## THE JOHNSTON BOOK AND THE MOWER

**NOT IN THE TRUST**

Here is the Mower that's made a host of friends among farmers. A machine, like a man, is known by its work. That's why the Johnston Mower, No. 9 makes friends—it's work recommends it to the man who needs a mower.

It's roller bearing—that makes it easy on the many levers and convenient foot-levers make it easy on the man who handles it with least possible effort.

The No. 9 Mower is chain drive, has special steel lock chain and adjustable light-ener; powerful and strong; built to do the work without getting out of order.

order of breaking down just when the busy season is on. The Johnston Book describes the No. 9 Mower—tells all its good points and illustrates features every farmer will be interested in. It also describes our complete line of "Not in the Trust" tools for the up-to-date farmer. For over 32 years we have made tools for high quality in farm tools. It means even more today. Not a tool leaves the Johnston factory that isn't the best that skill and experience can build, and the best for the work for which it is intended. Always look for the name—it's a guarantee. Write for the book today, it's free.

**Living in the Electric Light.**  
Writing to a friend in the country, a New York merchant says: "I live in the electric light. I leave my home at 7 o'clock, after dressing and taking my breakfast by electric light. Then I go to the subway, one block distant, and ride to within a block of my office. There I work all day by electric light and go home again by the subway and spend the evening in the glare of the incandescent lamp. The weather conditions make no difference, because my flat and my office belong to the semidark kind. Sometimes I wonder what I would do without electric light, and sometimes I ask myself when I yearn for a little sunlight, is the new light really a blessing?"—New York Tribune.

**John Stuart Mill.**  
The genius of this great Englishman was such that before he was twenty he was recognized as the champion and future leader of a powerful school of philosophy and politics. John Stuart Mill is said to have studied Greek at the age of three and at fourteen had begun logic and political economy. The writings and doctrines of this master mind were and are still read and preached not only in this country, but throughout the world. John Stuart Mill stands out prominently among nineteenth century thinkers.—London Mail.

**Jokes in the News.**  
"Nothing but death and disaster," said Smithers, looking up from his paper. "Boat went to the bottom in New York bay."  
"How dreadful!" exclaimed Mrs. Smithers. "How many lost?"  
"Nobody lost. It was a submarine." Long silence.  
"You dropped a thousand feet."  
"Dear fellows! Killed him instantly, I suppose?"  
"No. The article says he dropped a thousand feet of rope into a bottomless pit in a Pennsylvania cave."  
Another silence.  
"Well, of all things, Congressman Wobbles kills himself."  
"How?"  
"By making a speech declaring Roosevelt is a faker."  
It was not strange that Mrs. Smithers snatched the paper from him and read the news herself.

## Fire Sale.

The largest and swiftest shoe sale ever known in Venango county took place since the fire of June 28th. When we opened our store on July 5th with 16 salespeople we discovered that our large force was insufficient to handle the people. We can truthfully state that 75 per cent. of our entire stock was sold during this sale and we will dispose of the balance, as we do not intend to start the fall and winter seasons with anything except an entire new and up-to-date stock. We had our orders for fall and winter placed three months ago and these goods are arriving daily, and any one who wishes to inspect our new stock with the idea of purchasing or not we shall be pleased to show them.

Our Fire Sale will continue till every pair previous to the fire is disposed of.

## A Remarkable Sale of Summer Cottons.

We've hit on a novel plan to empty the Wash Goods shelves. We'll have six tables with cards with prices as follows:

15c, 17c, 19c, 22c, 27c, 33c, 38c.

The merchandise on those tables will range in actual value from from 25c to 75c yard.

Each morning those pieces which have failed to move at the first price reduced to, will be put in at the next lowest price. How long we shall continue this plan we are not now able to say.

The price in force now is a radical reduction from regular price and you get first choice.
