LAMMERS' CASH CLEARANCE SALE

Opens Thursday Morning, August 1st.
 Closes Saturday Night, August 10th.

Terms of Sale Cash. Positively no goods sent on approval or charged except at regular prices.

TEN DAYS

Of a genuine clearance sale of all seasonable goods. You know our store, our reputation and the kind of goods we sell. We are not continuous performers on special or other kinds of sales. Don't believe in them. But we have a sale twice each year, when prices are reduced to the lowest possible point, and reductions stated in our "ads" are actual facts and for thoroughly reliable merchandise that we can and do stand back of at all times with our guarantee of "Money Back."

And if in our line your purchases amount to ten dollars or over it will well repay a trip to Oil City to attend our sale, as the saving will not be less than \$2.50, and the chances are more.

- 1-4 to 1-3 off on all men's clothing.
- 1-4 to 1-2 off on young men's clothing.
- 1-4 to 1-2 off on children's clothing.
- 1-2 off children's wash suits. 1-2 off men's wash vests.
- 1-4 off Manhattan Shirts. 1-2 off all straw hats.
- 1-4 off Stetson and all other makes soft and stiff hats.

Every article in our store with few exceptions is reduced, not five or ten per cent.,

Now these are actual reductions, no mark up and back down at Lammers'. If you know anyone who has paid us \$18.00 for a suit before the sale the same suit if in stock is on sale for \$12.50. As on account of unseasonable weather in early spring our stocks are larger than usual, and it's a case of Sell With Us.

But Not Less than Twenty-five and in Some Cases Even More,

LAMMERS,

One Price Clothier,

41-43 SENECA STREET,

OIL CITY, PENNSYLVANIA

33 DEATHS IN WRECK.

Of the 100 injured Eight Are in a Serious Condition.

Wholesale Heat Prostrations—Fitzsimmons Knocked Out—Cause of the Georgia Explosion—Trust Sentences Suspended—Corean Emperor Abdicates—Mrs. Fairbanks in Accident.

Thirty-three dead and more than one hundred injured, is the appalling record of a head-on collision on Saturday morning on the Pere Marquette railroad. The crash occurred between Ionia and Salem, Mich.

Almost as appalling as the wreck itself is the fact that for ten minutes before it occurred every operator along the line from Detroit to Bay City knew that it was inevitable.

There was nothing could be done to stop it. Officials of the road were planning, and did actually start a relief train to the scene of horror before the fatal crash occurred.

The accident occurred upon a single track line between an excursion train of 11 cars bound from Ionia to Detroit, and a freight train going in the opposite direction.

The big freight engine ploughed through five of the eleven cars of the passenger train, making kindling wood of them.

The cause of the wreck is placed upon the train dispatcher's orders being mixed, and the sending of the freight from Salem when it should have taken a siding and waited for the passenger.

The wrecked passenger train was an annual excursion train that is run from Ionia about this time every year. It is largely patronized by employees of the railroad and their families. All told there were 800 men, women and children aboard the wrecked train.

Sunday was a day of grief and mourning in the little city of Ionia, which is 120 miles west of Detroit. Mayor John F. Bible says that he estimates that one in every 50 of the city's inhabitants were either killed or injured in the wreck.

Wholesale Prostrations by Heat. The parade of the Benevolent and Protective Order of Elks at Philadelphia on Friday was marked by the prostration from heat of many persons, estimated by the police and hospital authorities at 2,500. Never has there been such a wholesale over-coming of people in that city.

For six hours the police, ambulance surgeons and Red Cross nurses kept on the run looking after persons who collapsed under the combined effect of the sun and humidity, and largely

because of the excellent service but five cases resulted fatally.

The parade was on Broad street for a distance of three miles north and the same distance south of the City hall. The paraders counter-marched the last three miles back to the City hall so that they traversed upwards of nine miles, yet few of those over-come were in the line of march.

