IIIS WAS A SPOILED NATURE.

He Was Willing to Vow Vengeance on All the Sex.

Luther Burbank, the plant wizard once showed to the students of Stanford university an apple that was sweet on one side and sour on the

other. "This apple shows us," Mr. Burbank said, "how different treatments will have different effects. It shows how environment causes the most radical changes." He smiled.

"As in apples, so in men," he said. "There used to live in Santa Rosa a good, kind man, but unfortunately he married a shrewish wife, and the woman changed his nature. ain't youse?" The amateur in mission work blushingly admitted such to be the case, adding, "I have never visited you before, Mrs. Muldoon."

"Thin," explained the Irishwoman, "I tell ye what to do. You sit down in that chair there, ye read me a short psalm, ye gives me fifty cents, an' thin ye goes.'

The Governor of Oregon, in one of his speeches at the irrigation congress according to the Magazine of Fun, told the following story apropos of the political situation in Idaho.
