## PASTOR DIES IN CHURCH.

Aged Preacher Drops Dead as He Says Farewell and Women Faint.

Berlin, Sept. 17.—As he concluded the last sentence of his farewell sermon Rev. Albrecht Stage, for more than half a century pastor of the Evangelical Holy Cross church, fell dead in his pulpit Sunday. A panic followed, in which more than 30 women fainted and had to be carried from the church.

The minister, who was 78 years old, delivered his oration to a crowd which packed the building, and included many dignitaries of state and representatives of royalty. His hearers were in tears when he finished and said "amen."

With a farewell gesture the aged minister was about to leave the pulpit when he fell to the floor. A trustee, who rushed to his pastor's aid, announced that he was dead. Women became hysterical and a panic ensued. For hours the church could not be cleared.

The pastor was a favorite of the empress and was chosen by her to promote several benevolent societies in which she is interested. Death was due to heart disease.

## Rogers Too Ill to Come to Court.

Boston, Sept. 17.—Upon the evidence of members of the family of Henry H. Rogers and the family physician that the well-known Standard Oil magnate suffered some sort of stroke last July, and has since been unable to transact any business, Judge Hammond in the supreme court announced that it would be cruel to compel his attendance in court, and dismissed a motion to that effect. The condition of Mr. Rogers was disclosed in the course of a hearing on a motion to show that he was capable of attending the trial of a suit against him for \$50,000,000 brought by C. M. Raymond of Somerville for alleged conversion of certain royalties in connection with the production of petroleum. The hearing began last week with the testimony of Dr. Charles L. Pratt of New Bedford, who stated that Mr. Rogers had suffered from some stroke last July, and was not attending to his business.

## Compulsory Vaccination in Porto Rico.

San Juan, P. R., Sept. 17.—Acting upon the recommendation of Governor Post, the executive council has decided upon compulsory vaccination on the island. Six thousand vaccine points have been ordered and the work will be started in the Guayama district, where varioloid is most prevalent. There have been no deaths from smallpox in Porto Rico since the Spanish-American war, when the American authorities had the whole island vaccinated. At one time deaths from smallpox were numerous.