Those who succumbed were among the spectators jammed along the street in a solid mass from one end of the line to the other. The temper-ature hovered around 90 degrees and the humidity was excessive and as a consequence people sweltered. Among the few paraders who were over-come were J. Harrington Walker of St. Paul, Minn., and Henry J. Walter, exalted ruler of the Philadelphia lodge of Elks.

Bob Fitzsimmons Knocked Out. Jack Johnson stopped "Bob" Fitzsimmons in the second round of a six-round boxing bout before the Washington Sporting club at Philadelphia Wednesday night. Fitzsimmons did not show a trace of his former prowess, and it is probable Johnson could have stopped him in the opening if he had cared to.

What put Fitzsimmons out was a light right to the jaw. The old man fell to the floor and as he made no attempt to rise the referee stopped the bout. The hissing which usually fol-lows knockouts of this character was lacking, the spectators evidently tak-ing compassion on the former pugil-ist star.

Gunboat Sandoval For Lake Ontario. Permission has been asked by the state department at Washington of the British government to station the little gunboat Sandoval, now assigned to the use of the naval militia at New York, to Rochester for the benefit of the militia on Lake On-tario.

Cause of the Georgia Explosion. The naval board which investigated the cause of the accident on the battle-ship Georgia early last week, by which ten men lost their lives, finds that the charge of powder was ignited by a "delayed flashback" which was apparently caused by the shut-ting off of the air blast too soon with a light wind blowing into the muzzle of the gun. The first section of the charge in the second loader's arms was first ignited.

In one sense the verdict is received with distinct relief by naval officers because it shows that they have no new danger to contend with. They have experienced "flare backs" before and they thought that they knew how to deal with them.

No Tariff Revision Until 1909. President Roosevelt, U. S. Senator Hopkins of Illinois and H. E. Miles, representing the Wisconsin' Tariff

Revision league, discussed the subject of tariff revision at the luncheon at Sagamore Hill Wednesday.

Senator Hopkins on leaving Oyster Bay said that the conclusion was reached that no tariff revision would be undertaken until after the next presidential election.

"It would be suicidal to the Repub-lican party," the senator added, "to undertake a revision of the tariff during the next congress. After the presidential election I believe it will be the duty of the Republican party to revise the tariff and that it will be done."

Verdict Expected Saturday Night. Argument in defense of William D. Haywood began Monday morning at Boise, Ida., and for the next two or perhaps three days E. F. Richardson and Clarence Darrow will plead for the life of their client, who, they as-ert, is innocent of any connection with the murder of Frank Steu-enberg and is falsely accused by the state of Idaho of conspiracy to kill the former governor. The Denver law-yer, who with Clarence Darrow of Chicago has taken a leading part in the defense, expects to speak eight or ten hours. It is probable that Mr. Darrow will not begin his closing argu-ment before Wednesday morning. The last word will come from Senator Borah, who will speak probably on Friday, closing up the state's side of the case. Judge Wood will charge the jury on Friday afternoon or more likely on Saturday morning and a ver-dict is expected by Saturday night.

Trust Sentences Suspended. The workhouse sentences imposed at Toledo, Ohio, upon the two bridge trust agents, the 23 Toledo lumber-men and the imposition of the \$1,000 fines against the local brick men by Judge Morris in common pleas court for violations of the Valentine anti-trust law, were indefinitely sus-pended by the circuit court Thurs-day. The petitions in error in behalf of the sentenced men were filed Wed-nesday and read by Judges Parker and Wildman, who spent considerable time hearing the arguments. It was declared by the attorneys that the Valentine law did not stipulate where the men shall be imprisoned. Ques-tions involving the validity of the law were also presented. Judge Morris Thursday morning approved the journal entries formally overruling the motions to set aside the sentences and then the case was taken to the circuit court.

