Gardner, an infant, through the premature operation of a lift bridge over the Erie canal at Emerson street, Rochester, June 11 last. The boy was crushed between the platform and girder of the bridge and claims to have sustained permanent injuries.

Log Driver Drowned.
Escanaba, Mich., May 21.—Manzer Carr, foreman of the I. Stephenson company's log drive, was drowned in Escanaba River early yesterday, and his body has not yet been recovered. Carr was in a boat which capsized.

HUMMEL WORKS IN BAKERY.

Is Serving a Year on Blackwell's Island For Conspiracy.
New York, May 21.—In a handsome touring car Abraham Hummel left his home in East Seventy-second street yesterday to go to Blackwell's island to serve a year in the penitentiary for conspiracy in the celebrated Dodge-Morse divorce case.
A few years ago Hummel enjoyed an extensive practice as a lawyer, having as clients some of the best known actors and actresses in this country, but his conduct of the now famous divorce case resulted in his disbarment and the humiliation he now suffers.

His method of going to the penitentiary was almost on a par with his farewell dinner given a few nights ago, at which he bade farewell to about a dozen friends prior to his imprisonment. About 100 curious spectators and reporters were gathered in front of his residence at 11 o'clock when Mr. Hummel endeavored to depart for Blackwell's island without observation.
An automobile had been standing at the curb for several hours. One of Mr. Hummel's friends left the house and entering the machine was whisked away in it. The spectators followed it a short distance and returned to the house just as it drew up to the curb again. Then Hummel, holding a handkerchief before his face to prevent a snap shot picture being taken of him, ran from the basement door, jumped into the tonneau and it dashed away.
For about three hours he took a ride around the city and then surrendered himself to a deputy sheriff, who took him on an unfrequented route to Blackwell's island. He will be put to work in the bakery.

Pierce Will Surrender.
Austin, Tex., May 21.—It is reported that H. C. Pierce has advised his personal attorney, Judge J. D. Johnson of St. Louis, that he will come here directly from New York next week and voluntarily meet the charge of having made a false affidavit in connection with the readministration of the Waters-Pierce Oil company to do business in Texas.