Belle Telephone Loses Suit. Judge W. H. Hunt, in the United States court, at Helena, Mont., ren-dered a decision of far-reaching im-portance to telephone users to the effect that one company may not withhold the use of its lines from an- other, even though it be competing. The Montana and Wyoming and the

statual Telephone companies applied to the court for an order compelling the Rocky Mountain Bell company to furnish connections. This was resist-ed by the Bell company on the grounds that the lines were built for its patrons and not those of compet-ing companies.

Judge Hunt, however, found for the complainants and said he would name a commission to fix the division of charges when such use is made of connecting lines.

Mrs. Fairbanks in Auto Accident. Mrs. Charles W. Fairbanks, wife of the vice president, and other members of an automobile party met with an accident 25 miles west of Amsterdam, N. Y., Friday, but all escaped without serious injury. The loss of a tire ditched the machine.

While the large touring car was moving along at good speed, half way between St. Johnsville and Fort Plain, a rear tire came off, causing the ma-chine to swerve toward the ditch and throwing its occupants with consid-erable force into the roadway. All were shaken up and more or less bruised.

Corea Becomes a Protectorate. The attention of the world undoubt-edly will center in the Orient for the next few days while the ancient Corean monarchy is undergoing the humiliat-ing process of passing from an inde-pendent state to a protectorate under the newest of the great powers. Lat-est advices from the troubled region indicate that Japan proposes to act swiftly and surely and that Corea's reign of absolutism, which has lasted for more than five centuries, is rapidly nearing its end.

Good Position For John F. Stevens. It was announced by President Mel-len of the New York, New Haven & Hartford railroad that John F. Stev-ens, former chief engineer of the Pan-ama canal, has been appointed a vice president of the road, with offices at New Haven. Mr. Stevens will have charge of all matters pertaining to operation and will report to the presi-dent.

May Be Remains of Pocahontas. During the making of excavations in a churchyard at Gravesend, Eng-land, there was dug up a skele-ton which local osteologists declare to be that of an Indian woman. The find has created much interest, and it is suggested that the skeleton possibly is that of Pocahontas, who died at Gravesend in 1617.

Madman Ran Amuck With Ax. Henry Seutcheon, a farmer, about 50 years old, living near the little village of Nandic, Mich., ran amuck with an ax Sunday, killing his invalid son, his wife and her foster father. Seutcheon was afterward shot by Henry McClellan, a neighbor, when the crazed murderer also attacked.

Mysterious Glass Balls.
 According to a foreign correspondent of the geological survey at Washing-ton, among the most interesting fea-tures of the small island of Billiton, between Sumatra and Borneo, an is-land long famous for its rich tin mines, controlled by the Dutch government, are the "glass balls of Billiton," found among the tin ore deposits. These nat-ural glass balls are round, with grooved surfaces. Similar phenomena are oc-casionally found in Borneo and Java as well as in Australia. The corre-spondent quoted thinks they cannot be artificial, and there are no volcanoes near enough to support the theory that they are volcanic bombs. Besides, it is claimed, the glassy rocks produced by the nearest volcanoes are quite dif-ferent in their nature from the mate-rial of the balls. It is suspected that the mysterious objects were ejected ages ago from the volcanoes of the moon and afterward fell upon the earth.

"Caracul"—Its Etymology.
 I have often been asked for the et-ymology of "caracul," which is a term now largely used by furriers to denote a variety of the fur called astrakhan. The new English dictionary does not contain caracul, but it has caracul, which is liable to be confused with it, though really quite a different word.

Hardened.
 "Listen to this, Maria," said Mr. Stubb as he unfolded his scientific pa-per. "This article states that in some of the old Roman prisons that have been unearthed they found the petrified remains of the prisoners." "Gra-cious, John!" replied Mrs. Stubb, with a smile. "I suppose you would call them hardened criminals."—Chicago News.

But He Was Cured.
 "I think I'll have to take treatment for the forgetting habit. From whom did you take your treatment that was so satisfactory and successful in im-proving your memory?"
 "From—ah, from—ah—oh, I forget his name, but wait a minute, and I'll get one of his cards out of my desk."—Exchange.
